

OREGON SENTINEL.

JACKSONVILLE SATURDAY, MAY 19, 1883.

NOTICE.

Land Office at Roseburg, Ore., June 29, 1883. Notice is hereby given that I have designated the OREGON SENTINEL as the paper in which I shall hereafter publish all pre-emptions, homestead and applications for mining patents for lands lying near Jacksonville, Jackson county, Oregon.

NOTICE TO FIREMEN.—There will be a special meeting of Jacksonville Engine Co. No. 1 at their hall on Monday evening May 21, 1883. By order of the President. JAMES R. LITTLE, Secretary.

SLOVER'S HOTEL.—Mr. Slover, the popular hotel man, has removed from the old "New State" stand, to Pat. Ryan's building. He proposes to keep a better house than ever, and has many more rooms for the accommodation of guests. Give him a call when you get hungry, and he will give you a good meal for three bits.

YREKA FAIR.—There will be no fair at Yreka this year. The committee appointed to procure funds to carry on the fair, have reported that the business men of Yreka will not respond with sufficient liberality to enable the managers to proceed with the arrangements for a fair. This lack of enterprise is not much to the credit of Yreka, and its result will be a matter of regret to the people of this county.

RELIGIOUS ITEMS.—Rev. R. C. Oglesby will hold services at Brownsborough Sunday morning and at Eagle Point in the evening. Rev. B. J. Sharp preaches at the M. E. Church in this place Sunday morning and evening. Missionary sermon in the morning, followed by a collection. Regular services at the Catholic church here by Rev. F. X. Blanchet. Elder M. Peterson will preach at Central Point Sunday, at 11 o'clock a. m. Rev. M. A. Williams holds services at Eagle Point Sunday morning at the usual hour.

CUTTING AND SHOOTING AFFRAY.—We have received information of a serious cutting and shooting affray which occurred at the railroad front this week. It appears that Dotson, the same cowardly assassin who stabbed Charley Hanna here some time ago, committed an unprovoked assault upon an old gentleman named Bannister. Mr. Bannister's son, a young man eighteen or twenty years of age, learning of this took Dotson to task about it and a fight between them was the result. Young Bannister was rather too much for his antagonist, and was punishing him soundly when Dotson drew his ever ready knife. Seeing the knife Bannister, being unarmed, started to run, when he was pursued by Dotson who stabbed him twice in the back the knife entering just over the shoulder blade. After the second blow a bystander named Hankley knocked Dotson down with a club, whereupon one of Dotson's friends named Stephens, shot Hankley, the ball entering the fleshy part of the leg. Both Dotson and Stephens then escaped to the woods, and up to the hour of going to press they have not yet been caught. People here will remember this man Dotson as the man who stuck a knife into Charley Hanna, and afterwards escaped the punishment he so richly deserved. If Judge Lynch could preside at the trial of a few of such fellows as this man Dotson, it would be a good thing for society. Dr. Aiken attended the two young men who were wounded, and says that they were all flesh wounds, merely, which, though quite painful, were by no means necessarily dangerous.

THE FIRE COMPANY'S MEETING.—The members of the Jacksonville Engine Co. No. 1, met at the town hall last Monday evening for the purpose of electing permanent officers, and perfecting their organization. General Reames presided and Max Muller acted as secretary. Minutes of the previous meeting were read and adopted. On motion the list of charter members was closed. The committee, heretofore appointed, on the nomination and by laws, rendered their report which was read and adopted. James Birdsey was appointed temporary Sargent at Arms, and everybody, except members of the company, was excluded from the hall. The members then proceeded to the election of permanent officers for the coming year, with the following result: President, General T. G. Reames; Vice President, Fred Luy; Secretary James R. Little; Treasurer, Henry Pape, Sr.; Foreman, Charles E. Hanna; First Assistant Foreman, James G. Birdsey; Second Assistant Foreman, D. W. Crosby.

