MECHANICS' PAIR.

PORTLAND OR., August 1, 1883. TO THOSE INTERESTED IN THE DEVELOP-MENT OF THE RESOURCES. AND IN-DUSTRIES OF THE GREAT NORTH-

The completion of the Northern Pacific Railroad is an event in the history of this country of more than ordinary importance. The magnitude of the interests thus opened up to the commerce of the world, can only be computed when time shall have fully developed all of the unlimited resources of this area of country, rich and abound ing in all that goes to make a great and prosperous people. Already has this great Northwest began to feel the pulsations of business and travel that have commenced to flow through this important artery of commerce.

The completion of the road will bring to our shores a vast multitude of people seeking homes and an opportunity to co operate with those already here in developing the Commercial, Mechanical Agricultural and Mining industries of th's New Empire. The managers of the Portland Mechanic's Fair and Industrial Exposition, realiz ing the importance of this notable event, so toon to be consummated, are arranging to make the Fifth Annual Exhibition of the Industries and Resources of this Great Northwest one that will be commensurate with the occasion, and to this end they earnestly ask the hearty co operation of every one interested in the development of the wonderful resources which nature has bestowed upon us with so bountiful a hand. While the purpose is to make this specially an exhibit of the Industries of Oregon, Washington, Idahe, and Montana, yet with that liberal spirit that is in keeping with the patriotism that binds us together as states and territories, the invitation is made as broad as our common country, and most cordially do we invite all who are interested to co-operate in making this exposition one that will be of great value to every interest represented.

No pains will be spared by the management in taking care of those who may honor the exposition with an exhibit, and visitors will be supplied with every convenience for their comfort.

It is the purpose of the Board of Managers to have an extensive display of the latest improved machines, in full operation, representing all depart ments of industry, and to this end motive power, steam and water, will

different cereals, fruits and vegetables grown here in such luxuriance and

Special efforts are being made to have the department of Mineralogy, embracing the minerals of Oregon, Washington, Idaho and Montana, the most complete ever made, and that this display may be all that it is desired it should be, the management earnestly asks the assistance of those interested in this most valuable part of our country's wealth to make contributions of specimens to this depart-

The boundless forests of timber that are found on this Northwest coast are attracting the attention of the world, and are the wonder of all who behold them. This most important interest will be represented by a large and complete display of the native woods, both in their natural and manufactured

It is impossible to give, within the limits of this circular, a detailed account of all the multiplied resources agement desire to assure the public this date. that nothing will be left undone in making this the best and most com plete exhibit of the kind ever given on this coast, and all receiving this circu lar will please consider that they are personally invited to assist the Managers in whatever way they can in making it a great success and a credit to the section of the country that it represents, and they are earnestly requested to place themselves in communication with the Superintendent, who will be happy to furnish them Henames the following witnesses to prove with Premium Lists, Rules and Regu lations and blank. Application for Space, and all further information desired:

Those who intend to be exhibitors are requested to make application for space, for which there will be no charge. In the matter of the Estate of George or signify their intention of doing so at an early day.
