

OREGON SENTINEL

JACKSONVILLE

SATURDAY, MARCH 3, 1883.

NOTICE

Land Office at Roseburg, Oreg.
Notice is hereby given that I have assigned the OREGON SENTINEL as the paper in which I shall hereafter publish all descriptions, homestead and applications for mining patents for lands lying near Jacksonville, Jackson county, Oregon.

FOR SALE.—Four thousand pounds of Liverpool salt—coarse and fine—at Nick Ficke's butcher shop.

PIANO FOR SALE.—Miss Eugenia A. Kelley has a fine piano which she offers for sale very cheap for cash.

NEW SALOON.—Messrs. Riley & Tyler have rented the Cardwell building, next door to Ryan's, and will open a saloon about the 15th of this month.

SELLING OUT.—E. Jacobs has determined on closing out his stock of general merchandise in his store here and quitting business.

INFORMATION WANTED.—Charles E. Bull left Tehoma May 20, 1881, for Oregon, in bad health.

AN IMPROVEMENT.—James Elliott this week constructed a derrick for R. S. Dunlap which is now being used at the quarry from which the stone is being hauled for the Court House foundation.

CORRECTION.—Our informant was in error last week in stating that L. S. P. Marsh, the contractor for the building of the new Court House, had sublet his entire contract.

BEST BARGAINS OFFERED.—The largest arrivals of the season at the New York store which has this week received the most extensive and finest assortment of general merchandise ever offered in this market.

RELIGIOUS ITEMS.—Rev. R. C. Oglesby will hold services at the M. E. church in this place Sunday, morning and evening.

RACES.—The "Tidings" gives the following report of the races at Phoenix last Saturday: The race at Phoenix last Saturday between the Payne and Sly mares was won by the former.

WHAT THEY ARE DOING.—From D. W. Crosby, who returned from Portland this week, we hear of the following Jacksonvilleians who are now residents of the metropolis: Adam Klippel is still the manager of the "Pacific Christian Advocate" and is doing well.

Commercial Tourists should call on Pymale for teams when they wish to visit the stores in other portions of the county. Satisfaction guaranteed.

The necessity of a railroad can no longer be doubted as for several days this week not a pound of butter could be purchased here for love or money.

The ladies of the Presbyterian Church will hold another mite society in the basement of the Church building next Monday night. Everybody is invited.

Ed. DePeatt was appointed administrator of the estate of Henry Norton deceased, and Jesse Housh, G. F. Billings and W. C. Myer are the appraisers.

Dr. J. C. Mitchell representing the Pacific Electric Co. was in town this week, and will leave for Ashland soon to remain a few days, after which he will return to this place.

Work at the Bybee & Hawket mine in Josephine county was interrupted this week by a slide in their ditch. Repairs have been made and the work proceeds again.

T. B. Kent was summoned to Linkville this week to attend to a civil suit but just as he was starting a telegram arrived saying the case had been settled and Mr. Kent did not go.

The United States has an available force of nearly 7,000,000 men available for military duty. The Worcester Times says they are all able-bodied men—provided there is no war.

The sea swallowed up 1,790 vessels last year, involving a loss of 4,129 lives. Within the last five years 20,763 persons have perished at sea, not counting this year's disasters.

If you want a Sewing Machine call at E. C. Brooks' drug, watch, clock, and jewelry store. His machines are a little finer and his prices a little snuggler, than any other buggers'.

Henry Ward Beecher says, "Very few of my congregation come to church in the evening. They get so full in the morning that they can't digest any more of my preaching in one day."

Surveying by the Oregon railroad company, will be commenced on the Siskiyou mountain again about the 1st of March, towards locating the tunnel to be cut through near the summit.

Qualified electors of this school district are requested to be present at the school meeting to be held at the school house next Monday afternoon. A director and school clerk will be elected at that time.

An attempt was made this week to get up a race between the Barron mare and Capt. Jinks but up to this time no conclusion has yet been reached. The distance to be run seems to be the hitching point.

It is stated that the advertising business of the London Times fell off last year \$110,000; the decrease of the Standard was \$80,000, and of the Telegraph \$45,000. Ours did not decrease quite that much.

The Roseburg "Plainedealer" is informed that tunnel No. 5, on the Southern extension of the O. & C. R. R. is finished ready for track laying. Tunnel No. 4 is expected to be completed by the 1st of April.

