

OREGON SENTINEL.

JACKSONVILLE:

SATURDAY, SEPTEMBER 1, 1883.

A CHANGE.

The interest of Wm. M. Turner in the SENTINEL has been rented to F. M. Overbeck, a competent printer, who takes possession in connection with Mr. Krause this day. Fred only asks the support of his friends and if he has any enemies he don't know it.

THE CIRCUS.—Castello's circus will not appear here this afternoon and evening, as advertised. Advice by telegraph state that they disbanded at Roseburg.

SELLING OUT.—Those desiring any thing in the line of merchandise will do well by calling on Barruch Fisher before going elsewhere as he is closing out his stock at cost. A trial will convince you all.

SERIOUS RUNAWAY.—A team driven by Jack Montgomery ran away last week while he was coming down the Grave Creek hill near the Sexton place and Montgomery sustained very serious injuries. He was brought to Jacksonville yesterday, and with the proper care he will pull through all right.

BABIES WANTED.—That's nothing strange—everybody wants babies except crusty old bachelors but, this time Abell the photographer wants them—twenty per day—in order to take life like pictures of the little sweets. His specialty is taking children's pictures and those fortunate enough to have their children's pictures taken during his short stay will find them finished in the highest style of the art. A look at his specimen copies at Mr. Britt's gallery will be sufficient proof of his ability.

HORTICULTURAL PHENOMENON.—Prof. Merritt, of this place has a pear tree in his garden that for several years has been growing fast with three feet of its trunk completely denuded of bark and the wood apparently as dry and sapless as a piece of seasoned oak. At this time the tree is bearing ripening fruit and fresh blossoms and is as thrifty as if its trunk were fully protected. We do not know that a pear is more tenacious than any other tree but this is the first time we ever saw a tree of any description live when it was so effectually girdled.

MR. PHILLIPS' CASE.—Mr. Samuel Phillips, of Little Applegate, whose only eye was gouged out by a man named Goldsby in no better and Dr. Aiken has slight hopes that he will ever recover his sight. From what we can learn the assault on Mr. Phillips was outrageous, Goldsby being much the larger man and Phillips just having risen from a sick bed, and under almost any circumstances brutes who indulge in putting out the eyes of fellow beings ought to be in the penitentiary instead of at large. This will be a case for investigation by the next grand jury.

NEW ENTERPRISE.—Dr. Will Jackson intends sinking for artesian water on his premises in town, and it is to be hoped that his enterprise will be rewarded by success. Some geologists have expressed the opinion that artesian water cannot be struck here on account of the unfavorable position of the underlying rock but water is invariably found in this locality by penetrating a short distance into the sandstone and Dr. J. thinks the scientists may be mistaken. John Roloson is a partner in the enterprise and the best machinery is to be sent for. Their success would be of great public value to this valley.

RELIGIOUS ITEMS.—Elder M. Peterson's appointments for September are as follows: First Sunday at Mount district school-house in the morning and at Lone Oak school-house at 4 o'clock p. m.; second Sunday at Antioch at 11 a. m.; third Sunday at the campground on Williams creek; fourth Sunday at Eagle Point. . . . Rev. F. X. Blanchet will hold services at St. Francis' church, Eagle Point, Sunday morning. . . . Rev. J. A. Slover will hold a meeting at Antioch school house, commencing this evening. . . . There will be no services at either the Methodist or Catholic churches in this place Sunday. . . . Rev. B. J. Sharp will hold services at Grant's Pass Sunday morning at 11 o'clock. . . . Rev. Robert McLean will preach in the Presbyterian church next Sabbath morning and evening.

KLAMATH COUNTY CIRCUIT COURT.—The following are the proceedings of Klamath county Circuit Court: John P. Miller vs. James Tobin, suit in equity; transferred to U. S. circuit court. David P. Shook vs. James H. Calahan, suit in equity to restrain the diversion of water; continued for term, with order extending time to take evidence.

