

OREGON SENTINEL.

JACKSONVILLE

SATURDAY, AUGUST 12, 1882.

NOTICE.

Land Office at Roseburg, Ore., June 25, 1882.
Notice is hereby given that I have designated the OREGON SENTINEL as the paper in which I shall hereafter publish all pre-emptions, homesteads and applications for mining patents for lands lying near Jacksonville, Jackson County, Oregon.
W. F. BENJAMIN, Register.

MONEY TO LOAN.—\$200 to loan on good security. For particulars enquire at this office.

TAKEN CHARGE.—A. P. Hammond has received his appointment as Postmaster of Ashland and took charge on Monday last. The location of the office has also been moved to the Masonic building.

Pic Nic Tomorrow.—The Haymaker association of Red Men will hold a picnic at Ish's grove tomorrow to which the public is invited. Take the family out and bring a well filled basket. Hacks will run all day and the Jacksonville Brass Band will be present.

TELEGRAPH POLES WANTED.—The Western Union Telegraph Co. wants 3,900 telegraph poles for the extension of the O. & C. Railroad. Split cedar is the timber preferred and those able to furnish them can make something out of this contract. Specifications will be furnished soon.

BURNED OUT.—The camp out-fitting belonging to Wm. M. Turner's company of surveyors was burned in Lake county last week while the men were out in the field, and the loss amounts to about \$100. A new out-fit was secured and the work is progressing. They are expected back from Lake county in about a week.

RETURNED.—Morris Menor, accompanied by his oldest son, Abe, returned from San Francisco yesterday's stage after an absence of three months in the Bay city. While below he purchased a large stock of goods for the New York store and we learn that he also contemplates opening a new store at some point in Lake county.

ANOTHER UPER.—While coming from Fort Klamath last Saturday on the Ashland Linkville route, and when about sixteen miles this side of the latter place the stage upset and threw the passengers out. Supt. John Hailey of the O. & C. line was a passenger at the time and was the only one hurt, receiving slight bruises about the head.

FIRE.—The residence of H. C. Wilkinson on Big Butte was destroyed by fire on Friday evening last week together with all of its contents and all the barns and outbuildings proved a total loss. We have heard no estimate as to what the loss will amount to but the fire is generally supposed to be the work of an incendiary. Mr. Howlett and family occupied the premises at the time of the fire and they are also heavy losers.

ESCAPED.—The horse thief captured in Modoc county, Cal., by Messrs. Webb and Bybee made his escape from the California officials since which time nothing has been heard of him. The report that he got away after being turned over to Chas. Prim is untrue, the facts being exactly the opposite, the prisoner having escaped a day or two before Messrs. Prim and Montgomery arrived at Adin, who never had a sight of his man.

ANOTHER TRAGEDY.—On Wednesday night of this week, while in a fit of delirium tremens, a saloon keeper named Osterman shot another named Mitchell Brown, who was acting as nurse at the time. It seems that the former conceived the idea that robbers were in the back yard, and going out armed failed to find any one until he met Brown on his return to the house, whom he shot through the hand and in the abdomen, under the impression that this was the robber. The wounded man is still alive but very slight hopes are entertained for his recovery.

COUNTY COMMISSIONER'S COURT.—The following are the proceedings of the August term of this Court with a full board present:

The petition of Thos. E. Niefels, County Assessor, asking for an extension of time, until the first Monday in October, in which to complete the county assessment, was granted.

Wm. H. Parker, Joseph Swingle and John Mathews were appointed viewers on the petition of W. H. Simpson and others for the location of a county road leading from Camp Stewart by way of Brownsboro and McCallister's Soda Springs to the Pelican Bay road west of Brown's butte.

W. H. Gore was granted a scholarship to the State University. County Commissioner Cook was appointed to measure the ground and report what is necessary in regard to a petition for a bridge across Antelope creek.

Bids will be received for the care, maintenance, nursing and medical attention required for the county poor for the coming year, until September 5th, at 12 o'clock noon. The contract begins on September 15th.

It was ordered that the County Clerk notify all road supervisors to exterminate the weed known as the dagger cockle-burr in their respective districts, and on their neglect or refusal to attend to this act at once each supervisor shall be liable to a fine of \$25, to be recovered by suit of the District Attorney.

H. S. Williams of Portland was chosen great sachem and Ward S. Stevens chief of records at the recent session of the great council I. O. R. M.

The dresses lost by the bathers in Williams creek a short time since have been found and the owners can recover the same by calling and proving property.

