

JACKSONVILLE:
SATURDAY, NOVEMBER 10, 1883.

SUNDAY SCHOOL CONCERT.—The Presbyterian Sunday school will give a concert on next Friday evening, the 16th inst., at the Presbyterian church; exercises to commence at 7 o'clock. Admission 50 cents, children half price.

FIREMAN'S BALL.—Jacksonville Fire Engine Co. No. 1 will give a ball at Holt's Hall on Thanksgiving night to celebrate the event of receiving their new engine. The boys will also have a parade in the day time when their new suits and the engine will be shown to the best advantage.

CASES REVERSED.—News by telegraph states that the Justice case and the contempt cases against Sheriff Jacobs and Wm. Rubie were both reversed by the supreme court. Judge Watson dissented in the latter case, and in the Justice case we suppose the decision was unanimous.

TO THE TRAVELING PUBLIC.—The completion of the N. P. R. R. has relieved the C. & O. stage line of the transportation of an enormous quantity of mail, and the company are now prepared to carry all who apply to them for passage, north or south, and put them over the road in good shape.

SETTLEMENT.—Those indebted to Dr. Aiken will please settle as soon as possible. As to those especially, who are seemingly indifferent whether their bills are ever paid or not, he would say, that if they are not settled in full by January 1st, he will not stop to say please, but put the accounts into proper hands for forced collection.

STAGE CHANGES.—Wm. Carl the efficient superintendent of the O. & C. stage company was in town yesterday. Having been short of drivers on account of the shortening of days Billy got in himself for a couple of weeks driving over the mountain. E. J. Curtis has taken the stock now and North Eddings will take George Chase's stock in a few days, the latter having resigned.

ROBEERY.—Some one entered Slover's hotel last Sunday and broke open a trunk belonging to the proprietor taking \$80 therefrom. The strongest part of the affair is that there was \$380 in the trunk while only \$60 of it was taken. Twenty dollars of this belonged to Mrs. Slover and \$40 was taken from \$560 deposited by a boarder in the hotel. No clue has yet been found of the thief.

ENTERTAINMENT.—Rock Point Amateurs will give a dramatic and musical entertainment at that place on Saturday, November 17th, when a popular drama will be presented. All who have ever attended an entertainment at Rock Point know that there is considerable talent there in this line and a first-class entertainment is assured wherever given. The price of admission is fifty cents, children half price and everybody is invited.

ASHLAND ELECTION.—The election held last Monday resolved itself into a fight between license and prohibition resulting in a triumph for the former by thirty six majority. 181 votes were polled and a lively interest was taken by both sides. The following ticket was listed: Trustees, James Thomson, H. C. Hill, M. L. McCall; recorder, A. V. Gillette; treasurer, C. K. Klum; marshal, S. D. Taylor; street commissioner, Richard Roach.

PROGRESSING.—The work of digging and building the ditches for fire purposes is now under way and they will soon be ready for the use of the department when required. George W. Holt was the successful bidder on the contract, taking them at \$400. The other bids were Byars & Orrin \$590, Wm. Ulrich, \$725. R. S. Dunlap commenced the work of excavating on the one in front of the city hall on Thursday last and when completed, work will be commenced on the one in front of the U. S. Hotel.

DECREE NUMBER TWO.—The supreme court has sent out decree No. 2 in the Kelly Rubie case and want to substitute it for the original decree. It seems by the admissions court in this unprecedented proceeding, that Kelly had just ground for complaint. The people will remember how the Sheriff was mandamused to enforce a judgment against Kelly. Now the supreme court comes and acknowledges that judgment to be wrong. As it is, it gives Kelly back about two miles of mining ground that decree No. 1 took away from him.

RELIGIOUS.—Rev. B. J. Sharp will preach at Ashland next Sunday both morning and evening. Rev. A. M. Russell expects to preach at Manzanita to-morrow evening; also on Sunday. Services at the Presbyterian church by Rev. M. A. Williams next Sunday, both morning and evening. Rev. R. C. Ozlesby will preach at Antioch school-house, commencing Friday evening and holding over Sunday. Regular services at the Catholic church by Rev. F. X. Blanchet. Elder M. Peterson will preach at Central Point next Sunday morning, at the usual hour, and at Lone Oak school house in the evening. On the following Sunday at the new Mount school-house, morning and evening, and at Rock Point on the morning of the fourth Sunday. H. C. Fleming preaches at the new Mount school house next Sunday morning.

It don't take much to get Democratic editors to trot out their rosters on the result of elections. Sometimes people don't know what he means for but they should remember that the bid must have an airing occasionally. The bid was probably because Ben Tull got beat in Massachusetts and New York increased its majority (for the Republicans).
Foster Bros.' Luis Riggs is entered in the five furlong dash to be run at the Bay District Association meeting on November 3rd. The other competitors are Bob Jim Renwick and Premium. They should make a close race as they are all aused for extraordinary speed at this distance. CORRESPONDENCE.

