THE WAR.—The fifteen parties arrested at Coyote Creek for riot one day last week were brought to town by Sheriff Jacobs and had their preliminary examination before Justice Huffer this week commencing last Monday and ending Thursday night. On Friday morning at ten o'clock the defendants were again brought into court when the Justice bound them over to appear before the next grand jury, fixing their bail at $300 each. The following are the names of the parties who are called on to appear at the next term of court: C. McIntosh, C. Bennett, S. Dysert, E. Hall, A. Wallace, Jos. Dysert, Jeff. Wallace, J. S. Writing of the routes to the Coeur d'Alene mining district, a correspondent of the Spokane Falls "Chronicle" says: The best route in here in the spring will be by the Trout creek trail, and one will start from Spokane Falls, and go up the Mullen road, twelve miles by the Mission to Jackass prairie. It is from Spokane to Fort Coeur d'Alene 30 miles, 30 miles to the mission and twelve miles to Jackass prairie, then 15 miles by trail to the mines. By the Trout creek it is 40 miles from the railroad to the camp. Trout creek is about 40 miles from Heron Siding in Montana. The best place to get an outfit is at Spokane Falls, as the dealers there keep a good stock of miner's tools and supplies, obtained direct from the East and sold at reasonable prices.

Several new liquor licenses were granted this week by the county commissioners among which were the following: W. B. Senator Dolph of Oregon, has introduced his bill of last session to ratify the treaty with the Fort Hall and Lemhi reservations of Indians, consisting of Shoshones, Bannocks and Sheep Eaters, by which they ceded certain lands to the government in consideration of annuities, amounting to $4,000 a year for the Lemhi, and $6,000 for the Fort Hall red men. The bill allows these Indians lands in severalty, appropriating $12,000, with which to make surveys, and sufficient money to carry out the other provisions of the treaty.

It is seldom we speak editorially of a business man, but it is with pleasure that we write of Robert S. Ammen, the proprietor of the famous Ammen's Cough Syrup. Mr. Ammen is a thorough business man, and has reduced the advertising of his medicines to an exact science. He believes that his Cough Syrup is a public benefit, and advertises it in every county in the State, and extensively throughout the territories. He is one of the substantial men of San Jose, and we recommend him to the newspaper fraternity as one of the most prompt paying advertisers in the country.—Editorial, Vanity Fair, San Francisco, June 17th, 1882.

The Yreka "Journal" learns by passengers from below that large gangs of Chinamen are constantly arriving at the railroad front above Redding, and that railroad grading and other work is going right along rapidly. Some ten gangs are to be set at work immediately, near the Sacramento river bridge, the main efforts at present being the hurrying up of the bridge, across Sacramento river, before high water comes to carry off their temporary bridge. When the piers are completed for this bridge, which is a short distance below the stage road bridge, the railroad company expect to be able to work all their force all winter above Sacramento river bridge, and also run their construction trains without interruption. The renewed energy shown in the railroad work between Redding and Yreka indicates that the Central Pacific will very likely fulfill their promise of being ready to meet the Oregon road as soon as it is ready for connection.

Yesterday's "Ashland Tidings" has the following: The track ... Tuesday, and Phoenix is ex... see the cars tomorrow, or ... next week, at the latest. The first of the bridge work will cause the greatest delay between Phoenix and Ashland ... but it ... north ... Ashland, within another week. The heavy bridge timbers will nearly all have to be brought on the cars from beyond Grant's Pass, and the company consequently want the track brought to the bridge work at Wagner creek as soon as possible. Between Wagner creek and Ashland there are twelve bridges, and considerable piling to be set. The grading and rock work will all be finished sometime before this bridging can be done.... A number of Chinese graders have moved from the camps north of Ashland to a point several miles south of town, and will begin work above town within a few days. With the exception of the rock cuts between here and Wagner creek the grading is about finished to Ashland.

SAD BEREAVEMENT.

The community was deeply shocked on Thursday morning to hear of the sudden, and entirely unexpected, death of the wife of Prof. J. W. Merritt which took place at 8 A. M. There is universal and sincere sorrow at this sad event for "Mollie" as she was familiarly known was a loveable member of this community where all her childhood and womanhood was spent and among whom; as child, as maiden, and as wife she bore a pure and enviable reputation and was loved for her virtues and accomplishments. To the sorrowing husband who mourns the loss of a dearly beloved companion human words or human sympathy no matter how tender or how sincere, will avail but little; but nevertheless, they have been spoken in all tenderness, extended in all sincerity. Yesterday he clasped the warm hand of the young wife and mother, full of blessed hope for the future; the Guest who comes unbidden to us all stepped at lently across the threshold of the happy home—to-day the fair form is but as dust and he waits in vain for the loving words that will greet his ear nevermore. Mrs. Merritt was the second child of Dr. and Mrs. Jane McCully and one of the first children born in Jacksonville. She was a graduate of the Willamette University and an accomplished member of society and her untimely calling away has fallen like a pall on her relatives and friends. If there are any thornless roses beyond the threshold of the "Unknown" that she has just crossed may they be woven for her into an eternal crown; for none ever left this world of mixed joy and sorrow who deserved it more.
