TRESPASS ON GOVERNMENT LAND.—Jephtha Davison of Phoenix or Gassburg, Jackson county, was examined before U. S. Commissioner Paul Deady, yesterday, on a charge of cutting timber on government lands. Three witnesses were examined on the part of the government, and none for defendant, who was held to answer in the sum of \$300. The government is looking more closely after trespassers at present than it used to in the past, as the value of timber land has greatly enhanced. There has been a great deal of timber cut on government land in this section, and this spoliation has been going on for years, but it has always been a very difficult thing to find any evidence, as nearly everyone qualified to give any information had secured "some of the hog." But of late new settlers have arrived, and when they find there is no "hog" for them they are inclined to squeal, and so it is likely more offenders will be punished than of old.—"Oregonian."

TO THE TRAVELING PUBLIC.—The completion of the N. P. R. R. has relieved the C. & O. stage line of the transportation of an enormous quantity of mail, and the company are now prepared to carry all who apply to them for passage, north or south, and put them over the road in good shape.
