

OREGON SENTINEL.

JACKSONVILLE SATURDAY, JANUARY 27, 1883.

NOTICE

Land Office at Roseburg, Ogn. June 26, 1880. Notice is hereby given that I have designated the OREGON SENTINEL as the paper in which I shall hereafter publish all pre-emptions, homestead and applications for mining patents for lands lying near Jacksonville, Jackson county, Oregon.

FOR SALE.—Four thousand pounds of Liverpool salt—coarse and fine—at Nick Ficke's butcher shop.

WANTED.—Several hundred bushels of good grain of every description, for which cash will be paid. For further particulars enquire at the distillery near town or address me at Jacksonville. N. K. LITTLE.

MINERS AND MARRIED WOMEN EXCLUDED.—The commissioner of the general land office has decided that miners and married women are not entitled to enter timber lands in California, Oregon, Nevada and Washington Territory, under the Act of 1876, providing for the entry of timber lands.

BEST BARGAINS OFFERED.—The largest arrivals of the season at the New York store which has this week received the most extensive and finest assortment of general merchandise ever offered in this market, consisting of dry and fancy goods, notions, clothing, and the best and latest patterns of boots and shoes, hats, caps, etc., which will be sold under the hammer. Call and see and you will find it to be so.

RELIGIOUS ITEMS.—Elder M. Peterson will hold services at Eagle Point Sunday morning. Rev. M. A. Will fans preaches at the Presbyterian church in this place Sunday, both morning and evening. Rev. J. A. Slover will preach at the Manzanita Baptist church Sunday, at 11 o'clock A. M. There will be a business meeting the day previous at 10 o'clock A. M. Rev. B. J. Sharp being indisposed, he will be unable to fill his appointments next Sunday.

A SMALL FIRE.—The residence of Mr. Summers was the scene of a small but lively fire on last Wednesday afternoon. It originated in some clothing which had been placed before the fire to dry, and was soon communicated to the lining on the walls, and almost instantly enveloped the whole interior of the room. The timely arrival of assistance prevented the entire destruction of the building. As it was, but little damage was done. Mr. Summers feels very grateful to the citizens who so eagerly assisted in saving his property.

ANNOUNCED.—Last Monday our school directors, upon the suggestion of Professor Merritt, adjourned the school for two weeks. This was thought advisable on account of the spread of scarlet fever amongst the pupils and the consequent decrease in attendance. It is very unfortunate that the school work should be so much disturbed but this action of the directors will be commended by all. Even if the school does not increase the spread of the disease, the attendance has become so much diminished as to seriously interfere with the progress of the pupils.

A NEW DISEASE.—The disease with which so many people, old and young, have recently been afflicted, and which, for want of a better name, has been called scarlet fever, also prevails to a considerable extent at the railroad front. The doctors there insist that it is a new disease which has been brought here by the Chinese who come to work on the railroad. It certainly is very different from any scarlet fever ever seen in this country and this new theory may be the correct one. Whatever is the name of the disease it is often a very serious matter and too much care cannot be taken in its treatment. Those afflicted with it should be especially careful not to take cold.

A WELCOME GIFT.—When Wm. H. Simpson of Brownsboro died a short time since, he was a member, in good standing of Banner Lodge No. 23, A. O. U. W., of this place, and on Saturday last, a check for \$2000 was received by the widow of the deceased, from the grand lodge of that order in this State. This is the best, safest, and cheapest insurance extant and for the guidance of those who do not know how to provide we print the following instructions: Consult some friend who belongs to the Order. If he thinks well of your joining, he will procure for you a blank application for membership, which being filled out and signed by yourself, you take it to the Lodge's medical examiner. Here you will be questioned and your lungs and pulse examined. The medical examiner will then forward your application to the Lodge, with his report of your examination. Then, if everything goes favorably, you can appear for initiation within two meetings, at most, from the time your application is made. And if you become a member, you will never be sorry for the job. It is something to be proud of, to be able to present your wife, your sister or your mother a beautifully printed and embellished promise of the Grand Lodge, backed by nearly 4,000 Workmen in this jurisdiction, to pay her \$2,000 on your death. There is something grandly sweet and touching in making such a sacrifice in life, that those with whom you have lived while on earth, will receive the benefit of your unselfish kindness when you have passed away. In most Lodges it will only cost you about \$15 to join, after which it will cost you about \$1.50 per month at the highest.

He goes to pay his aged mother a long promised visit, and to meet, once more the friends of long ago. We cordially wish him a pleasant journey, a happy meeting and a safe return.

This is what Hon. S. S. Cox thinks about the next Speakership of the House: "In my opinion New York will name the next Speaker; and if I receive the solid support of the New York delegation, I shall enter the race with a strong hope of winning, as I have received voluntary support from three of the California delegation and have had letters from Ohio and Michigan urging me to become a candidate."

Capt. Caton and James Armstrong started for Cinnabar today this week but were unable to go through an account of deep snow on the mountain. While returning Armstrong's ankle was severely injured by the falling of his horse. He was at once taken to Nick Wrights and has since been brought to town.

