OUR NEW HOTEL BUILDING BE. Using completed for occupancy, the un-dersigned takes pleasure in announcing that we are prepared to entertain the trav-eling public. No pains will be spared to tramps, frugitives from justice, etc., provide for the comfort of our guests and to make them feel at home with us. The most modern unprovements have been introduced, and the accommodations of the United States will not lay behind the best strangers and charp of granting bart appointed inland hotel on this coast. Our tables will aiways be supplied with the best the market affords and served in the est style by a corps of obliging waiters. The beds and bedding are all new and fitted up in the most comfortable style, suited to the accommodation of single oc-JANE HOLT. cupants or families. Jacksonville, March 5, 1881

to them. This fact sometimes makes trouble for honest people as will be seen by the following: A few days since John Salmon of this city brother of Wm. Salmon the inventor of the rotary quartz smasher, started for Derickson's quartz mill, on Williams creek, Jackson county, to look after a crusher which was not giving entire satisfaction. On arriving at the end of the railroad finding it difficult to procure a team he concluded to walk the remainder of the distance, about 25 miles. The way was long and rough, up hill and down, and night overtook him before half the journey had been completed. Seeing a comfortable looking farm house he called and asked for

lodgings and to his surprise and disgust was refused. He trudged along and tried the next house with the same effect and one after another till far into the night but no one for love or money would take him in, thinking from the fact of his traveling on foot and in the night that he was a disreputable character. Finally he was constrained to wrap the drapery of his ulster around him and lie down to such dreams as might chance to visit him from Milwaukee, Wisconsin.