Mr. Paul vs. Loui Land et al., suit in equity to foreclose mortgage; judgment and decree foreclosing entered. Wm. Webb, Sr. vs. L. M. Nickerson, action at law; continued for the term, for want of jury.

Wm. Webb, Sr. vs. Sheriff of Klamath county, action to recover personal property, appeal from justice court; continued for want of jury.

Hendricks vs. J. N. T. Miller action at law; continued for want of jury.

John Gleim vs. Dennis Crowley, action to recover damages; continued for want of jury.

John Gleim vs. Miller and Crowley, action at law; continued for want of jury.

Have you seen those stylish hats, trimmed at Mrs. J. S. Howard's fashionable millinery establishment, and so cheap?

Joe Solomon returned from San Francisco on Thursday's stage where he had been laying in a large stock of goods.

An interesting correspondence from Sterlingville is omitted this week, through lack of space. It will appear next week.

Chas. Blockwell, formerly a resident of Jacksonville, has opened a barber shop near the south end of the Siskiyou tunnel.

Abell is taking some beautiful pictures at Britt's and our people ought not to miss the opportunity as his stay will be short.

Miss Minnie DeWitt, of Yreka, who has been visiting friends here for several weeks past, will return home next Monday.

Robt. Kahler is having a ditch dug for irrigating purposes from near Day's orchard to his residence in the lower part of town.

Several teams are engaged in hauling bridge timbers from the Sterling mill to Chavener's for the railroad bridge, to be built at that place.

We regret to say that Mrs. Danl. Cronmiller is still seriously ill having been confined to her bed for several weeks with bilious fever.

The distance from St. Paul to Portland by the N. P. R. R. is 1,920 miles and fares to any point East will be less than by any other route.

Sheriff Jacobs has started to Roseburg to bring Melville here for examination on a charge of burglary and is expected back to-morrow evening.

On Wednesday last M. Colwell caught the arrest of El. Booth charging him with using abusive language. Recorder Huffer fined Booth \$8.50.

Solomon & Menor are expecting a full line of new goods via Crescent City next week and intend to sell at the lowest possible rate. They invite inspection.

One of Colwell's teams took a little spin up Jackson creek Thursday, on their own account. The buggy was pretty badly demolished but no one was injured.

Dr. Soule of Union county has purchased the interest of Nick Hillier in the drug store at Phoenix. The Dr. intends practicing his profession in that locality.

Mr. McLean who is to preach here in the Presbyterian church was for many years a missionary in Chili and his discourses will doubtless be very interesting.

The wagon bridge across Mule creek above Nick Wright's place was destroyed by fire this week. It is thought that it caught fire from the burning woods.

El. Kippel one of the Portland telegraph strikers who refused to take the iron clad oath of allegiance to a corporation is telegraphing for the O. R. & N. company.

When visiting Ashland give D. D. Philbrick a call at his saloon where you will always find a fine stock of liquors and cigars and the best kind of treatment. Try him.

The name of the man murdered recently at Honolulu, on the Klamath river, was Salvatore Ripa. His slayer Butler, has been held for murder. So says the "Journal."

Mrs. F. M. Plymale is ahead of any one in this valley in the poultry business having raised over two thousand chickens this year. Her example is well worth following.

Bilger & Maegly announce the following reduction in prices: Nails for \$6 50 per keg, white lead for \$2 75 per 25 lbs., coal oil for \$3 30 a can, and everything in proportion.

If there is anything that you need in the general merchandise line, give B. Fisher a call at the old stand of S. Cohn, and he will convince you that he is selling out at cost.

W. J. Davis, who ran five creameries in Wisconsin and in Illinois, has disappeared, leaving debts amounting to \$85,000. It is to be inferred that he got the cream of the business.

Judge Hanna reports considerable improvement in the way of buildings etc., going on at Linkville. Several new houses are now being erected and business looking up generally.

The first rain we have had for over three months commenced falling at two A. M. yesterday and continued nearly all day. It was welcome to all but those engaged in threshing.