The President then appointed the following officers: Axmen, Christ Ulrich and S. Eggar; Board of Trustees, A. H. Magley, Robert, Moore and Charles Prim. Auditor Committee, Wm. Messer, Wm. Jacoby, and Henry Kuhl. The initiatory fee for person hereafter joining as active members was fixed at one dollar. In addition to this fee, all active members are required to pay 50 cts. per month as dues, and are subject to fines for not attending fires, all the particulars of which can be learned on application to the secretary. The fee for contributing, or honorary membership was fixed at ten dollars per year. Several of our enterprising citizens have already become honorary members, but as the number is unlimited, there is plenty of room for more. Honorary members are not subject to fines, pay no dues, and are at liberty to attend all meetings of the company.

Professor Rogers will spin glass thread, finer than silk, at the rate of 3000 yards a minute. Willis Hays of Rock Point paid us a visit this week. Willis wears a sore foot, and sports a cane.

You will find a great deal of valuable information in the "Items of Interest" on the first page. Jacksonville Engine Co. No. 1 have about concluded to give a Firemen's ball on the Fourth of July.

Johnson, the real estate agent, will sell some town lots and personal property at public auction to-day. The U. S. Hotel clerk don't sport a diamond pin, but he has a pet coyote no larger than a half grown cat.

The name of Julia, has been changed to Glendale. A great improvement, certainly. It is now the terminus of the railroad. The new ferry across Rogue River, owned by D. A. Pressley & Co., is now in operation. It is located just above Vannoy's ferry.

County clerk, Klippel, has returned from San Francisco. He looks hale and hearty, and his trip seems to have agreed with him. Whoever is interested in keeping the gates of the court house yard open, ought to tie them back, so as not to block up the sidewalk.

At the recent term of court at Lakeview a man named Luttrell was convicted of forgery, and sentenced to the penitentiary for three years. Clean up your back yards and adjacent alleys, for now cometh the city sanitary committee and poketh the official nose into all such places.

The man who steals meat from John Orth's butcher shop had better get an iron clad overcoat for John don't mean to furnish him in meat any longer. An enterprising drummer from the metropolis, was sighted off the east side of Kanaka Flat the other day intently looking after the interests of his firm.

Wintjen & Helms, keep an excellent and well selected stock of the purest wines and liquors, which are sold as cheap as the best of such articles can be sold. County Superintendent Colvig, was in town Thursday. He is now visiting the various schools in the county. Quite a number of country schools he says, are closed on account of sickness. Otherwise schools are progressing satisfactorily.

The "Del Norte Record" says that Miss Kendall and Miss Phelps, two young ladies from Eureka Cal., arrived there last week on their way to Jacksonville to visit friends.

The power of man's virtue should not be measured by his special efforts, but by the ordinary course of his every day life. The strength of a rope is the strength of its weakest part.

If you want a Sewing Machine call at E. C. Brooks' drug, watch, clock, and jewelry store. His machines are a little finer and his prices a little snigger, than any other bugger's.

Dr. Jackson made another shipment of full blood Brown Leghorn eggs this week. People are beginning to find out what is the best breed of chickens, and they will have them.

We have received the April number of Brown's Phonographic Monthly and Reporter's Journal. This is a very valuable journal to those specially interested in the subject of which it treats.

If you want to see something wonderful instructive, and entertaining, attend the Bohemian glass blowing exhibition at Hotel's Hall next week, Monday, Tuesday and Wednesday evenings.

Read Jonquin Miller's poem, "Peter Cooper," on the fourth page. If you master the philosophy suggested in the last two lines of the third verse, you will have learned a hard and difficult lesson in life.

This is a good time to clean up back yards, and haul off, or burn up, all the refuse which has accumulated during the winter. Keeping the town clean, will greatly assist in keeping the people healthy.

The bank building of Messrs. Peet Humphry & Co. at Roseburg has been completed, and they will soon begin business. Roseburg is fortunate in securing this important addition to her business interests.

Don't hitch your horses to shade trees or lamp posts, and don't leave them standing on the crossings or sidewalks. It is against the town ordinance, and the Marshal won't be to blame if you get arrested for it.

