SETTLE UP.—All persons indebted to Dr. J. W. Robinson for professional services are requested to settle the same without delay.

SELLING OUT.—Those desiring any thing in the line of merchandise will do well by calling on Barruch Fisher before going elsewhere as he is closing out his stock at cost.

NOTICE.—The members of the soliciting and supper committees appointed for the Christmas party are requested to meet at the Town Hall to day (Saturday) at 2 o'clock P. M. sharp, to make definite arrangements.

AUCTION SALE.—The undersigned will offer for sale at public auction the following at his residence in Jacksonville, on Saturday, Dec. 20th: Five head of cattle, three head of horses, mowder, kitchen and household furniture. The sale will begin at 10 o'clock A. M.

TO THE TRAVELING PUBLIC.—The completion of the N. P. R. R. has relieved the C. & O. stage line of the transportation of an enormous quantity of mail, and the company are now prepared to carry all who apply to them for passage, north or south, and put them over the road in good shape.

NEW ARRANGEMENT.—From Ab. Giddings we learn that arrangements have been made between the stage company and the railroad by which the latter agrees to carry the mail to Grant's Pass where passenger connection will also be made after Monday next. This leaves only thirty miles of staging north of us and in a few weeks more the whole can be traveled by rail.

Dowell will sell, at reduced prices, dress goods, woolen goods, fringes, laces, table linen, gent's fine linen hem stitched handkerchiefs, underclothing for ladies and gentlemen of very fine quality, variety of buttons, lamb's wool and cotton stockings for children, etc., very cheap. FARMING MACHINERY.—Miller & Co. of Ashland are agents for the celebrated D. M. Osborne & Co. farming implements, consisting of harvesters, mowers, reapers and self binders, also the Morrison and Moline plows and Schuttler wagons. By shipping their goods in large lots direct from the manufacturers, and getting car-load rates on freight, they are enabled to sell much lower than others who purchase in less quantities. Enquire prices.

They were quarreling in a saloon, and everybody left them to fight it out. Six shots were fired, and when the firing ceased Frank Mogan was found shot through the body six times, either of which would have been fatal. Thompson is under arrest.

GENERAL INVITATION.—A general and cordial invitation is hereby given to the citizens of Jackson county to be present at the grand ball to be given for the benefit of L. S. P. Marsh, the builder of the court house. The ball is to be given on Christmas night, Dec. 25, 1883, in the splendid new court room, and will be the grandest affair of the kind ever seen in Jacksonville. To find the number of tons in a stack of hay, ascertain the length and width of the stack, and also the distance over it from the ground on one side to the ground on the other side. From this last measurement subtract the width and divide the remainder by 2. Multiply the result by the length, and this product by the width and divide by 512. This will give the number of tons.

A letter from Rev. M. C. Millard, dated at Council Grove, Kansas, states: "I have not recovered my health since coming from Albany here, as you state, (so one of your readers informs me) but an about as when I left you last June. Do not think I am any worse. Am beyond doubt in the first stage of consumption. The lower part of my right lung has perished away and a cavity remains. I am still hopeful and am being well treated here by the people. My wife's health is pretty good."

When any druggist or dealer tries to sell you, or tells you that some other remedy is as good or better, when you ask for Ammen's Cough Syrup, look him in the face, and you will see that God has stamped upon his countenance in unmistakable characters the word cupidity, and by investigation you will find that he is recommending some decoction of his own that costs him only a few cents to prepare, or makes a large profit. Ask for Ammen's Cough Syrup. Take no other. Buy a 15 cent or 50 cent bottle. Test it yourself. It stands upon its merits.

A Jacksonville correspondent of the Portland "Hesperian" gives the following account of a wine supper given here not long since: "The railroad magnates indulged in a game supper a few evenings ago at the club room. But, oh! the perversity of human nature; the press was ignominiously and ingloriously ignored, and that's why one ill natured reporter designated it "drunk and disorderly." They will never realize how much pains we took to polish our number sixteens with stove blacking, and the great waste of ointment to perfume our chestnut-sorrel locks with bear's oil, and how we hunted up back numbers of the "Oregonian" to see what was said at the Villard reception, so as to be able to fittingly respond to the toasts to the press. But in vain we plodded around under the pitiless stars waiting to be bidden to the feast. But the cry "Lo, the bride-groom cometh" was not heard in the highways and hedges, and morning dawned on ye disconsolate reporter with nary a chance to sample the solids and liquids that made up the bill of fare for a first class game supper. But the reporter did not have to get some one to bring him home, and did not have to decline an invitation to dinner on Thanksgiving because he had the headache. If you hear that Oregon and California railroad stocks have fallen, it can be justly attributed to this disastrous oversight on the part of these prominent railroad officials.

