

NOTICE.

Land Office at Roseburg, Oreg., June 30, 1882. To all whom it may concern: Notice is hereby given that I have designated the OREGON SENTINEL as the paper in which I shall hereafter publish all pre-emptions, homestead and applications for mining patents for lands lying near Jacksonville, Jackson county, Oregon.

A SUCCESS.—The ice-cream festival given by the ladies of the Presbyterian Church in the basement of that building last Wednesday evening proved successful as usual, the receipts amounting to \$76. A large crowd was present and all seemed happy.

DECLARED VOID.—The judgment recovered by Jackson county from Lake some time since is now declared void on the opinion of ex-Attorney General Williams and it is probable that the lawyers will make more fees out of a case that was supposed to have been fairly settled.

FALSE ALARM.—An alarm of fire was given yesterday morning about ten o'clock and everyone rushed to the U. S. Hotel to help extinguish the flames. Closer examination showed, however, that there was no fire, only that in the fire place, where the Madame was burning old boots for good luck, which she does on every Friday that comes. All the boys said when they found the cause of the trouble.

FINE DRUG STORE.—Dr. Vrooman's Dispensary is one of the finest in this end of the State, and as he sells at the very lowest prices, for cash, deserves liberal patronage. In fitting up he has shown considerable taste, every thing being found in its proper place, and his stock is all fresh and of the very best quality. The Doctor has had large experience as a druggist and we hope to see him do well.

RELIGIOUS ITEMS.—Rev. M. A. Williams will preach at the Presbyterian Church in this place next Sunday, both morning and evening. Rev. J. W. Stahl will hold services at Johns school house on Williams creek Sunday morning. Regular services at the Catholic Church by Rev. F. X. Blanchet. The Christians will hold a basket meeting at the old camp ground on Rogue river on Sunday next, Elder M. Peterson and H. C. Fleming officiating.

NARROW ESCAPE.—On account of the breaking of a breast strap on one of the horses while coming down the Grave creek hill last week S. Booth's team became unmanageable and ran away. Booth was thrown out and dragged some distance and one wheel of the wagon, which was on the hill when he got loose, had several ribs broken and was considerably bruised up, but was able to come home on the stage last Sunday, nevertheless.

NEW TELEGRAPH LINE.—A large amount of wire has passed through town this week to be used in the construction of the Government telegraph line between Fort Klamath and Camp Bidwell, on which work was commenced last Tuesday. N. Fisher of this place has the transportation contract and Capt. Burton of Fort Klamath will have charge of construction. The distance between these points is about 150 miles and several offices will be established on the route.

A CELEBRITY ARRIVED.—John L. Burns, Esq., one of the most renowned and popular young gentlemen on the Pacific coast in the whisky business, and representative of the largest distillery in the United States, arrived here last Wednesday and started for the coast on the day following. Mr. Burns' fame precedes him as a young man of more than ordinary ability and undoubted integrity, as all will find in doing business with him. He sold goods to Caton & Garrett, White Bros., Thos. Chanter and N. Cook of this county while here.

OUT OF LUCK.—Since the new company took charge of affairs on the O. & C. Stage line five accidents have occurred, caused in each case by the heavy loads of mail the company has been forced to carry. The last one happened on Bass hill, a short distance this side of Redding, when Curtis, the driver, and two passengers were slightly injured. The stage coming south last Saturday upset near Myrtle creek, bruising on old lady that was a passenger at the time. The whole cause of this trouble is the heavy loads of mail and a remedy should be found soon.

MURDER AT KLAMATH.—U. S. District Attorney Watson yesterday received a letter from Rev. L. M. Nickerson, Indian agent at the Klamath reservation, stating that on the 15th inst. an Indian known as "Spokane Ike" shot and killed another known as "Skookum Doctor." It seems that the doctor has been attending a child of Ike's and it had died, whereupon he took a Henry rifle, and according to Indian law and custom killed the unlucky physician, and fled toward The Dalles, and is supposed to be making his way to Colville, where he has relations. Mr. Nickerson has notified the agents at Yakima Warm Springs and Colville, of the murder, and requested them to arrest the murderer if he is seen. Judge Watson states that the United States statutes do not extend to cases where an Indian commits an offense against the person or property of another Indian, and therefore the matter comes under jurisdiction of the local or state authorities.—"Standard."