P. Avery and Wm. Hanley returned from Josephine county last Wednesday after an absence of about one week. They purchased about 150 head of cattle while absent paying from twelve to twenty two dollars per head.

Girls who enter the English postal service get \$2.50 per week at first. If they are real good girls, after a few more years they get 50 cents or \$1 more. Many of them remain single, because the salary is not large enough to support a husband.

Messrs. Jacobs & Russell, now have five stone masons employed in dressing rock for the foundation of the new Court House. Mr. Byers the contractor for the brick work is expected here soon to make preparations for the beginning of his work.

On last Sunday Hon. I. R. Moores brought up \$2,000 and paid to Mrs. E. K. Miller, the amount due her from the A. O. U. W. on the account of the death of her husband, he having been a member of that order at the time of his death.—"Statesman."

Sheriff Furlong, of Douglas county returned from Ashland this week on his return homeward. He found trace of his man—Wm. Dye—in Lake county, but he had not been caught up to the time of going to press, but Lake county authorities are in pursuit.

Farmers in the valley inform us that fully one-third of the crops now in have been injured so much by late frosts that the ground must be sowed over again. Taken together this is the worst season for both miners and farmers that we have had for a long time past.

Hon. E. B. Watson, Chief Justice of the Supreme Court of this State, started for Salem last Thursday to resume his judicial labors. Judge Prim started at the same time to attend the court as attorney in the case of Kelly vs. Ruble, in which a rehearing has been ordered.

Jay Beach is expected here from Linkville in a few days. He will bring most of his fine stock with him and will use the Cardwell track for training purposes. His stallion, Altamont, will make the next season in this valley, a fact our horse-breeders should remember.

The "Oregonian" says that J. H. Penn, of the firm of Penn & Maddax, while delivering some goods at Everett & Farrell's, in stepping from his wagon missed his footing and fell, striking his side against a board standing upright in the sidewalk, and breaking two of his ribs.

James Carswell, an attaché of the United States Fish Commission, arrived in Portland last week with 1500 young carp for distribution throughout Oregon and Washington. They have been divided among the 48 persons of Oregon and 22 of Washington who sent applications for them.

The Portland Daily "News" charges Chief of Police Lappan with receiving \$2 per week for every "tan" table run in that city. As there are sixty-five of those tables running there, his income is \$130 per week, from this source alone. That's why the gambling ordinances of that city are inoperative.

Senator Grover presented the credentials of his successor, Hon. J. N. Dolph, in the U. S. Senate, on Feb. 26th. The state loses on of the ablest representatives at the capital she ever had in Mr. Grover.—"Times"

In what did he ever show ability and what has he done in his six year term as Senator?

The Northern Pacific road has just effected a contract with the Allen Paper Car Wheel Company whereby the latter will supply the former with all the paper wheels necessary for the passenger, dining, postal, sleeping, baggage and pay cars, as well as the engine and tender trucks. This contract calls for 4,000 wheels.

James Hanson came over from Josephine county last Wednesday returning again yesterday. He informs us that the sale of one half interest in the Josephine mine by George Simmons to Wimer & Sons has been closed and Mr. Hanson's occupation as receiver is gone, the property having been turned over to the new owners.

The Shasta County "Democrat" says: R. F. Welch and Mr. Walden, two citizens of Redding, lately discovered a very rich gold bearing quartz on a gulch that puts into the lead of Olney Gulch between here and Igo, and have located 3,000 feet on the vein. They have been offered \$10,000 for their claim but refuse to sell at that figure.

A single thoroughbred male introduced in a farming section for purposes of improvement adds more wealth than any other investment that can be made. Though worth but very little in the shape of so many pounds of animal matter, the value of the progeny may reach away up in the thousands. Farmers should learn this fact and take it into consideration.

The grand jury of the District of Columbia has found an indictment against Williams, special counsel for Durying in the star route cases, for receiving stolen goods. The crime is alleged to have been committed more than a year ago. It is also reported that an attempt will be made to indict Col. Ingersoll upon the charge of defaming the department of justice.

A cubic inch of gold is worth \$10; a cubic foot, \$362,380; a cubic yard; \$9,797,762. This is valuing it at \$18 an ounce. At the commencement of the Christian era there was then in the world \$427,000,000 in gold. This had diminished to \$57,000,000 at the time America was discovered. Then it began to increase. Now the amount of gold in use is estimated to be \$6,000,000,000.

