Stockton, Cal., Dec. 30th, 1881.—I sell Ammon's Cough Syrup, feeling confident your reputation as an apothecary would prevent your putting any trash upon the market, and the price being about the same as the best class of remedies, I have no object in discriminating against it, so I wish you success. W. A. McCurdy, Apothecary, Cor. Main and Sutter streets.

We interviewed Mr. Loring, the right of way locator of the Oregon railroad, who passed through here Sunday for the California railroad, accompanied by Mr. Morrison, an eminent surveyor from the East. They came from Cottonwood by the Anderson grade, and viewed that route with great interest, concerning the advantage of whether it would be a good way to build, in securing a high grade and direct road. Mr. Loring says there is no truth in the report that a contract has been made with Mr. Thompson to go ahead and complete the road from Ashland to the California line, nor does he know when work will be resumed. Work is still in progress between Phoenix and Ashland, towards finishing road to latter place, and the company can finish to the line within six months, as soon as the California company are near enough to meet within that time, though it is probable work on the tunnels will be resumed during the coming summer when the weather is more favorable. Siphons are used in the Buck Rock and Siskiyou tunnels, to keep the water out so that no damage may occur to the work already accomplished, and the talk against the surveys is supposed to result from prejudice towards Hurlbert, because he was strict and honest, working for the interests of the company as he would his own.—Journal.

Parties from Ashland have leased a stall in Central Market, and the first carload of apples from Phoenix was received by them a day or two since.

The good price now paid for apples may render this enterprise profitable, but the excessive freight charges at present ruling will prove a barrier to the shipment of apples from that section in ordinary years. Loui Colver Killed.

This community was shocked last Sunday by the announcement that P. W. Otwell had killed Loui Colver at Phoenix the night before, mistaking the latter for a burglar. The following statement by Dr. George Kahler of Phoenix is how it occurred and we publish it as furnished: In consideration of the fact that many and incorrect rumors are in circulation relative to the death of Loui Colver of our village, I thought a true statement of the facts in the case would be acceptable to the public.

About midnight of the 8th inst, I was awakened by screams of a neighbor woman, and on hastily going to the door she said some one was trying to get in her house. I ran to her assistance and found on opening her front door some one on the porch, and ordered him to leave. He did not move off and I shut the door and inquired of the lady if she had a pistol in the house. She said no, and just at that moment two desperadoes were broken with a crash and the lady commenced to scream again. I sprang to the window and as no one tried to enter I again opened the door and looked out when the man had disappeared. In a few moments Loui Colver and his man came down the walk with a lantern, having been aroused by the screams, and said he had seen a man run across the road. They went across to Mr. Otwell's plank fence and locked over and around but could not see any one, came back across the road and we talked a moment or two when we heard screams from Mr. Otwell's house. As I was still in my bare feet I ran up to my house to get my boots on and L. Colver and his man ran toward Mr. Otwell's, and at this moment we heard shots being fired at Mr. Otwell's. I hurried over and when I reached Otwell's gate I found Loui lying there, and he says to me Mr. Otwell has shot me. I then called to Otwell in a loud voice, speaking his name, you have shot Loui Colver. He answered I can't help it, some one has shot me. I then went up to the window, seeing him standing inside with the gun in his hand, and asked him if he were really shot. He answered no, but I was shot at. Then Mr. Lowe and I carried Loui home and when we entered the hall we found a man lying on the floor of the hall apparently asleep, and on examination found him to be drunk. We took him in, put him in care of the constable, who kept him till next day, but we could not find anything to base a charge on, so turned him loose. Loui was shot through the thigh with two balls, one entering just in the track of the femoral artery and immediately below Poupart's ligament and the other about three inches below. The following is Mr. Otwell's statement of what occurred in his house as near as he could tell: Mrs. Otwell was awakened by hearing one of the outside doors opened, and listening intently heard some one talking at the lock of the inside door, when she whispered to Mr. Otwell that some one was trying to get in the room. He heard the same sound and as noiselessly as possible got his shot gun and moved to the door and listened, heard a picking at the lock, and with his gun cocked and in his right hand, suddenly opened the door when a pistol was fired which caused him to recoil, at the same time discharging his gun and closing the door. He felt stunned and cried out to his wife that he was shot, and for her to fetch him the rifle, which she did. He then turned and saw a glimmer of light at the front of the house, and hearing voices, there, thought there were accomplices trying to get in at that part of the house, and saw through the window what he took to be burglars and fired on them with what awful effect we know. Loui died about 2 o'clock the following afternoon, very suddenly and unexpectedly. This sad affair has cast a gloom over the whole community, not only on account of the affliction of the bereaved family but also for Mr. Otwell and family who are nearly distracted about it.

Interesting To Farmers.

ROCK POINT, Jackson Co., Or., Jan. 26th, 1884. D. M. Osborne & Co. Portland, Oregon: Gentlemen.—I bought one of the Osborne No. 11 Twine Binding Harvesters for the harvest of 1883, and I take pleasure in recommending it to all farmers, for it gives perfect satisfaction in cutting and elevating the grain, and in binding it. It is the "boss."

The more I use it the better I like it. The expense of harvesting with the Osborne No. 11 is less than heading or reaping.

Yours truly, G. W. LANCER. ASHLAND, Or., Jan. 25, 1884. D. M. Osborne & Co. I bought one of your No. 8 Independent self-rake Reapers this last harvest. Yours truly, BENNETT MILLION. Miller & Co., at Ashland; F. Hubbard, Jacksonville, Phoenix and Medford; J. W. Hayes, Rock Point, Agents for Osborne machines.
