

NOTICE.

Land Office at Roseburg, Oreg., June 26, 1882. Notice is hereby given that I have designated the OREGON SENTINEL as the paper to which I shall hereafter publish all pre-emption, homestead and applications for mining patents for lands lying near Jacksonville, Jackson county, Oregon.

MONEY TO LOAN.—\$200 to loan on good security. For particulars enquire at this office.

MARRIED.—In Roseburg at the residence of R. Leadbetter, Esq., August 7, by Judge Fitzhugh, Inad Richey, to Miss Josephine Job, both late of Jackson county.

FORCED SALE.—Five or six head of work horses will be sold in Jacksonville at public auction on account of forced sale on Saturday, Sept. 2, 1882. Terms—Cash, or notes approved security. A bargain can be secured.

FOR LAKE COUNTY.—Peter Britt started for Crater Lake this week accompanied by Robt. Miller and Mr. Stewart of Portland. The latter is an artist and he proposes making some sketches of the scenery in Lake county while out.

WILL LOCATE.—Dr. E. P. Geary a graduate of Jefferson College of Philadelphia, and a son of Rev. E. R. Geary of Eugene City, has located in Jacksonville for the practice of his profession. His recommendations are of the very best and we are glad to welcome him as a permanent resident.

THE COURT HOUSE.—The Commissioners Court held last week made an order for the building of a new court house and a special meeting of the court was held on last Thursday and Friday to make necessary arrangements in regard to plans and specifications. It is not intended to be an expensive building and will probably be built without any increase of taxation.

TO THE PEOPLE OF SOUTHERN OREGON.—As our office is daily visited by persons seeking information concerning this country, we desire to collect and keep for public inspection, a full line of sample products, and mineral specimens. Sample of grains, grasses, fruits and vegetables; minerals, limestone, etc. coal, marble granite, potter's clay, etc. will be thankfully received, and due acknowledgements made.

CARDWELL & JOHNSON, Real estate agents.

NOTICE.—The following from the "Times" is published by us and those whom it fits will do well to take notice: "It would be well for a good many people who stop their county papers to know that a mere notification to the publisher to stop sending the paper is not enough. Every notification should be accompanied by money to pay all arrearages; otherwise the paper can be sent to them, and they will not take it out of the post office."

DISTILLERY.—N. Wood of Lebanon, Ohio, arrived here this week, and in connection with N. K. Lytle, who has been here for a short time past, proposes establishing a distillery at some point in the county. They seem to be favorably impressed with a location near Jacksonville and should proper inducements be offered they will remain here. We hope they will come to that conclusion as an enterprise of this kind would create a market for a good portion of our surplus grain.

HIS FIRST MESSAGE.—We have a student in the telegraph office and while absent yesterday he, (the student), copied the following message going over the wires, which would indicate a sad state of affairs at the Secretary of War:

EGYPT, August 14, 1882. Secretary of War. Arabi Pasha has loaded a gun with ripe watermelons. Struck the United States fleet broadside just under the water line. All hands at the pumps. GEN. WOOLSEY.

RELIGIOUS.—Regular services at the Catholic Church, Rev. F. X. Blanchet officiating. Rev. J. A. Shover will preach at the M. E. Church in this place Sunday, both morning and evening. H. C. Fleming preaches at Eagle Point next Sunday morning. The third quarterly meeting of the M. E. Church, South, will be held at Brownsborough to day and Sunday. Rev. Herman Krebs of Marysville, Cal., will hold religious services in the German language at the Court House in this place on Sunday, both morning and evening.

PIONEER'S RE-UNION.—At a meeting of the general committee of arrangements for the Pioneer celebration to be held at the Court House square on Sept. 15 the following sub-committees were appointed:

MUSIC.—E. C. Brooks, J. A. Boyer, Mrs. F. E. Shipley, Mrs. P. P. Prim. Dinner.—Medames E. Kenney, R. V. Beall, Robt. Cameron, G. W. Cooksey, B. F. Dowell, K. Kubli, G. Navlor, John Tepper, J. E. Ross, J. B. Wrisley, John Watson, Thos. Wright, C. C. Beckman, J. N. T. Miller, Wm. Bybee, Misses Alice Hanley and Mamie Love, and Jas. McDonough, Theo. Cameron, Henry Klippel, K. Kubli, J. P. McDaniel and G. W. Mace. Program.—E. D. Foudray, W. J. Plymale. Finance.—Yest Schutz. Seats and Tables.—F. Heber, J. H. Huffer.

RAILROAD NEWS.

EDITOR SENTINEL: Dear Sir: On last Saturday the first passenger train ran out to Myrtle creek in the evening. Trains will leave that place at 3:30 A. M. daily, arriving at Roseburg at 5, and thence to Portland on the usual time, so that the time through will not be materially changed.

All building material is now unloaded at Myrtle creek excepting that for the intermediate stations, of which there will be three, namely Greenville, Dillard and Oak Grove.

Several more car loads of Chinamen have arrived and gone forward, perhaps 400, and I understand more are on the way. They will gradually drift along up to Jackson county to the number of about 5,000 by the time the road is finished, and the country will be stripped as though visited by an army of locusts.

Have all your granaries full and supplies ready as they have hardly left chickens enough in this country for seed.

