JACKSONVILLE.  
SATURDAY, APRIL 7, 1884.

## REPUBLICAN COUNTY CONVENTION.

A Republican County Convention is hereby called to meet at the Court House at Jacksonville, on Saturday, April 19th, 1884, at 11 o'clock A. M. for the purpose of electing delegates to the State Convention to be held in Portland, April 30th, 1884 and attending to such other business as may come before the Convention. It is recommended that primary meetings be held in the several precincts at the usual place of voting on Saturday, April 12, 1884 at 2 o'clock P. M. The several precincts of the county will be entitled to one delegate, and one for every 18 votes and fraction of 9 or over, based upon the votes cast for M. C. George, member of Congress at the June election 1882 which gives the following representation:

Ashland.....	2
Little Butte.....	2
Applegate.....	1
Big Bend.....	1
Chimney Rock.....	1
Eden.....	1
Evan's Creek.....	1
Flournoe Rock.....	1
Foot's Creek.....	1
Grant's Pass.....	1
Jacksonville.....	9

Total.....41

The Republican voters of the State with out regard to past political differences who are in favor of elevating and dignifying American labor, giving free popular education to the masses of the people, effecting a union of human rights in every section of our common country and who desire to promote friendly feeling and permanent harmony throughout the State by maintaining a government pledged to these objects and privileges are cordially invited to unite in selecting delegates to the Republican State Convention.

MERRITT BELLINGER, Chairman.  
W. H. ATKINSON, Secretary.

WANTED.—A good girl to do general house work for a small family. Light work and good wages. For particulars enquire at this office.

INSANE.—James Miller, an old time resident of Eagle Point, was brought to town last Wednesday and examined by Drs. Aiken and Robinson who pronounced him insane. He was taken to the asylum the day following by Sheriff Jacobs.

QUARTERLY MEETING.—The third quarterly meeting for this circuit announced last week to be held at Grant's Pass April 5th and 6th is changed to Ashland April 12th and 13th. Services on Saturday 12th at 11 A. M., B. J. Sharp, Pastor.

BENEFIT.—A musical entertainment for the benefit of the Jacksonville Silver Cornet band will be given at Holt's Hall on the 19th of April. The boys have been working faithfully for a long time, and it is hoped our citizens will manifest appreciation of their efforts by giving them a rousing benefit.

RETURNED.—L. S. P. Marsh returned from Crescent City Thursday night where he submitted a plan for the new Court House to be built at that place. San Francisco architects also furnished plans but Mr. Marsh's was the one accepted. Bids for its construction will be opened next month.

ANOTHER INSANE PATIENT.—A telegram was received from Ashland last evening that Marshall Taylor of that place had in custody another man who was insane and he was brought here last night to be examined. The man's name is Marshall and he is a stranger in this section having just arrived from California. His examination will probably take place today when he will be taken to the asylum at Salem. This makes the third case this month.

JOSEPHINE JURY LIST.—Drawn for the April term of Circuit Court: Smith Davis, Alex Jones, Robt. McDaniel, Fred Croxton, John Niday, John John, G. F. Green, T. G. Patter son, F. G. Harmon, Geo. Simmons, J. W. Bain, Wm. Nauke, E. M. Groin, C. O. Biglow, F. G. Day, A. Cole, H. L. Robinson, Ben George, A. A. Wimer, C. W. Craig, S. A. Burroughs, Jesse Mash, Alex Watts, A. M. Jess, Henry Boat, Richard Adams, A. Kelley, J. G. Lanterman, A. Every, R. M. Thompson, J. W. Cox.

ALL FOOLS DAY.—April 1st will be remembered here for a while on account of the numerous sales that were perpetrated on the innocent that day. The best one of the day was invented by Fred Grob, who placed a box filled with grass in front of his place of business while outsiders would send the unsuspecting ones around to buy some fine fresh lake trout. Fred would never fail to tell them to take their pick, but after digging around in the bottom of the box and finding none the customer would usually "drop on himself."