Congress has established the mail route from Lakeview to Camp Harney, Grant county, and the postmaster here has received official notice of the same from the second assistant postmaster general, with a request accompanying the same for full information regarding distance and number of postoffices on the route, in order to advertise for contracts for carrying the same.—"Examiner."

Our national debt is being rapidly extinguished without the least noticeable hitch in the way of taxation, by reason of a judicious tariff, which can be changed at any time to suit circumstances, as now proposed in Congress. That there should be a tariff at all times is the popular wish, no matter if the debt should be paid off rapidly. Better keep the country moving with prosperity, than come to a stand still, under the Democratic policy tried just before Hayes was elected, and during Democratic Administration previous to the rebellion.—"Journal."

The London "Times" reckons that at the end of another fifty years the population of the leading countries will rank about as follows: United States, 190,000,000; Russia, 158,000,000; Germany, 83,000,000; Great Britain, 63,000,000; Austria each about 44,000,000. Things would have to change very greatly before Europe could sustain any such population, even with the aid of this country. Unless destructive wars keep down this growth the rate of emigration will increase rapidly and spread over South America and Africa, as it is now doing over North America.

The Roseburg "Plainedealer" says Pinkeye has been raising havoc among the horses at the railroad front, about forty having turned up their heels from the effects of this disease. We are however happy to be able to inform our readers, the veterinary surgeons have now succeeded in arresting it, and the horses are getting better. No new cases have made their appearance for the past week. The same paper also says the O. & C. R. R. Co. will have the connecting link of their telegraph line between Roseburg and Myrtle Creek completed this week. This will give them a perfect line to the end of the track.

It would be well for our people to conduct themselves in such a manner hereafter as to have no fear for the present or future, and also to make prayerful amends for their past misdeeds, because the end of the world, which according to the false rhyme of Mother Shipton, was to have occurred in 1881 having been unavoidably postponed, another old prophecy has been dug up from the trash. This distich declares that when Good Friday falls on St. George's day, and Easter on St. Mark's day, and Corpus Christi on St. John the Baptist's day, the final conjunction will arrive. These conjunctions will occur in 1886.

Everybody that has tried Ammen's Cough Syrup continues its use: besides they tell their neighbors of it. We were in a drug store the other day when a customer asked for a bottle of Ammen's Cough Syrup, saying, "I don't know anything about it myself, but my neighbor advises me to buy it for my cold, and tells me that the use of three bottles has entirely cured his cough of two years standing, in fact he says, 'It is the best medicine in the world for coughs, colds and lung complaints, and that a one-dollar bottle did him more good than all the prescriptions he had from the doctors.'

A writer in an exchange says: I discovered many years ago that wood could be made to last longer than iron in the ground, but thought the process so simple that it was not well to make a stir about it. I would as soon have paper, basswood or ash as any kind of timber for fence posts. I have taken out basswood posts after having been set seven years that were as sound when taken out as when first put in the ground. Time and weather seem to have no effect on them. The post can be prepared for less than two cents apiece. This is the recipe: Take boiled linseed oil and stir in pulverized coal to the consistency of paint. Put a coat of this over the timber and there is not a man that will live to see it rot.

Typoid Fever.

A paper was read, says the "Oregonian," before the Paris Academy of Medicine last month on the use of water in typhoid fever, which is attracting much attention. The treatment consists, substantially, in putting the patient into a bath warmed to the temperature of his body, and then gradually cooling it down to sixty or even forty degrees. The effect of this application is said to be magical in the immediate amelioration of the fever. The permanent effect of it is best shown in the statistics accompanying the paper. In the French army, between 1875 and 1880, there were 26,017 cases of typhoid fever; of these 9507 died, being a mortality of 36.7 per cent. In the corresponding time there were in the German army 14,835 cases of typhoid fever, of whom 1491 died—a mortality of about 10 per cent. The character of the disease was much the same in both armies, and the general habits and health of the men the same. The only noticeable difference was that in the German army the water treatment was largely used. Many other figures are given, all from official statistics and all pointing in the same direction.