Miss A. F. Luce has been giving some eloquent entertainments at Roseburg. The Roseburg paper speaks of her efforts in the highest terms. Miss Luce might find it to her interest to pay Jacksonville a visit.

We sent a special reporter out to the Champlain picnic yesterday, but up to the hour of going to press he had not yet returned. We presume he took his girl a ride, and will come back via Fort Klannath and Linkville.

Willie Bilger went down to Woodville this week, and reports that the grain down in that section is unusually promising. He showed us some stalks of wheat, taken from one of Mr. Ashmun's fields, which were very large and thrifty.

Mr. C. Coleman, this week received a letter from Mr. N. Sanford, of Cleveland Ohio, asking several questions concerning the climate, resources, and prospects, of this valley. All such letters should be promptly and carefully answered.

At a public meeting held by the citizens of Williams Creek, it was decided to celebrate the coming fourth of July, near the public hall at that place. The proceeds, if any, to be used for the benefit of the two Williams Creek schools. Everybody is cordially invited to attend.

Chicago is also excited over the Chinese nuisance; opium dens and gambling houses are conducted by the enterprising heathens just the same as on this coast. A few more chapters in the life and labors of the Chinese, and some of our eastern statesmen will be heartily ashamed of the speeches they made against the Restriction Act.

The following is the prices charged at D. A. Pressley and Co's ferry across Rogue River. Footman, 10 cents; man and one horse, 12 1/2 cents; two horses and wagon, 25 cents; four horses and wagon 37 1/2 cents; six horses and wagon 50 cents; cattle 5 cents per head, and sheep 2 1/2 cents each. The ferry is always in excellent running order, and well attended to.

An inquirer wants to know whether the new hose reel is to be used to reel those new hoses at Reames Bros. No, young man, it's an entirely different affair. When the hose reel comes Charley Hanna will take you down to see it and, meantime, he will sell you some of R. Bros. new ladies' or gentlemen's hose way down cheap, if you give him half a chance.

D. M. Osborne & Co. have rented Sample Rooms &c. in Jacksonville Oregon and will sell mowers at \$100 each delivered at Jacksonville free of freight also will keep on hand a full line of extras and repairs for the mowers and harvesting machinery and will sell smooth and serrated edge sections at 15 cents each for the season of 1883.

A. USTICK, Agt. for Southern Oregon. We are pleased to learn that our young friend D. H. Pressley has secured a good school in Josephine county. He has been employed in the Robinson district at a salary of \$40 per month. This young gentleman got his education at our public school here, and we are glad to see him show that education, among its other advantages, has a pecuniary value. The country school house, has been made the first round in many a long ladder of fame; stick to the work, young man, and you are sure to win.

One of the best thorough-brace wagons ever seen in this town is being manufactured at the shop of Cronmiller and Birdsey. That enterprising firm did the blacksmith work on it and S. P. Hanna did the wood work. Henry John is to do the upholstery and John Carter the painting. The wagon is being made for Pat McMahon and will be put on his Crescent City mail route.

Some of the enterprising farmers of Butte Creek, have organized an irrigation company, and are constructing a ditch which taps Little Butte about two miles above Eagle Point. When completed, the ditch will carry 1400 inches of water, and be about four miles in length. We congratulate our Butte Creek friends upon their enterprise in this matter, and hope they may reap large returns upon their investment.

Last week, we omitted to publish the usual notice of religious appointments. This is an oversight which must not be charged to the publisher of this paper, as he was not at home and had nothing to do with last week's paper. The amateur who issued that edition, very much regrets that this oversight should have occurred; but ventures to hope that an indulgent public will not be too hard on him for leaving them to rely on the church bells for this one time.