If you want a Sewing Machine call at E. C. Brooks' drug, watch, clock, and jewelry store. His machines are a little finer and his prices a little snuggler, than any other buggers.

From private advices we learn that Mr. and Mrs. Harry Pean, formerly of this place, but now of Portland, have been very sick for several days past. We wish them a speedy recovery.

The Yreka "Journal" says that teamsters have raised the price of freight from Redding to Yreka from 2 to 2 1/2 cents per pound on account of high price of hay along the route.

The timbers for the railroad bridge across Rogue river are being saved at the Sterling mill, and immense loads pass through town daily. This is about all we will see of the railroad work.

Considerable delay to the transmission of messages over the Western Union Telegraph Company's wires is caused by the right-of-way parties of railroad company chopping trees along the line.

Mrs. Ish still wants two good work mules and has a fine band of sheep and a large amount of hay for sale and a farm to rent. Any person wanting to rent a desirable place will do well to call on her.

Judge Prim while walking out of the express office last week slipped and fell to the sidewalk, spraining his ankle and otherwise bruising himself. He is now able to be out and will be O. K. shortly.

Late last Saturday night a cutting scrape was engaged in by Tom Ross and Ed Booth of this place. Booth was cut in the neck with a small knife and Ross received a bad smash on the lip. No arrests.

Freights from Glendale to Jacksonville are at present one and a half cents per pound and when the railroad terminus is at Grant's Pass about Nov. 1st they will be reduced to three quarters of a cent.

Last Sunday while the stage was standing a Wells Fargo & Co. office, the lines fell to the ground and the team started to run. They were stopped near the postoffice however before any injury was done.

The "Oregonian" denounces the telegraph company in the bitterest terms for its niggardly service. The mounted men of Portland would do a wise thing if they built a line to San Francisco for their own use.

Information from San Francisco indicates that Mrs. Thomas G. Roames' eyes are improving and that she will probably return with Mr. Roames about the 10th inst. There being no necessity for an operation.

The Mary D. Hume is advertised to sail from Crescent city for San Francisco on the 10th, 20th & 30th of each month. The fare through, including McMahon's stage line, is \$22, and the route should be patronized.

The people of Yreka are very sensibly considering the question of establishing a high school in Siskiyou county so that children can receive all the education they need without sending them abroad at great expense.

"Watermelon dances" are the latest innovation in Siskiyou county and we would be obliged to the "Journal" if it would publish the programme. They might take here as every other kind of dance has been danced to death.

Geo. Freeman who was badly injured by falling through a loft and being kicked in the head by a horse last week is fast improving. He is now able to be on the streets but will not be ready for work for some time.

Gro. U. Fiedle, a traveling man, was arrested last week for selling goods without a license. The charge could not be substantiated, however, in consequence he was discharged. His partner was the right man but he had skipped the town.

The timbers of the cupola of the new Court House and the roof timbers are in place. Mr. Marsh is pushing this work so as to get the building under cover as soon as possible. The number of shingles required to cover the roof is 70,000.

Peter Boschley, while hauling wood from Walker's creek, about a mile and a half from town, last week saw a nearly full grown panther. Small boys are said to be much esteemed by that kind of "gamesters" so they will keep off that creek.

W. L. Record who introduced the exquisite marble work to be seen in our cemetery is here attending to former orders and soliciting new ones. He is now agent for W. H. McCormick, of San Francisco, dealers in American and foreign marbles.

Geo. W. Frey has sold his ranch and stock on Little Butte creek to Mr. John Tucker, of California, who takes immediate possession. The purchaser seems well pleased with the location and as he is a thorough stock man, a good selection.

Clay Dollarhide and Harvey Oatman have taken a contract for furnishing the company with timbers for the tunnel and now have about twenty men employed in cutting and delivering the same.

The order consolidating Oregon and Washington Territory into one revenue collection district takes effect today. The 34 division comprises the counties of Jackson, Josephine, Curry, Klamath and Lake with N. Langell of Jacksonville as deputy collector.

