GRAND JURY REPORT.—We the grand jury empanelled for the February term, would most respectfully submit the following: We have examined all cases brought before us, and have passed upon the same according to the dictation of our consciences under our oaths, and the instructions of the court. We have examined the Clerk's and Sheriff's offices and find them neatly, cleanly and correctly kept. We have examined the county jail, find it cleanly kept but would recommend repairing the front door as it is unsafe at the present time. The county hospital in our judgment is a miserable place to keep county patients in and smells as bad or worse on the inside than a hog pen, and is totally unfit for any human being to be kept in whether he be a pauper or not. S. R. Taylor, foreman.

"NOT A TRUE BILL."—The case of the State of Oregon vs. Wm. Ruble and others, bound over by Justice Huffer on a charge of riot, was brought before the grand jury this week but that body seem fit to report it to the Court as "not a true bill." We suppose the grand jury arrived at this conclusion from an economical standpoint, thinking they would save the county the expense of a trial as the case would be reversed anyhow when appealed to the Supreme Court. The defendants will no doubt try again to take the mine by force, considering this a vindication of their former action when the next grand jury may have more cause for investigation and decide on the question of dollars and cents and law and justice. The ends is not yet far from appearance and several more items for the local reporter may result.

VINDICATED.—Some time last June a Chinese gambling den on the railroad was broken up by J. H. Moody, Dodo Kuetner and J. C. McCully, employees of the company, for which the Chinamen would gamble all night and were unfit for work next day. As a result of the raid the gambling tools and about \$90 in money were captured which was tendered back to the proprietor of the game after it had been broken up. The Chinamen, however, thought he seen a chance to make a stake, refused to take what was tendered and brought suit in a civil action for the recovery of some \$600 more than was taken. The case was tried this week and the evidence showing conclusively that nothing more was taken than was offered to be returned the jury so found and Hong Kong came out at the little end of the stick. We congratulate the defendants on their vindication.

Some young lady of this place advertised for a husband in the San Francisco "Chronicle" with directions to address box 74 this postoffice. She says she is handsome, has means and the only thing required to make her happiness complete is a fond loving husband. Judging from the number of letters in box 74, they must be numerous who are willing to join the majority.

When friend Aminidab, a lineal descendant of the late William Penn, had been out on a picnic jaunt, and was driving home with his old wife, under peculiar difficulties, the lady became concerned, and said: "What is this about, husband? This is off the road, among the stamps and stones, and they will turn us over and break our necks. Aminidab, this has been drinking!" Never the mind Sarah, replied the obfuscated culprit, "Sit thee still, if possible, and I'll get thee home all right—if the horse holds together." Perhaps this grotesque little incident may have some relevancy to the fact that Bilger & Maegly sell hardware cheaper than ever.

The case now pending in the U. S. court against one Gains, for complicity in the Stillwell robbery, near Canas prairie, is believed to be a malicious prosecution. Persons who claim to know say Gains was at home the time the robbery was committed, and knew nothing of the matter at all. He is said to be unacquainted with either Hill or Stillwell. As Stillwell seems fond of telling stories about this matter, there is no telling whom he will implicate next.

The town of Dayton, W. T., furnish as a first class sensational item in the burial of a young lady, Miss Hockwait, alive. Her supposed death occurred January 10th, on the morning of the marriage of her brother. Dr. Jewett pronounced her dead and she was buried next morning. A suspicion that she might still have been alive led to the disintering of the body when it was found she had turned over in the coffin and had torn her hair out in handfuls.

After the guests have assembled the baskets (or the lunches in them) are to be sold, one to each gentleman. The gentlemen find the cards and each sits down to lunch with the lady whose name he finds. No man can tell whether he will be permitted to lunch with the 'prettiest girl in town' or not; but it is presumed that all may be assured of 'virtuosity' enough for a substantial lunch.

We learn from Mr. A. H. Burrows, who arrived here Sunday afternoon, that 1,300 more Chinamen came up from San Francisco to work on the railroad above Redding, probably discharged from Oregon road, going from Portland to San Francisco by steamer. Instead of showing any signs of quitting work, the California company appears to be just commencing in earnest, and now have about double the force ever before employed. The men are evidently procured now so as to have them well organized for successful spring operations, the time when the ground can be worked to the best advantage, by reason of not then being baked hard by the influence of the heat at a later period of the season. In addition to the Chinamen from below, large crowds pass through here almost every day, with several more wagon loads to come, and a Chinese agent has been here for over a week securing all the Chinamen possible in this vicinity, offering \$30 a month.—"Yreka Journal."

Interesting To Farmers.

ROCK POINT, Jackson Co., Or., Jan. 26th, 1884.

D. M. Osborne & Co. Portland, Oregon: Gentlemen.—I bought one of the Osborne No. 11 Twine Binding Harvesters for the harvest of 1883, and I take pleasure in recommending it to all farmers, for it gives perfect satisfaction in cutting and elevating the grain, and in binding it. It is the "boss." The more I use it the better I like it. The expense of harvesting with the Osborne No. 11 is less than heading or reaping.

Yours truly, G. W. LANCE.

ASHLAND, Or., Jan. 25, 1884.

D. M. Osborne & Co. I bought one of year No. 8 Independent self-rake Reapers this last harvest. It did the best of work I ever saw done with any reaper. I cut some grove oats hay, which was the heaviest work I ever saw done with a reaper. I raked off bunches that would weigh a hundred pounds.

Yours truly, BENNETT MILLION.