The panorama advertised to exhibit here last Tuesday evening failed to arrive, its managers having probably heard how such shows are patronized here.

It is reported that G. L. Woods, who has been Governor of Oregon and Utah, would accept the nomination for Congress in the Fourth district of California.

The Del Norte "Record" of last week publishes fifteen announcements for the different county offices to be elected in November and the end is not yet.

The Postmaster General's report for the year ending June 30, show the value of the stamps and postal cards issued during the year to have been \$34,625,435.91.

The Dalles Sun has been sold to Republicans and will be run in the interest of Lair Hill for U. S. Senator. Col. T. S. Lang and Robert March will conduct the paper.

Jacob Greenbury of Portland, Oregon, who committed suicide at San Jose last week by shooting himself through the head, was a member of the A. O. U. W. of this State.

James Thornton of the Ashland Woolen Mills has gone to California in the interest of that company. He was accompanied by his wife and Mr. and Mrs. M. Baum.

J. J. Fryer, administrator of the estate of Levi Linkham, deceased, sold the real property at auction last Saturday to A. G. Colvin of Lake county. Consideration, \$1,350.

About 1,000 pounds of cheese was bought from California parties this week by G. Karowski and it is pronounced the best ever brought here by those who have tried it.

The next annual session of the State Teacher's Association will be held at Salem on the 21st inst. with Supt. L. J. Powell in charge. An interesting programme is promised.

Mrs. L. Herling's condition is worse now than last week and her recovery is hardly expected. Her daughter—Mrs. Emma Gassman—arrived from San Francisco last Sunday.

If you want a sewing Machine call at E. C. Brooks' drug, watch, clock, and jewelry store. His machines are a little finer and his prices a little snuggler than any other bugger's.

A. B. Cotter was in town this week and while here sub-let his mail route from here to Wright's to Pat McMahon at his contract price. Mail contracts seem to be in demand.

Congress adjourned this week and the O. & C. stage Co. will thus be enabled to make time once more as the supply of pub. docs. will decrease with the adjournment of that body.

The citizens of Roseburg will soon escort out of town the last stage leaving that place for the south. The Brass Band has been engaged and a dirge will be played on the way out.

Walter Jackson arrived from Ashland yesterday with one of Henry Norton's teams. He now represents one of the leading tobacco houses of San Francisco—L. & E. Wertheimer.

Jackson Co. is entitled to two scholarships in the State Agricultural College at Corvallis and those desiring the same should make immediate application to Judge Prim, State Senator elect.

Henry Klippel started for the mountains this week to join his family who are now in the Siskiyou and expects to be absent a couple of weeks. Chas. Prim officiates as County Clerk during his absence.

The stage company compromised with Mrs. M. Baum this week by paying her \$1,000 and all the expenses incurred by the accident by which the latter had an arm broken while crossing the Siskiyou.

Henry Kubli and Henry Pape Jr. returned from the mountains yesterday. Some of the same party had only got to Fort Klamath yesterday evening with chances in favor of their not going any farther.

W. C. Parsons, the Arizona capitalist who paid our mines a visit last week in company with Capt. Ankeny, is now one of the principal owners of the mine in Arizona formerly owned by the Schieffelin brothers.

Death to rats, mice, roaches and ants; PARSONS EXTERMINATOR. Burns granaries and households cleared in a single night. No fear of bad smells. Best and cheapest vermin killer in the world. Sold everywhere.

George Ross, one of the pioneer settlers of this valley, but now a resident of Portland, arrived here last Wednesday and is now on a prospecting tour through the mountains. He is accompanied by N. O. Mitchell.

John Beckner, one of the old-time miners of this county, started for Missouri on Tuesday last to visit friends and relatives in that State after an absence of about thirty years. He will return in about four months.

In these times not a woman in town retires for the night without first looking under her bed for a man. More than half of them are disappointed. There can't be a man under every bed when harvest hands are so scarce.

Judge L. L. McArthur of the Fifth Judicial Circuit has sent to Governor Thayer his resignation, and the citizens of The Dalles, to some extent have signed a petition for the appointment of Mr. Bennett to fill the vacancy.

An emigrant named Ford who was on his way from Sacramento to Washington Territory, and accompanied by his wife and four children and other relations, died near the residence of A. M. Berry on Tuesday last and was buried on the following day. Deceased was about 47 years of age.

George Freeman returned from Roseburg this week loaded with freight for Jacksonville merchants. He will quit teaming for about a month to go rusticiating to Lake county with his family and to give his team a rest.

