TO THE TRAVELING PUBLIC.—The completion of the N. P. R. R. has relieved the C. & O. stage line of the transportation of an enormous quantity of mail, and the company are now prepared to carry all who apply to them for passage, north or south, and put them over the road in good shape.

Special arrangements and rates have been made and going in a crowd together they will no doubt have a good time.

THE COURT HOUSE.—Work on the Court House continues with the same dispatch noticeable since the first start was made by J. S. P. Marsh, the contractor. The building is now roofed, flooring put in and lashing has been commenced. Mr. Marsh promises to have the building ready for occupancy by the end of November although the contract does not call for its completion until the 9th of next February. Everything so far has been done in a first-class manner and at a cost less than any other public building of the same size has been built for before in Oregon.

JACKSONVILLE AHEAD.—The fine blooded stock owned by Jay Beach of this place is making a proud record for itself at the State Fair several having won races, beaten good horses and made good time. "Altamont" won the stallion race, beating Mount Vernon, a fine horse from Walla Walla; best time 2:31. "Venita" also won the three-year-old and four-year old race; best time 2:42. "Oneco" was second in the two-year-old trotting race, taking second heat in 3:00. Altamont will trot again to day, when we hope to chronicle another victory for him.

HAY AND GRAIN MARKET.—Col. Frizzell, purchasing agent of the O. & C. R. R. Co., is in Ashland says the "Tidings" and will purchase the hay and grain needed by the company. At present he is buying what is wanted in the Siskiyou and Buckrock country. Whether he will purchase large quantities for future use depends, he says, altogether upon the prices asked. In the Umquica he is now buying hay at \$12.50 per ton, delivered, and oats at 50 cts. per bushel, sacked and d. livered at the cars. As fast as the road is pushed ahead he will have supplies follow him, unless he can get them here at what he considers comparatively reasonable prices.

HISTORICAL MATERIALS.—It is very desirable that the compilers of Walling's history of Southern Oregon shall have access to all available resources of information respecting this part of the State. Early records of pioneer life, accounts of Indian wars, sketches of noted events, biographies of eminent individuals, important statistics, etc., are especially valuable. Persons who possess written or printed matter of this sort are earnestly requested by the publishers to place the same at the disposal of Mr. H. O. Lang, now at Roseburg, in order that such material may be utilized in preparing the history. Favors thus shown will be deeply appreciated and acknowledged; while documents loaned will be preserved and duly returned.

The robber failed to come after it, evidently thinking it contained nothing, since an iron box was locked to the stage, which he did not venture to take, being alone. Jackson told McConnell, the stage driver, to go on and not wait for him, and Jackson watched for the highwayman until She-off Hopping and Deputy Johnnie Reynolds arrived. The box was picked up and brought back, and the robber got away as fast as possible, evidently observing the stopping of the stage at a distance from the box, to be for something not agreeable to him.—"Yreka Journal."

The object proved to be his brother, who was stooping down to get a drink out of a spring when he fired. The ball penetrated his head and he died almost instantly.—"Plaiddealer."

One or two China gangs are working at Woodville and south as far as the upper part of Fred Birdseye's place. This portion of the work being light it will be completed very rapidly.

China herder Dunn, who has a force here finishing up the work, says he has orders to put in a switch at Woodville. The master of a depot at Woodville, however, is not yet settled.

The paymaster was here Tuesday, and we had the liveliest day Woodville ever saw.

Dr. Geary reports that camp 9 will most probably move to the vicinity of Gold Hill by Sunday next, and that camp 6 will move to near Rock Point within a day or two.

J. M. Jarrett, contractor, has had a force of ten to fifteen men at Woodville since the 7th inst, getting out piling for the bridges over Evans creek and Wards creek, and now has the contract for putting in the culverts from Woodville to Jones creek.

From Edward Farrar, who is just up from the front with a load of baled hay for camp 8 (at Woodville at present), I learn that the track is laid to Jump Off Joe, but that freight is not yet delivered further south than 1 1/2 miles south of Glendale.
