Senior, " " " " " 10.00
Pupils received at any time, and special attention is paid to particular studies in behalf of children who have but limited time. For further particulars apply at the Academy.

Piles! Piles! Piles!
A SURE CURE FOUND
AT LAST!
NO ONE NEED SUFFER!
A sure Cure for Blind, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. Williams' (an Indian Remedy), called Dr. Williams' Indian Ointment. A single box has cured the worst chronic cases of 25 or 30 years standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions, instruments and electrics do more harm than good. Williams' Ointment absorbs the tumors, allays the intense itching, (particularly at night after getting warm in bed) acts as a poultice, gives instant relief, and is prepared only for Piles, itching of the private parts, and for nothing else.
Read what the Hon. J. M. Colburn of Cleveland says about Dr. Williams' Indian Pile Ointment: I have used scores of Pile cures, and it affords me pleasure to say that I have never found anything which gave such immediate and permanent relief as Dr. Williams' Indian Ointment.
For sale by all druggists or mailed on receipt of price, \$1.00.
HENRY & CO., Proprietors,
CLEVELAND, O.
HODGE, DAVIS & Co., Wholesale Agents,
Portland, Oregon.

Liquor House.
The undersigned offers Whiskey for sale in quantities to suit customers at \$3 per gallon or \$1 per quart, at the Eagle Brewery. Lager Beer for sale and delivered at the usual price.
MRS. J. WETTERER.

A correspondent writing from Rid-
dleburg to the Roseburg "Plaindealer"
gives that paper the following items:
Without the customary explanatory
prelude, we proceed to give you a few
items from this place that may be of
interest to a portion of your patrons.
To say that we are happy, is but to
tell the truth, for, contrary to the
predictions of the Myrtle Creek correspon-
dent of the Douglas "Independent," we
are the Southern terminus of the pas-
senger and freight trains of the O. &
C. R. R., and the Northern terminus
of the C. & O. Stage Co., the mails
being carried to and from here to Rose-
burg on the cars. The trains arrive
from the North at 8 30 P. M., making
connection with stages for the South,
which leaves for Redding and way
points on the arrival of the trains,
coming in from the South at 3 A. M.
in time to connect with trains for Port-
land.
This will also be the depot for South-
ern Oregon freight which has already
been ordered here, and a large number
of teams are here at present for freight
for Jackson county merchants. Geo.
Engle of your place will have charge
of the forwarding business and Abrah-
am Wheeler & Co's. large and commodi-
ous warehouse will be used to store
and pass freight through. I learn also
that we are to have an express office
which will add greatly to our conveni-
ence.
This place will be the terminus for
passenger, and freight trains, and
stages, until Redfield is reached, which
is 34 miles further South, or at the big
tunnel on Cow creek 65 miles by rail,
South of Roseburg. Just how long
that will be, no one can tell, but at
least 8 months. The track, however, is
laid to a point ten miles beyond us,
but track laying is temporarily suspen-
ded on account of the incompletion of
a large bridge; when that is done, the
work of track laying will go on as the
company are anxious to get their "sup-
ply" trains as far through Cow creek
canyon as possible, as possible to avoid
hauling their supplies on wagons. Some
little difficulty I learn, is found at the
first small tunnel of which their are 8
this side of the big tunnel, (from three
hundred to nine hundred feet each) in
getting a face on it, and for the present
a temporary track is to be laid around
it that the work may go on without
interruption.
Now I might have told you about
our town and the country round about,
but I supposed every one, particularly
those North of us were more interested
in the railroad than they are in us, so
you will wait until another time for
that.
For some time the Post Office au-
thorities have been receiving com-
plaints from the West that certain
Postmasters, in violation of the law,
refused to accept such small coin as
pennies and three cent pieces in ex-
change for postage stamps. In locali-
ties from which these complaints have
been coming five cent pieces are the
smallest coin in general circulation,
and although by the provisions of Sec-
tion 358 of the Revised Statutes Post-
masters are directed to accept minor
coin for postage stamps to the amount
of twenty-five cents. Postmasters at
these places evidently thought that an
exception would be made to their cases.
As the last complaint came through
the Secretary of War from the com-
mander at the military post at Fort
Bidwell, California, Acting Postmaster-
General Hazen notified the Postmaster
at that place that hereafter he must
conform to the law and similar instruc-
tions will be given to all Postmasters
who have violated the law in this man-
ner.
Prof. E. E. Bernard, of Nashville,
Tenn., on the 14th inst. discovered a
new comet located near the star Lambda,
in the constellation of the Twins. His
discovery was announced by telegraph
to Mr. H. H. Warner, at the Warner Ob-
servatory, Rochester, N. Y., and al-
most at the same moment Prof. Lewis
Swift, Director of the Warner Observa-
tory, received intelligence that a large
naked comet had been discovered in
Rio Janeiro, South America. Prof.
Bernard is the first person the present
year to receive the Warner prize of
\$200.
The fact that these two comets came
into view at the same time is exceed-
ingly significant.