How to Know Glanders.—As horse owners in this valley are interested in the matter just now from the rumors (whether false or true) which are afloat concerning the horse disease at the railroad front, the "Tidings" gives the following simple test for determining whether a horse has the glanders, on the authority of Prof. A. A. Antrim, the veterinary surgeon, who passed through here this week: In glanders, as in certain other affections, there is a discharge from the nose of the animal. To make the test allow this discharge to drop into a bucket of clear water (a wooden bucket with unpainted bottom.) If the matter sinks to the bottom and adheres to it, the disease is glanders, and you had better take the horse out and kill it at once. In every other disease this discharge will float in the water in stead of settling and sticking to the bottom of the bucket.

WATCH YOUR GIRLS.—The following from the Albany "Democrat" has more than a local application to that place: "There are several in this city, daughters of respectable parents, who are going to ruin as fast as their uncertain associations will carry them. They are allowed to run around the streets so much and go with such hoodlummish young men that their characters are becoming tainted to such a degree that they are almost past redemption. If their parents would keep them from going over the falls they had better turn over a new leaf pretty quick, for in several cases there is very little time to lose. You may say it is impossible that your daughter is walking in the crooked path but we enjoin you to be sure of the matter."

RAILROAD NORTH.—New maps issued by the Central Pacific railroad company show that among the projected lines of the company is one from Winemucca due north to the Columbia river near Walla Walla. A branch from this line at Camp C. F. Smith, north of Fort McDermitt to Wood River, is also marked on the map. The impression that this road would be built as soon as the southern route to New Orleans was completed has prevailed for years, and the fact that it is marked on the new maps of the Central Pacific indicate that it will be. This road will open up an extensive mining and farming country, which is comparatively unprospected though known to contain gold, silver, copper, iron and other ores.—"Reno Journal."

CATTLE WANTED.—The undersigned is desirous of purchasing any number of cattle of all ages, and will pay a good cash figure for them. I can be found in Jacksonville for several weeks P. AVERY.

WANTED.—Several hundred bushels of good grain of every description, for which cash will be paid. For further particulars enquire at the distillery near town or address me at Jacksonville. N. K. LITTLE.

BOGGY FOR SALE.—A fine, new buggy is offered for sale cheap for cash by Cronemiller & Birdseye. It is neat, light and substantial, and a bargain can be secured.

FOR RENT.—Two dwelling houses in the City, and one small farm near Wilderville. Apply to A. L. Johnson, Land Agent, Jacksonville, Oregon.

CHINESE CHEAP LABOR.—The Portland "Northwest News" has an interview with HERMAN CLARK, who it is claimed has built more miles of railroad than any living contractor. Mr. CLARK has done most of the work on the Northern Pacific Railroad and is at present engaged on the western end of that road, which he hopes to finish in July next. He understands the relative value of the labor of men of different nationalities and gives his opinion emphatically on that imported from China. His remarks might be profitably studied by those railroad builders who have been chiefly instrumental in bringing the Chinese to California. He tells the representative of the "News" that he has no use for Chinese cheap labor. He used only white labor on the east side of the mountains, and built by aid of it 312 miles of railroad while only 83 were built on the pacific end of the line. He then proceeds to prove by his ample experience that white labor, though more has to be paid for it, is really cheaper. During the last four years he has built 420 miles from Bismarck west, 340 miles on the Yellowstone and 180 miles in the Rocky mountains. The 312 miles built last year were chiefly on the Yellowstone region by no means agreeable to the railroad builders. All of this work was done with white labor, and the work was accomplished more cheaply, quicker and in a far more substantial manner than it could possibly have been by Chinese. The laborers employed were chiefly Swedes, Danes and Norwegians.

MARRIAGES IN JOSEPHINE.—The following is a list of the marriages that took place in Josephine county during the past year:

December 27—M. Baughman, L. Cleatham.

To The Loved Ones That Are Gone.

Others pure loved angels bright,

On unfurled wings have flown away;

Other souls have taken flight,

For their home beyond the sky.

Farewell loved ones! Life is ended;

All thine earthly conflicts o'er,

May their souls, their hopes for gorden,

Find on Heaven's immortal shore.

Bereaved friends and sorrowing parents,

Weeping for the Spirits fled;

Lo! they are not dead but slepeth,

Hath the son of righteousness said.

Then among the angels seek them,

Where no cankering grief or pain,

Comes betwix the Lord and holy,

There they part to meet again.

They shall all bloom in fields of light,

Transplanted by my care,

And salute upon their garments white,

These sacred Blossoms wear.

Mrs. M. A. PERRY.