Mr. Smith, the gentleman who purchased the Greenman hotel at Linkville has expended over \$4,000 in improving that house. It has been thoroughly renovated and will always be kept in first class style. For a good meal and a clean bed go to the Greenman hotel.

Last week there were several charges of 1,750 lbs each, of gun powder exploded on the grading a "bloody run." The concussion was almost imperceptible and the sound of the explosion was barely heard at a distance of 500 feet but the work of a thousand men for a day was done in an instant.

We were shown a branch from a plum tree this week only ten inches in length which there was a cluster of forty two large and fully developed plums. The fruit was the blue damson and delicious in flavor the whole bunch weighing three pounds. If any section of Oregon can beat this let be heard from.

The Soda Springs on the North Fork of Little Butte have been quite popular this summer but the proprietor McAllister, is fanatical on the subject of dancing and threatens to shoot any guests thus indulging. McAllister's health is very poor and as he has frequent "sinking spells" it accounts for his curious notions.

New goods at reduced prices at the cash store of S. S. Aiken & Co. They keep everything usually to be found in a general merchandise store, and their method of giving the best goods at low prices, and making exact change seems to have become popular here at last. Their new advertisement will be found in another column.

We are glad to say that the county commissioners have decided not to paint the new Court House but to expend the amount, provided in the contract for painting, in stone steps and a stone floor for the portico. The views of the SENTINEL were expressed last week on this question and we have only to add that the course decided on by the commissioners is to be commended as a sensible one.

Prunes must have a lasting and distinctive flavor. The other day Uncle Fred Miller cut one from the orchard of Mr. Miller not knowing what it was but recognized it at once, although he had not tasted a prune since he left Germany sixty years ago. Mr. H. says that the very finest quality of brandy was distilled from this fruit in his young days and mentions the greatest success for it in this valley.

Abell the leading photographer of Portland has leased the photograph gallery of Peter Britt for a few days and will be pleased to see any and all of his old friends and patrons of the past. Negatives only will be made here, all work will be finished at the Portland gallery. Those wishing photographs will not delay as his time here is short. The instantaneous dry plate process will be worked for children.

Down in Josephine county they have a novel way of settling disputes to water. Last week Messrs. Little and Wetherby, who claim riparian rights on Illinois river blew the dam of Messrs. Wimer & Son "sky high" with giant powder and so stopped the supply of water to the Wimer mining ditch. The matter will now be settled in the courts but this method of having a temporary injunction seems rather arbitrary.

New comers to this county who wish a county paper, and no one should be without it, are invited to subscribe for the SENTINEL. That is: if they want a paper that takes sides on all questions—speaks right out—don't make two kinds of pie in the same dish nor carry water on both shoulders and cares more for right than riches. If strangers want the other style of a paper they must go to the other shop and they can get fish flesh and fowl all on the same platter.

Mr. W. L. Record whom the "Oregonian" criticised because he assured a stage robber that he was not an express messenger says it makes quite a difference whether a man is looking down the muzzle of a shot gun or safely enclosed in an editorial arm chair. He also adds that the editor of that paper would not doubt have personated a "messenger" and drawn the robber's fire simply for the public good, but that his taste don't lie in that direction.

Wellman, who had to surrender the express box the last time the stage was robbed at Wolf Creek is quite positive that McVellie, now in jail at Roseburg was the robber that demanded the box. McVellie will soon be brought here to answer the charge of robbing Riddle's store on the Siskiyou and is also charged with robbing Dr. Davis of \$400, near Grave creek. If convicted of all these crimes he will probably give the findings of the courts his personal attention for the balance of his natural life.

The railroad depot at "Jump off Joe" is located on the land of F. M. Nickerson, clerk of Josephine county, and it is to be named "Josephine." As this will be the distributing point for Josephine county the name is most appropriate. Had it been called "Jump off Joe" unpleasant consequences might have resulted, as every time the brakeman yelled out the name of the station—every Joe aboard the train would be bound to jump off and the depot would soon become a noted place.