ESTEE AND STONEMAN.—The S. F.
"Post" says: "The Republican cam-
paign is now open along the whole
line. Arrangements have been made
by which every portion of the State
will be covered. There is no mistak-
ing the fact that the Republican ticket
is gaining strength daily. Wherever
Mr. Estee appears he makes friends.
The experience of the Democracy with
Stoneman is quite the reverse. At
Stockton, three weeks ago, Stoneman's
address was a fiasco, and many Granger
Democrats then publicly announced
their determination not to vote for him.
The Democratic State Central Com-
mittee dare not permit their candidates
to stump the State. The Democracy
are heartily ashamed, and tired of
their nominee."
RELICS OF THE STONE AGE.—Mr.
Gotschger of Josephine county, who has
been at Shovel creek on the Klamath
river for some time, returned home
this week, and while in Ashland
showed us a war club and several pipes
of a curious pattern which he had found
in crevices of the rocks on the high
cliffs above the Klamath near Shovel
creek. The place was apparently an
old Indian sepulcher, and the war club
and pipes all made of stone, may have
been lying there for centuries, or possi-
bly have been placed there with dead
Indians of latter date than the stone
age, who had preserved these relics of
that epoch as valuable treasures.—
"Ashland Tidings."

David, Samuel and Willard Baker
were arrested at Yreka a few days ago
for stealing Rees Nanna's racehorse.
Red Buck deposited \$1000 for their
appearance, and they were liberated.
The impression prevails here that the
boys are innocent, and that they are
the victims of a conspiracy.

ADVICE TO WOULD-BE JOURNALISTS.
An old journalistic stager has been
throwing out gratuitous advice to
would-be journalists. We don't know
his name, but we do know that he
launched forth whole chunks of wisdom.
He says that four hundred dollars per
year is about the average salary paid to
the editors, reporters, and printers of
the United States engaged in news-
paper work. Young man—you who
are longing to join the band of "public
opinion moulders"—just think of that!
Four hundred dollars per year for the
best slice out of your life! Haven't
you better stick to the farm, the count-
ing room, or learn a good trade, that,
when you become tolerable proficient
in it, will pay you remunerative wages?
Thousands have learned that "mould-
ing public opinions" is a mighty poor
business.—Moulding stove lids pays
much better, and doesn't cause half the
wear and tear on the moulder's system.
A good many think news paper work
is just as easy as falling down on ice,
or finding girl's lips in the dark. We
used to think so ourselves, but that
was when we were more cranky than
we are now. We knew a young man
once who for two years longed for a place
on a paper as a reporter, and at last
he got it. The first day he was re-
quired to report a horse race, a temper-
ance meeting and a murder seven miles
out of town. After he had done all
this, the managing editor told him he
might write a Washington letter, giv-
ing a summary of the political situa-
tion at the national capitol, and then
he could go out and get some points
on the stock market for the next day's
paper. He wanted to know of the
managing editor how in the name of
the dread future he was going to write
a Washington letter at a point three
thousand miles from the national capi-
tal, and when he had never been there
in his life. The managing editor coolly
replied that "if he couldn't write a
letter from any point in the known
world on fifteen minutes notice, he'd
better quit the newspaper business be-
fore he disgraced it." He resigned
that same evening and went back to
his old counting-house stool, and his
old-time independent twenty dollars a
week air, and never asked to be a
journalist again. Some men seem to
be born to do newspaper work, and they
will do it if they have to live on cold
hash and sleep on exchange papers
spread on the floor of the editorial
room. And they will be just as happy,
too, as the son-in-law of a monopolist
with a bad cough. They would never
be contented in any other calling, ev-
en if it paid them \$10,000 and fire-
wood. All others should keep out of
the journalistic field.