We are very sorry to learn of an accident which befell Mr. Linn while on his way to San Francisco. He and his daughter Cora, occupied the outside seat, and while the stage was going through Strawberry Valley, one of the wheels struck some obstruction in the road, and Mr. Linn was thrown from his seat to the ground. The stage passed over his feet, inflicting very painful injuries upon both, and especially the right one. He was placed on the inside, propped up with pillows and continued his journey. The injury, though quite severe, is much less serious than would ordinarily be the result of such a fall. Good fortune seems to have favored him to that extent, at least.

John Orth was 49 years old last Monday. Everybody must be 49 years old sooner or later, if they live long enough, but it is not everybody who ends the last day of their 48th year with as much good cheer and general merriment, as did our friend John. Several of his friends dropped in, in the evening to see him and then the brass band came around and blew like a Kansas cyclone, and Dave Crosby beat the end of the old base drum until his face got so red it would have looked like the full moon if it hadn't been for his moustache. But they couldn't help it. John is such a good, open hearted, whole souled fellow, and gave them such a warm welcome, that nobody could have helped it. It was late when the guests left, and everybody went away sorry that they would have to wait a whole year, before their host could have another birth day.

Through the kindness of Mr. Nichol of Riddellburg we learn the following items of interest from over the mountains: Mr. Nichol has been in Langell Valley buying a band of horses which he proposes to drive to Montana. He will start sometime within the next few weeks and calculates that it will take three or four months to accomplish the journey.—There are several horse buyers now engaged in gathering up horses in Langell, and neighboring valleys, for the purpose of driving out of the country, most of them going to Montana. One man bought a band of four hundred for that purpose.—Blackleg is still doing terrible work among the cattle at various places east of the mountains, and especially in Alkali Valley.—Business is generally lively, the range in good condition, and, barring blackleg, stock men are generally well satisfied and doing well.

Our friend Dave Crosby may live to be a hundred years old, and we hope he will; but even if he does, he will never celebrate another birth day in a more pleasant and enjoyable manner than he did his 26th on last Thursday evening. Dave didn't know anything about the party until, all of a sudden, somebody swooped down on him and yanked him up to the club room. He found the room full of friends all dressed up in their party finics, and kind of paired off like, as though they were going to be married by the dozen. But Dave soon saw what was the matter and was just about beginning a speech when the string band struck up a stirring air and before he knew it he was full partner in one of the top couples of a quadrille. Forward and back; round and round, now this way now that way, they all went; Scotch and waltz, and quadrille, scooped each other again, and again and nobody got tired or thought of getting tired. And then the refreshments were brought in, and everybody ate as though the old scissor grinder had left off sharpening scissers and knives and put in the whole day on their appetites. After supper, more music and more dancing, and so the happy hours passed. The night was far gone, when the last of the merry makers left the hall, wishing as all the rest had done, that Dave might have many happy returns of the anniversary of his birth.

TEAMS FOR THE RAILROAD.—Teams are now in good demand at the Railroad front. The company want all the teams they can get on the work at Wolf Creek. Good wages will be paid and horse feed and board furnished at reasonable rates. Here is a chance for teamsters and farmers to secure steady and remunerative employment and no trouble to collect the wages. Teams going down can make it profitable by loading with hay and grain as these are in good demand.

May 14, 1883. Rain, rain, rain. More snow fell in the mountains last night. The funeral procession which followed the remains of treasurer Grotz to the cemetery last Friday was the largest ever witnessed in Josephine county. Hon. Henry Thornton and lady attended the Grange meeting on Williams Creek last Saturday. Wm. Naucke formerly of Kerbyville but now a resident of "Frisco" is expected here on a business trip soon. Ed. F. Hathaway who has charge of the upper Deer Creek school vacated last week on account of sickness among the scholars. The teachers Institute which was to convene at Wilderville on the 4th inst. was a failure on account of the inclemency of the weather, and was postponed until some time in the future. A little daughter of John Goings of Deer Creek died on last Friday with diphtheria. We understand four more of his family are dangerously ill with the same disease. The public school in the lower Deer Creek district is progressing nicely under the management of Miss Mary Fehely. More anon.

A CRUCIAL TEST.