N. Wood of Lebanon, Ohio, who is associated with N. K. Lytle in building a distillery in this valley is expected to arrive here from the East to-day. Its location will then be fully decided upon when work will be commenced.

A number of the employers on the Crescent City Wagon road quit work this week on account of some misunderstanding with the Superintendent but matters were arranged satisfactorily and all hands have again gone to work.

G. F. Billings laid a postal card upon the scales at the new post-office last Monday, and asked how much postage it would require. The new clerk began the weighing process before he "tumbled." Fun for the crowd—"Tidings."

Mr. H. L. Murton has decided on withdrawing from the forwarding business at Roseburg when the railroad is extended beyond that place. He is a good and prompt business man and Jacksonville shippers will miss him.

The spring rodeos are over in Lake county. John Jackson has branded 1200 calves and expects to brand as many more during the year. Parties in Sprague river have sold two-year-olds and upward for \$30 per head to cattle buyers.

It seems probable that the Howard survey over the Siskiyou will yet be adopted by the railroad company as no better route has yet been found. This line strikes the valley about Wagner creek and will likely pass Jacksonville near the Hanley butte.

Several members of M. Hanley's family have been down with scarlet fever but all are convalescing now. Judge Day's family is still down but no serious consequences are feared. The disease appears to attack children in a mild form this time.

There will be two parties of Government geological surveyors leave Red Bluff about August 1st. One party will go to Lassen and one party to Mount Shasta. Each party will consist of eight persons and will remain in the mountains all summer.

No decision has yet been reached by the directors as to who shall act as principal of our district school but the second, third and fourth departments have been awarded to Chas. Prim, Mrs. L. R. Webster and Mrs. Leach. School commences Sept. 18th.

Business of the Roseburg Land Office for the month of July: 1320 acres for cash; 27 homestead entries embracing 3925 acres; 21 61 homestead entries, embracing 3209 acres; 35 pre-emption filings; 1 application for mineral patent; 1 entry of 190 acres.

The "Times" editor had his hair cut and this is the way he tells it: It is fashionable for young men to have their hair cropped close to their heads. The average young man, in consequence, looks like a pair of tongs surmounted by a pumpkin with primed fans attached.

The best minstrel song of the day has just been issued. The title is "De Gospel Crown," the words and music being by Dan Lewis the famous colored author. As an "end song" this is par excellence. Sherman, Clay & Co., are the publishers, and will mail copies for 35 cents.

Instead of John Miller having 5,000 pounds of freight on the road here as stated last week the figure should have been 50,000 pounds. This will be the largest and finest stock of shelf hardware, tools, cutlery, guns, etc. ever brought here, and will be offered for sale at the lowest prices.

Secretary Teller has decided that the manzanita is a brush peculiar to the Pacific coast; that it is not timber and therefore is not subject to protection under the timber lands act. The case came up for consideration by a man being arrested for cutting manzanita from Government lands.

H. E. Bedford, who was very prominently connected with the Hendricks drowning affair at Rogue river, writes us a letter in which he calls us bad names for something we never said. The article referred to was not published in this paper, but like ex-Senator Kelly we endorse throughout.

Great numbers of immigrants are passing daily through Baker City, Oregon, and their destination seems to be Eastern Washington, and not a few are bound to Southern Oregon and Yakima bay. They are from middle, western and southern states and now and then a family from Yankelond.

Poor Jumbo and baby Elephant can't even take a quiet bath without some newspaper scribbler must intrude upon their privacy and then report their performances to the whole world. Verily, this is an age of gossip, when even an elephant can't wash himself without having it told on him.

In order to convince those who doubted his fish story last week Thos. G. Reames went to Rogue River again on Sunday last and in the presence of several of those who said that he had taken the first one out of a fish trap, he pulled out another with hook and line that weighed over twenty pounds. The other fellows have nothing to say now.

The "State Line Herald" of Lakeview is now a thing of the past having suspended publication with its issue of August 5th. The material belonging to the paper has been purchased by Frank Coffin of the "Examiner." A lack of sufficient patronage was the cause of its suspension, and the publisher says he has found something more lucrative.

RAILROAD NEWS.

Supt. John Hailey, Division Agent Carl have gone to Myrtle Creek to arrange for the running of stages from that place hereafter instead of Roseburg. A change in home stations will also occur when the terminus of the railroad is changed.

The Shasta "Courier" says the railroad survey from the mouth of Rock creek to the crossing of Welch's road, one mile, is completed. The fall is 153 feet: first half mile being 63 feet. The Douglas River side road is completed from Waugh's ferry to intermediate points. James Scobie is the boss, and the prince of good fellows, and any work he does is made for the centuries to come.