WOODVILLE, Or., Nov. 8, 1883.
I have interviewed Mr. Robinson, superintendent bridge construction, O. & C. R. R., in regard to the report that the railroad company intend soon to draw off the entire grading force for the winter, and even to shut down all work on the Siskiyou tunnels until spring. Mr. Robinson says, from what he has been able to learn, he thinks it is the intention of the company to draw off all the force of graders at present employed north of Gold Hill as fast as they finish their work, and send them south, as the force at Gold Hill and south is amply sufficient to do all the grading through the valley and up to the tunnels long before the latter can possibly be completed. The tents, tools, and other material in use by the disbanded forces will be taken to Ashland and stored until needed. He thinks also that should the weather turn off very bad, the entire force of graders may possibly be drawn off until spring, as there will be no necessity for rushing things through the bad weather at extraordinary expense to the company, when, as said above, there will be ample time next summer to do all this grading through the valley before the tunnels will be done.
Mr. Robinson also thinks that should there be much bad weather, accompanied by snow and other incidents of a bad winter, the company may shut down work on such of the tunnels as they are building themselves, since it will be very difficult under such circumstances to get out the timbers necessary for timbering the tunnels, etc., besides the difficulty and extra expense of transporting material and supplies over the heavy roads from the valley and from the end of the track.
In such of the tunnels, however, as are being built by contract, he thinks there will be no interruption of work, as their contract may compel the contractors to push the work right along in order to complete the tunnels within the specified time.
The carpenters are putting the lower chords, or stringers, of the Evan's creek bridge in place this afternoon. The bridge at Bloody run is 125 feet from outside to outside of pier. The upper chords of the bridge are in place.

ALBANY, Nov. 8, 1883.
"Examiner" a man named Miller was shot in the mouth at a dance given in Harvey valley. No one knew at the time who done the shooting, but Miller seems to have thought that the shot was fired by D. H. Smythe, who is well known in this section, and has ever since had a violent hatred for the Smythe boys. Recently Miller and George Smythe, a brother of the one who was supposed to have shot Miller, met at P. French's ranch, and with an oath, Miller drew his pistol and said to Smythe: "Now I have got you" at the same time firing one shot at Smythe. Smythe caught the pistol and threw it up, at the same time drawing his own weapon and shooting Miller in the shoulder. Farther than this no particulars can be obtained. A warrant was out for Miller when the parties who brought the news left, but he had not been captured and was not to be found.
It has been estimated by competent experts that within the past year Wall street stocks have shrunk fully one thousand million dollars in value. A few years ago this would have seemed a joke, but the people understand these things much better now and know that it is not the real value, but the water in the stocks, that has shrunk. The country at large hasn't lost a cent, though many of the Wall street gamblers have been heavily losers. The country is rather benefited by it as it is the forerunner of a decline in the finer values of many articles of necessity for which the poor man is compelled to pay an over value.

The ways of the heathen Chinese are peculiar, and a United States official must rise up early in the morning to get ahead of his almond eyed brother. An act of congress forbids the importation of Chinese into this country, but see how John evades the law. There is nothing in the law forbidding him to go to China and return here, if he wants to—so he gets a ticket to China and returns, but as one Chinaman looks just like any other Chinaman, if not more so on his arrival those heagles the ticket to some emigrant who assumes the name of the former and triumphantly makes his entry into California.

Mr. Hurlburt has received orders from Portland to hurry the construction work at and north of Ashland in his decision, even if he has to take men south of here, the object being to push the road to Ashland as speedily as possible. Consequently, he will move a gang of men from the mountain down below town within a few days.—"Tidings."

SELLING OUT.—Those desiring any thing in the line of merchandise will do well by calling on Baruch Fisher before going elsewhere as he is closing out his stock at cost. A trial will convince you all.

NOTICE.—A large assortment of the celebrated New Home sewing machines, the best and cheapest in the market, have just been received at E. C. Brooks' store. Call and examine them before purchasing elsewhere.

WALLING'S HISTORY.

As will be seen in our local columns the new enterprise of issuing a complete history of Southern Oregon has been commenced in Jacksonville county. This work, we have to admit, has long been required. The old pioneers are dying off rapidly, and we see no other prospect for the preservation of their recollections than that now offered. Mr. Walling, the publisher, is himself well acquainted with the affairs in this region and therefore is qualified for his portion of the task, besides being financially able to back the history to any extent. A large number of writers are employed, who will travel to every part of the country and enter minutely into all historical details. We have no hesitation in saying that the book will be in all respects equal to anything before issued on the Pacific coast and superior in detail to the elaborate and far more costly work of Bancroft.

The latest reports received from the Eastern elections are as follows: New York goes Democratic for Secretary of State by 15,000 majority while the legislature is Republican with a good working majority. In Massachusetts Robinson beats Ben Butler for Governor by about 2,000 majority. Butler claims that he was defeated with money used on the other side but our opinion is that "his wad" when Moses gets left. The election in Connecticut was only for legislature and the Republicans won the day. Pennsylvania goes Republican by 20,000 and Minnesota 16,000 majority. Virginia goes Democratic and that party also carries the legislature. In Maryland the Democratic majority is 13,000 and in New Jersey 6,000. Taken altogether Republicans have cause for rejoicing.