The severe chemical tests to which the various baking powders have from time to time been placed have demonstrated clearly to the public the relative merits of the different brands from an analytical point of view. For instance, Dr. Love, the eminent Government Chemist, in his analyses made the comparative strength as follows:

Table with 2 columns: Brand Name, Cubic inches Gas Evolved. Includes Royal, Charm, Dr. Price's, Snowflake, and Andrews & Co's alum powder.

The Royal Baking Powder was found, besides being of absolute purity, to evolve the highest amount of leavening gas of any of the powders tested, and hence it was placed at the head of the list and recommended for Government use. But the crucial test of the kitchen is after all, the most satisfactory to the housekeeper. A baking powder that never fails to make light, sweet, wholesome and palatable bread, biscuit, cake, etc., upon all occasions, is the one that will be placed at the head of the list by the practical housewife, and received into her kitchen for continuous use. This test the Royal Baking Powder has stood for over twenty years without a single failure, and hence its reputation as the best baking powder made, has spread from house to house, until its use has become as universal as its merits are unrivaled.

SURPRISE PARTY.—Surprise parties don't generally surprise; but the one which occurred at the residence of Newman Fisher last Monday, was a genuine success in every sense of the word. It was just eighteen years on that evening, since Newman and his good wife exchanged promises before the matrimonial altar, and somehow or other, some of their friends found out this fact, and organized a surprise party in celebration of the event. It was a surprise too, but it didn't take more than two minutes for the surprised to take in the situation, and make everybody feel as though they had been expected for a month. The best of refreshments were furnished some of which—thanks to the kind remembrance of our friends—found its way into our sanctum. Then there was songs, and laughter, and merriment; and the brass band came round and played some appropriate airs, and the happy hours went by. It was late when the guests departed wishing their hosts long life and many happy returns. In which wish, we are pleased most heartily to join. Among the guests present our reporter gathered the following names:

- Mr. and Mrs. E. Jacobs, Mr. and Mrs. Luy, Mr. and Mrs. Mings, Mr. and Mrs. D. Hull, Mr. and Mrs. Ulrich, Mr. and Mrs. Savage, Mr. and Mrs. H. v. Helms, Mr. and Mrs. C. Nickell, Mrs. J. Miller, Mrs. D. Linn, Mrs. G. Karawski, Mrs. C. C. Beckman, Mrs. Frank Krause, Misses Mollie Britt, Estella and Carrie Luy, Maggie and Mamie Linn, Carrie Beckman, Paula Karawski, and Messrs. Whippy, Eldy, Grubbe, Bilger and Dunlap.

We clip the following from the "Lakeview Examiner" of the 12th: From the reports of crimes of all grades reported by the Jackson county papers as occurring in that county, one would naturally arrive at the conclusion that Jackson county includes within its borders some of the toughest and most unprincipled cusses on the coast. The latest case reported is that of James Knox Pulk Brown, who is charged with incest with his daughters. J. K. P. B. is a resident of Ashland, but whether the reputation of Ashland, and that of the temperance question, in curbing the propensities of such monsters in one form of debauchery, impels them to display their naturally depraved instincts in another and more fiendish form, does not appear. Certain it is, that a town whose people profess to have all the virtues and none of the vices of other and presumably immoral places, is not helping to add to its reputation for sobriety, propriety and morals by permitting such villains to live. There are less godly communities in existence, where a case of this kind just mentioned, when backed up by the evidence which appears to make this so damning, would take the guilty wretch to the nearest tree and hang him so high the flies would not bother the corpse. But then such places are not under christianizing and humanizing influences of which Ashland so proudly boasts.

Kerbyville Clatter. May 14, 1883. Rain, rain, rain. More snow fell in the mountains last night. The funeral procession which followed the remains of treasurer Grotz to the cemetery last Friday was the largest ever witnessed in Josephine county. Hon. Henry Thornton and lady attended the Grange meeting on Williams Creek last Saturday. Wm. Naucke formerly of Kerbyville but now a resident of "Frisco" is expected here on a business trip soon. Ed. F.