J. C. Stuart of the R. R. survey working near Grants Pass is in town receiving medical treatment having taken the "ager." He will lay off for a few days and hopes to recover soon. He reports the work of locating progressing finely, five miles of the road having been permanently located South from Jump-Off-Joe, and the line will be continued to a point near Grants Pass, the route having been decided to that point.

From Rev. Chas. Miller, who lately visited Ashland and the R. R. camp, we learn that Hulbert's surveyors have been busily engaged in running lines to the summit of the Siskiyou on the north side where they find much trouble in securing a good grade. On the most direct route by Major Barron's and to the shortest tunnel proposed, the greatest difficulty is down towards the base of the mountain, where trestle work, 150 feet high would be required in a couple of places. On the Emigrant Creek route, east of Major Barron's, a long elbow of nine miles is made to reach the summit, which strikes about where a long tunnel is required. The plans and estimates of the surveyors will be examined by the directors at Portland who will decide which to adopt. Both routes will pass through or very near Ashland.

EDITOR SENTINEL.—Coming events sometimes cast their shadows before, but in the instance of our forward movement on the line of work, notice was only given the evening previous, showing that our conjectures in relation to what will be done next are not imaginary or simply based upon rumor, only those leading minds that have the directing power know where the next blow will fall and therefore in future I shall communicate only such events that transpire under my personal observation or have reasonable color of authority.

On the 23d of July the advance was made on the extension and on last Sunday, 6th of August, we moved back to Roseburg and resumed our former work of ballasting &c. How long we will remain here is uncertain. Our return was occasioned by not having any more straight straps. In connecting the rails two kinds are required, the angled straps for the inside and the straight ones for the outside. However we laid about nine miles of track while out which brought the end of the track on the south side of the Umpqua river, about two miles south of town of Myrtle creek. In conjunction with that considerable surface work and grading was done.

The construction corps, consisting of about 170 men, is under the command of Mr. A. McCurdy, divided into several companies, each having a foreman. He is a very efficient and practical railroad man, skilled in the business, and knows how to keep every man in motion in the proper place, so there is scarcely a perceptible delay and all pull together. The Superintendent, Mr. J. B. Harris, is the right man in the right place. He can tell by a glance of his eye just how everything is progressing, and always says just what he means, which I know from experience and profit by. He is as near omnipresent as it is possible to get and this great work needs the supervision of his master hand.

The depot at Myrtle creek will be on the south side of the creek between the two bridges. There will be two switches, a turntable and a stump for the gravel pit, and judging from the diagram which I saw, the buildings and side tracks will be extensive for this point, and I doubt very much if any business is done south of Myrtle creek this winter, outside of that required by the company. I cannot see how the line will be ready, although the track may be extended to Cow creek and Southern Oregon with freight landed at Redfield. I only hope it may for your benefit, but understand that the track is only finished about five miles out from Roseburg. The rest is not lined and is up and down like the billows of the sea, and unless the road is properly filled and ballasted, or say finished, it is an injury to run over it, and also dangerous.

There is yet room for many good steady men at from \$2 to \$2.50 per day, with good board at \$18.00 per month. I find it is not generally the fault of the company why men do not remain at work, although it is possible they may make mistakes. On the other hand it is to their interest to keep good steady white men, but in a work like this they will keep sitting for some time until finally only the right men remain.

I have hardly had time to write and suppose you are more interested in that end of the road which you may have, but you will not see the cars in your valley until this division plants the spikes, so you may keep your eye on us.

J. H. HYZER.

WHEN TO APPLY PAINT.—Paint, to last long, should be put on early in winter or spring, when it is cold and not dust flying. Paint put on in cold weather forms a body or coat upon the surface of the wood that becomes hard and resists weather or an edge tool even, like slate.

In the Whole History of Medicine

No preparation has ever performed such marvellous cures, or maintained so wide a reputation, as AYER'S CHERRY PECTORAL, which is recognized as the world's remedy for all diseases of the throat and lungs. Its long continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ. Against ordinary colds, which are the forerunners of more serious disorders, it acts speedily and surely, always relieving suffering, and often saving life. The protection it affords, by its timely use in throat and chest disorders, makes it an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and those who have once used it never will. From their knowledge of its composition and effects, physicians use the CHERRY PECTORAL extensively in their practice, and clergymen recommend it. It is absolutely certain in its remedial effects, and will always cure when cures are possible.