Now is the time when the slippery citizen, without wood in his shed, or the love of the Lord or the fear of the devil, in his heart, slips silently over his neighbor's back fence, and, shaded by the sable curtain of night, borroweth divers and sundry of a dry sticks of wood, and disturbeth him not in his slumbers.

The trial of Wm. Otwell for assault and battery without intent to kill which has occupied the attention of the Circuit Court for several days was given to the jury yesterday about four o'clock. After being out for about four hours the jury returned a verdict of "not guilty" and the defendant was discharged.

Our town has been honored for about two months, with the presence of "Six toed Pete." This noted individual has been everywhere, and knows everything, that is nearly everything. But he has gone now, and our town has sustained an irreparable loss, but what is our loss is someone else's gain—he has wended his way toward Jacksonville.—"Del Norte Record."

During the quarter ending December 31st, 1882, 223 letters were registered.

Frank Krause, the publisher of this paper, was sick this week and was unable to attend to his editorial duties. He is therefore, not responsible for any of the sins of commission and omission of which this number is guilty. The indulgence of a generous public is respectfully solicited in behalf of the amateur who edits this issue. Mr. Krause is rapidly convalescing and will be able to resume his labors next week.

We heard a prominent physician say a few days ago, that he thought it was the duty of the proprietor of Ammen's Cough Syrup to give the formula to the medical faculty, so they could prescribe and use it without violating the rules of the profession, for, said he, "so many of my patients praise it to the skies, and cases have come under my observation where it has been remarkably beneficial, that I know it must indeed be a wonderful discovery in medical science." This medicine is for sale by respectable druggists and dealers in medicine everywhere.

Callum succeeds Senator Davis of Illinois and Iowa is to be represented in the next Senate by Jeremiah N. Wilson Colquitt from Georgia, Gibson from Louisiana, Riddinger from Virginia, Frve from Maine, and Garland from Arkansas and the other Senators elected so far as heard from in Nebraska, Colorado, Michigan and Minnesota there is a deadlock on the Senatorial question.

Judge Fitch of Eugene, brother-in-law to D. Linn, died last Sunday. He was born in Luzerne county, Penn., Dec. 1, 1843, moved to California in 1863, and came to Oregon about two years later. He was principal of the public school at Roseburg, and while teaching, read law with ex Gov. Chadwick. He was admitted to the bar in 1867, and shortly after was married to Miss Nannie Linn, of Jacksonville. In 1870 he commenced practice in Eugene, and has been associated in law with Messrs. Underwood, Thompson & Fagan respectively. He was elected prosecuting attorney of his district in 1872, and re-elected to the same office in 1874. He was elected judge of Lane county in 1880. He was prosecuted by quick consumption about the first of December. He leaves a wife and two daughters, aged respectively twelve and nine years. The Judge will be sadly missed by a large circle of admiring friends.

HORSES DYING.—It is reported, says the Roseburg "Plainsdealer," that a great many horses belonging to the R. R. Co. have died at the front recently with some new disease unknown to our horse men. Our informant was unable to give us the symptoms or diagnosis of the case, but it appears to have proved very fatal there, as no less than twelve fine horses were dead in one camp. The company have secured the services of a veterinary surgeon and the malady is considerably abated.

According to a paragraph in Wednesday's "Oregonian" the deputy sheriff who came down to examine Smith the supposed murderer of Mrs. Petch, does not yet understand the facts which led to his visit here. When the question of Smith's identity came up, some gentlemen, well known and highly respected in this community, compared the description forwarded by this deputy, as well as a photograph of the Petch murderer, with the Smith in jail here, and decided that they had the right man; not because of the similarity in names, as suggested by the deputy, but because both the photograph and the description plainly pointed to him as the man. A description of this Smith was telegraphed to the sheriff of Yamhill and the deputy came down. Upon arriving here he said the Smith he wanted had two scars on his neck. Now, to an ordinary individual, that fact would be considered a very necessary part of the description of the man; but strange to say it was entirely omitted from a telegraphic description of eighty five words which had been sent here by the same deputy. Even after he had failed to find the scars, he could not be sure that Smith was not the right man until he had explored his naked back in search of a scar which, by the way, he did not fail to find. The reward offered is not \$2000 as represented by the "Oregonian," but is \$1000.

RACES.—Phoenix was filled with people from all parts of the county last Saturday. Everybody came to see the races and all seemed satisfied with the sport. The first was a running race, quarter mile dash between Simpson's "Cap. Jinks" and Dollarhides "Dick" for \$100 a side. Dick was too slow for the little Captain and so got left. The next race was Jinks against a mare owned by D. Payne, same distance for \$80 a side. Again the Captain came off victorious. The next race was between Dick and the Frame mare, same distance for \$25 a side. Dick did his best but the mare measured the quarter so quickly that he was again defeated. Then the Payne mare and the Sly mare matched for the same kind of a race, but the Sly mare skipped along too slowly and came out behind.