The paymaster is now out on his monthly visit, and will leave upwards of \$200,000 on this trip for wages alone, and some of it will certainly be sent broadcast and even Jackson county will feel the tide. Half a month's wages is always held in reserve as a contingent for possibilities and responsibilities. This makes my first installment, rather limited, but I believe it is a good rule and for the better in the end, as it always leaves a small reserve fund which would be acceptable in case of accident.

A son of Mr. David Alexander was quite seriously wounded last Sunday by a pistol becoming dislodged from a shelf by the slamming of a door. It fell to the floor and exploded, the ball striking the boy in the shoulder breaking the bone. He is not supposed to be fatally wounded.

Sunday afternoon about four o'clock, a very exciting tragedy occurred on the principal street of Roseburg, just below Marks' store, to which I was partly an active eye witness. I was near the Metropolitan Hotel when the first shot was fired by T. S. Roadman who had his victim, J. S. Downey, by the shoulders and holding his revolver around in front of him trying to shoot him while Downey was endeavoring to seize the pistol and turn the muzzle away, he being unarmed.

During the fearful struggle for life four shots were fired the last one taking effect in the mouth of Downey ranging back and upward in the neck. I think the pistol must have been cocking as the four shots were fired while I ran about 100 feet and seized Roadman by the arm and tried to raise it so as to hold the pistol up, but some other person had him by the wrist holding it down and tried to take it away. He finally surrendered it to Sheriff Purdon who also took him in charge. Downey died about one o'clock P. M. Tuesday. A coroner's inquest was had on Wednesday.

The Board of School Land Commissioners made the annual distribution of the state school fund on the 9th. The whole number of school children in the state is 65,214, and the total amount of money distributed is \$45,651. Jackson county receives \$2,253.30, having 3219 scholars. Josephine county receives \$501.20, and Lake, \$581.50. Multnomah county has 8,424 scholars and gets \$5,896.

The River and Harbor bill, which lately passed over the President's veto, appropriated \$60,000 to Yaquina Bay, and \$60,000 to the construction of a canal around the Cascades of the Col., 100,000 to the improvement of the Columbia to the sea, 75,000 for a board of engineers to examine in detail the mouth of the Columbia River. The Willamette, in Oregon, and the Clearwater, in Idaho, each get \$50,000.

The origin of the word "newspaper" is not, as many suppose, from the fact of its containing new things; but in former times (1793 to 1830) it was customary to put over the periodical publications of the day the initials letters of the compass, N. E. W. S. which show that the journal had in it all quarters of the globe, no east, west, and south. Hence the name of the word "news" before all papers of general information.

The Oakland, Cal. "Times" of last week has the following: Edward C. Robinson was admitted to practice law in the Supreme Court Wednesday, having passed a high examination. Mr. Robinson is the courteous and efficient clerk of Judge Green's court and is a young man of great promise. He acquired his knowledge of law by hard study in the evenings, while he did not neglect his arduous duties as clerk. It is not Ed's intention to hang out a single right away, believing that he has a good deal more to learn.

Senator J. H. Mitchell arrived home on the steamship Columbia on Sunday evening. He was found at his office yesterday by a Standard reporter, and stated that he was in excellent health, never better. That he was much gratified with the evident progress and prosperity of Portland. That his visit here was on account of business requiring his personal attention. In regard to his political situation he declined to express any opinion at present, and as he was very busy in replying to the greetings of numerous callers, the reporter let him escape till a more convenient season.

The track on the railroad extension south is now laid about one mile south of Myrtle creek and the grade is finished to Middleburg. The latter place will be the terminus during the winter season for freight and passenger trains but the track will likely be laid as far as the tunnel soon but will only be used by construction trains until such times when the tunnels are finished. It is probable that work will be continued all winter, both on the tunnels and on the grade, and should weather prove favorable considerable headway will be made by next spring. A sufficient supply of iron was received this week so no delay need occur on that account.

The way to ruin a boy is to let him have his own way. Encourage him in thinking he a little smarter than other boys. Never call him to account for the manner in which he spends his evenings. Never chide him for calling his parents "old man" and "old woman." If he insults his elders at public meetings and upon the streets, laugh at him; make him think he is doing something real funny. Never reprimand him for cursing or using obscene language. If he does not want to go to school, indulge him in running about the streets engaging in all kind of mischief. As he grows older, furnish him a cayuse horse, a big pair of Mexican spurs, plenty of tobacco and beer. Let him attend every horse race in the country. If he bets on a horse race and wins praise his shrewdness and sagacity; if he loses wish him better luck the next time. Never attempt to restrain his idle and worthless habits, and you have got a first class material for the penitentiary and prison for the gallews. This faithful thousands of boys now growing in Oregon.

Mother Died of Salt Rheum. J. W. Adams, Newark, Ohio, says: "Cuticura Remedies are the greatest medicines on earth. Had the worst case Salt Rheum in this country. My mother had it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years, which nothing relieved or cured until I used the Cuticura Remedies."

LOST ANOTHER FINGER.—James Lawrence, who lost the forefinger of his left hand by contact with a circular saw some months since, cut the forefinger from his right hand yesterday afternoon while at work with the same saw. Dr. Parson amputated the finger at the middle joint, just above the cut. Lawrence has had hard luck.—"Tidings."

The yellow fever continues to spread despite the rigid quarantine maintained against affected districts. The President has \$100,000 available for the suppression of epidemics, and this is to be employed in an endeavor to stop the further spread of the fever.