NOTICE.—A large assortment of the celebrated New Home sewing machines, the best and cheapest in the market, have just been received at E. C. Brooks' store. Call and examine them before purchasing elsewhere.

APPRECIATE ITEMS.

Dec. 8, 1883. The oldest inhabitant does not remember such a Fall—they think we will have a very open Winter, with much rain and but little snow.

Grass and grain growing finely—stock looking and doing well. Vegetable and other crops all put away for the winter, but the bulk has been sold so that prices for the balance in the spring no doubt will be much higher.

Generally the crops of vegetables was not so yields as last year, but the acreage was much larger, still Applegate has lost none of its great name for producing the largest and finest "truck" in the country.

Scarlet fever has been somewhat prevalent, but most of the cases now about well and no new ones. The railroad whistle is now daily heard and many people from this place are doing their trading at the new town, which is putting on city airs already.

A farmer ordered her hired man to haul two loads of straw around each apple tree—result—trees putting out new leaves, now she is mad about it. The big shingle machine was moved down to the railroad last week, where they are making 9,000 a day, but will increase to 40,000 in two weeks time by using water power. J. Chapman is the proprietor.

The new bridge across Applegate is said not to be safe by its enemies, but for information to people who have been led to I will say that there is not a stronger or better bridge of the kind in the country than what it is, and further the bridge is the only one in the county across said river and in the safest place a bridge could be placed—On the north side of the river is a good dry winter road and a great deal safer, for no dangerous grade like the Clemons grade on the south side disfigures the road on the north side.

More fruit trees are being planted this fall than ever before, and my opinion is that most people that bought of the California fruit trees will wear long faces another year, for the fruit trees I have seen from there are not to be compared with those grown on Applegate, both in roots and beauty and smoothness of stalks, and further how do they know but what they have imported that terrible pest, the "Red Scale Bug" and perhaps other diseases that time will never efface from our fair country. So in the future patronize "home industry" and let their fruit agents alone.

At a late meeting the minister requested the audience to sing something, when the leader, a man of notes, struck up a tune but did not proceed over 8 or 10 bars when the minister said "That is enough of that; when you sing again sing something you know and have a tune to it." Just imagine said young man's feelings, and taking into consideration that his gal was sitting by him and he warbling his sweetest and most dulcet notes. Said minister was also blunt enough to compare our school houses to those in Arkansas and the people to heathens, when you know we are all splendid fellows—aint we? SIMSON.

WOODVILLE ITEMS. WOODVILLE, Or., Dec. 12 1883. Mr. William Harper and Mr. John Woods some time since donated to the railroad company their portion of the depot grounds at this place, and the deeds for the same were duly executed to day. The money to pay Mr. Fred White for his portion has been all subscribed, and it now remains for the company to get a deed from him, and when this is done work on the side tracks will be commenced at once.

The trains are now bringing up bridge timbers from below. They are also distributing telegraph poles along the line. We regret to learn that Mr. M. J. Jans, engineer in charge of this division, and his assistants, Chas. McNaughton, Dimmick, and W. E. Small here not long since: "The railroad magnates indulged in a game supper a few evenings ago at the club room. But, oh! the perversity of human nature; the press was ignominiously and ingloriously ignored, and that's why one ill natured reporter designated it "drunk and disorderly." They will never realize how much pains we took to polish our number sixteens with stove blacking, and the great waste of ointment to perfume our chestnut-sorrel locks with bear's oil, and how we hunted up back numbers of the "Oregonian" to see what was said at the Villard reception, so as to be able to fittingly respond to the toasts to the press. SETTLE UP.—Everybody knowing themselves indebted to the undersigned will find it advantageous to settle up by Jan. 1, 1884, as our books, notes and accounts, must be balanced by that time. LITTLE & CHASE, Jacksonville, December, 8, 1883.

THE CHEAPEST.—Abraham, Wheeler & Co. have decided on closing out their store at Glendale and offer goods cheaper than ever before sold in Southern Oregon. Parties from here who have made purchases there say they don't see how they can afford to sell goods at the prices asked. Read their price list.