A mare belonging to E. K. Anderson next came up to the scratch against a pony for a 200 yards dash for \$7.50. The pony was defeated. Next day a quarter mile trotting race was arranged between a stallion and a mare, for \$100 a side. In the last two heats the stallion stepped along too lively for the mare and scooped the purse. Geo. Dunlap's bay horse then beat "Mountain Boy" a running race and everybody went home.

RAILWAY ACCIDENTS.—A terrible accident occurred on the Southern Pacific R. R. near Tehachapi station on the 20th inst. when Col. C. H. Larrabee Mrs. ex-Governor Downey, Mrs. John F. Cassell, Mrs. O. H. Oliver, F. W. Pearson, Miss Squires, Lewin Wethered, Wright, two tramps, names unknown, and several others who were not identified, lost their lives. The accident was caused by leaving a number of passenger coaches standing on a steep grade, while the engine was detached to take on coal and water. The cars started down the grade, attained a terrible speed, and at a sharp curve, five cars jumped the track and went down into a canyon forty feet below. The cars were piled one on top of another and took fire. Of the passengers in them, but six escaped. Fourteen were wounded, more or less badly, four killed outright, and seventeen burned to death. Col. Larrabee will be remembered here as having stumped Oregon for Hancock in the Presidential election of 1880.

A HORRIBLE AFFAIR.—We have been informed of a horrible affair that happened one day last week on the Sinaloa, about five miles below Cartwright. The facts as told us are about these: Mrs. Rook, wife of the Rev. Rook, left home to visit a neighbor who lived near 1 1/2 miles away. At a point about equidistant between the two houses she met the neighbor's dog, and it immediately attacked her, threw her down, broke one of her legs and gnawed the flesh therefrom, after which it terribly mangled her breasts and tried to get at her throat, but could not succeed as she firmly clapped her hands over that portion of her body and although they were terribly torn and mangled, she kept it from choking her to death or cutting her throat. The continued cries of the woman were finally heard by the owner of the dog who arrived in time to keep it from killing her outright as she was almost exhausted. He killed the dog and cared for the woman as best he could, but there is little hope of her recovery.—"Plainsdealer."

SPEAKS FOR ITSELF.—The following is one of the numerous testimonials received by J. Callaghan from those who have used his Blood Purifier: January 10, 1883. Mr. Callaghan—When my girl commenced taking your medicine the erysipelas broke out all over her body and she was very sick for several days but she is quite well now and is as fat as a buck. This was a bad case of long standing. Yours truly, DR. MILLER.

A CARD To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self addressed envelope to the Rev. JOSEPH T. INMAN, Station D, New York City.

LOST.—On the streets of Jacksonville on Thursday last, a small pearl handled gold pencil. The finder will be liberally rewarded by returning it to this office.

NEW MAIL ROUTE.

Efforts are being made to secure a daily mail between this place and Jacksonville, which if successful will be quite a convenience to people in this county, as well as those up the coast, whose mails pass through this place. The wagon road over the mountains will be finished for early spring travel, when we are informed, Mr. Miller, who has the mail contract on this end of the route, will put on a stage, making the trip from Crescent City to Waldo in one day. But we are at a loss to know how he is to manage to carry the mail over the new road, as there is a postoffice at Gasquet's which is on another road altogether, the new road leaving it six or eight miles out in the c.d. There has been an effort made to have this office abolished, and Postmaster Woodbury has been asked to sign a recommendation to that effect which he refused to do, as it would work a hardship to the men living in that vicinity, who, if this office was done away with, would be obliged to get their mail here, twenty miles away. This course seems impracticable and would be working an injustice to the settlers in the neighborhood of Gasquet's. However, we hear that Mr. Gasquet has done a large amount of work on the road leading by his place, and rumor has it that within two years there will be a good road by that route, and the saying, "a feast or a famine" is likely to be verified in this case. We have been without a passable road for a good number of years, and now have a prospect of two. But we are sure of one, and that is satisfactory to us. Next summer we shall expect to see a considerable amount of teaming over the mountains, we shall expect to see families and pleasure seekers from the interior visit the coast, many of whom have never heard the roar of the ocean, and see the magnificent and varied scenery along the rock borders of the ocean.—"Del Norte Record."

Quinine and Arsenic From the basis of many of the Aque remedies in the market, and are the last resort of Physicians and people who know no better medicine to employ, for this distressing complaint. The effects of either of these drugs are destructive to the system, producing head ache, intestinal disorders, vertigo, dizziness, ringing in the ears, and depression of the constitutional health. AYER'S AQUE CURE is a vegetable discovery, containing neither quinine, arsenic, nor any deleterious ingredient, and is an infallible and rapid cure for every form of Fever and Ague. Its effects are permanent and certain, and no injury can result from its use. Besides being a positive cure for Fever and Ague in all its forms, it is also a superior remedy for Liver Complaints. It is an excellent tonic and preventive, as well as cure, of all complaints peculiar to malarious, marshy and miasmatic districts. By direct action on the Liver and biliary apparatus, it stimulates the system to a vigorous, healthy condition.
