The race is to take place at Phoenix on Saturday, March 17th.—St. Patrick's day—when an interesting contest may be looked for. This race was made and run a short time since when it was found that the horses were about evenly matched although some dissatisfaction was expressed at the result and foul play suspected at the time. This race is for blood and the best horse wins. Jesse Simpson and Will S. Webb, jr., are the makers of the race and back the horses as first mentioned.

SCHOOL MEETING.—A large number of the qualified voters of this district met at the school house on Monday last for the purpose of electing a clerk and one director for the term of three years. Messrs. J. R. Neil, S. J. Day and K. Kubli were placed in nomination for the office of director, when a spirited contest ensued requiring nine ballots to decide who should fill that most lucrative position. On the last ballot J. R. Neil received a majority of one vote and was declared elected to this position which he has held for a term past. For the office of school clerk J. H. Huffer and A. M. Berry were placed in nomination, resulting in the election of the first named. The annual report of school clerk Huffer was read which makes the following showing: Amount on hand at beginning of term, \$1,058.80; received during the past year, \$3,949.77. The death roll of this Congress is longer than that of any previous one that is remembered. Six representatives and one senator have died. Shackelford, of North Carolina. Senator B. Hill died on August 16th, 1882. John Q. Smith died prior to taking his seat.

We think it unnecessary to go to a doctor and pay him to prescribe for a common cold. At the same time it is of the utmost importance to pay attention to it and get relief—or evil consequences may follow. We use Ammon's Cough Syrup. It has never failed yet to do all that is claimed for it, and we take pleasure in recommending it to our readers. If you have not tried this medicine, go to your druggist and ask to see a large bottle and read the label.

WR. JUSTIFIED.

This community was startled on Sunday last by the report that Wm. Justus, one of the early settlers of this valley, had been shot and killed at his home by John Justus, his oldest son, about eleven o'clock that morning. The story of the accused is that he was shooting woodchucks from the front porch of the family residence that morning, and when no more birds were in sight he started into the house with his rifle to put it away, and when open the old man the gun went off accidentally the charge taking effect in the top of Mr. Justus' head killing him instantly. J. H. Huffer, acting as Coroner, immediately summoned a jury and started for the scene of the tragedy, and after a session of five days, and the examination of a number of witnesses they returned the following verdict:

We the Coroner's jury, empaneled to enquire into the cause of the death of Wm. Justus, find that the name of the deceased was Wm. Justus, that he came to his death on the 4th day of March, 1883, at the residence of the deceased in Jackson county, Oregon. That the cause of the death of the deceased was from a gun shot wound in his head, and that John Justus, the son of the deceased, fired the shot that killed the deceased with the intention of killing him, the said Wm. Justus.

R. H. Moore, J. H. Wilson, J. M. Dolph, J. S. Boothby.

On the strength of the Coroner's jury report, John Justus was arrested and arraigned on the charge on preliminary examination before Justice Huffer on Friday last, but the case was postponed until this morning on account of the absence of some of the witnesses. Only four of the jurors signed the above report and we most sincerely hope that the defendant can prove his innocence and show that it was an accident.

RAILROAD NOTES.

Excavation on the Siskiyou tunnel is expected to commence about the first of June.

Dolsen's railroad surveying party will soon take the field again, commencing at Rock Point, where they left off last Fall.

The probabilities now are that the railroad will pass through the valley at some point between this place and the Hanley butte. Parties who know have given the information that the short tunnel—the highest one up—has been adopted by the railroad company and in order to reach that elevation the road must commence climbing up along the foot hills somewhere about the middle of the valley.

As to the final location of the road from the summit to the valley, it is not soon to predict its course with any approach to exactness. The preliminary work to be done this month may develop chances for improvement in what is now regarded as the most favorable general route; and even after the grade stakes are set there may be changes made here and there in the line. It is believed the tunnel will be not less than 3000 ft. long, and that, so far as Ashland is concerned, the road will not be higher than the upper of Mr. Harburt's last preliminary line which is some distance below the East Ashland ditch on the Hargadine hill.

A rumor has got into general circulation says the Roseburg "Plaindealer," that the R. R. Co. proposes building their road south of Grave creek, with pine lumber instead of fir. We cannot believe the company seriously contemplates any such move, as the durability of the pine is too well known by all the old settlers to be about two months. This would just about allow the trains to begin to run before the timbers would need replacing. If they remained after that time they would form only dead-falls by which many good citizens would lose their lives. This is too important a road to be bolstered up by such deceptions.

John A. Harburt passed through town this week on his way to the Siskiyou mountains when the work of surveying and locating the tunnel will be commenced at once. His party consisting of a dozen men, all left Ashland Tuesday, and are now camped near Byron Cole's, having begun work on the southern slope of the Siskiyou. Mr. Harburt informs the "Timings" that they have still some preliminary work to do on each side of the summit, which will probably occupy their time until about the first of next month, when they expect to begin staking out the line. He thinks that by the first of May, he will have the tunnel and approaches located, so that contractors can procure their data preparatory to bidding.

ILLEGAL NOTARIAL BUSINESS.—A. D. Rockeflow, who opened a real estate office in Ashland some months ago, was arrested last Monday on a charge of obtaining money under false pretenses. The complaining witness is Mr. D. Talbot. It transpires that Mr. Rockeflow, who some time since secured the appointment of Notary Public, had never given bonds as required by law, and consequently had never received his commission, but was doing business here as such officer under a Notarial seal. Mr. Talbot had some deeds drawn up by Mr. Rockeflow and acknowledged under his seal, and upon learning that the Notary was not acting under official authority, and that he could not dispose of his property without trouble if he should desire to do so, without having new papers made out and acknowledged, he made complaint as above stated. The case came up for preliminary examination before Justice Root Wednesday, Dist. Att. Kent, and Deputy Dist. Att. DePuit appeared for the state, and S. L. Howard for defendant, and the defendant was held in \$500 bonds to appear before the next grand jury. There was no denial, and can be none, of the fact that the defendant has been using his notarial seal illegally. He has done considerable business with it, and many people will be put to serious trouble and annoyance to have the spurious work replaced with genuine. The plea of defense made by the defendant's attorney in Justice court was that the attorney did not come properly under the purview of the statute covering the obtaining of money under false pretenses—"Things."