NEW MAIL LINE.—Dispatches in the daily papers state that the Jacksonville mail will hereafter be carried between here and Phoenix instead of Medford where the connection with the railroad has been made heretofore. The item does not state who the successful bidder is but the general impression is that it is W. J. Plymale of this place. The contract lasts until the first of July when the route will again be let. [Since the above was in type we learn the services will be seven times a week and that Mr. Plymale is the successful bidder.]

HABEAS CORPUS.—Two writs of habeas corpus were gotten out this week in the cases of Charles Jeroy, charged with sodomy, and that against C. W. Bean and Wiley Cardwell charged with felony. After argument before Judge Webster His Honor decided that there had been no violation of law in the case against Bean and Cardwell as they were working for Kelley at the time the latter was in full possession of the mines. In the case of Jeroy the Judge decided that the crime charged was unknown to our statute and turned the prisoner loose after a severe lecture.

The railroad track is expected to reach Ashland about April 25th but the change in passenger terminus will not be made before June 1st. The railroad company asks a donation of \$100,000 from the citizens of Yreka for changing their route so that it will run through that place. It is doubtful if that amount can be raised there and we don't think the town will be much loser thereby either. The route now located is about six miles distant from Yreka.

The boy was in a despondent mood when he left home and it is feared some thing has happened him. Any information regarding his whereabouts will be thankfully received by his parents.

The spring poet is out in force, and is roaming all over the land. The latest sent to us, and signed "Gertrude," asks: "And must we seek another heart, when to warm our love? Yes, Gertrude; we are afraid you must. We have rented our apartment for a term of years, and the tenant requires all the fuel and every inch of store-room."

Senator Mahone, from the committee on public buildings, reported, with favorable recommendations, Dolph's bill authorizing the construction of a new custom house building at Portland, Or. The original appropriation proposed by the bill was \$500,000. The committee reduced it to \$250,000, which they consider sufficient for the purpose.

The New York Senate committee reports finding alarming adulteration of food, dangerous to consumers and imitating good products so as to depreciate country property. Bogus butter is current and dairy farmers are driven out of business. Forty million pounds of imitation butter is sold annually in New York State alone and the dairy business is ruined.

One of the curious and amusing typographical errors which creep into newspaper despite the diligence of even the most lynx eyed proof reader, appears in a San Francisco paper, which meant to say "Judge Thomas exchanged benches with Judge Scott yesterday," but the cruel type made it read "Judge Thomas exchanged breeches with Judge Scott yesterday."

The Republican primaries for selecting delegates on the 19th to the State convention to be held at Portland on April 30th will be held at the city hall on Saturday next. The tide of emigration is turning strongly this way and railroad officials say that fully 200 per day leave St. Paul bound for various points in Oregon and Washington. Besides these many are pouring into the country from California. Taken altogether the outlook for the accession of a large number of wealth producing citizens to the population here is very encouraging.

It is the province of ministers to do good, therefore we think every minister should inform himself in regard to Ammon's Cough Syrup, and after being satisfied that it is all that is claimed for it, recommend it; thus lives can be saved and then taught how to save their souls. We are told that the proprietor is always willing to give a bottle free to any minister or family who wishes it to try.

Different classes of people have at different times received reputations for being liars; but go the world over and California will take the lead. Systematically and maliciously her citizens lie about Oregon, her people, her climate, her soil, her advantages, and her everything, in order to keep immigrants from coming here. This practice is infamous and should be stopped. —"All any Democrat."

It has been determined by the cigar makers of San Francisco to keep the Chinese strikers locked out and to employ white workers in the future. They have effected an organization with \$100,000 capital, for the purpose of establishing a training school for the employment of white men, women, girls and boys, in which the business of cigar making can be learned, the graduates to be apportioned among the several factories.

A Portland telegram of March 28th, states that information has been received there indicating that the rumor published a few days ago that the Central Pacific had secured control of the Oregon Railroad and Navigation Company is based on facts. Indeed, it is not improbable that they have secured all the ex-Villard corporations, except, perhaps, the Oregon and California road and the Oregon Improvement Company. The latest rumor is, that Flood and Mackay are in with the Central Pacific in these new acquisitions.

A San Francisco dispatch of March 29th says a fire broke out there the night before in a building on Market street, between First and Second streets owned by Bowman & Belding and occupied by Fisher & Baum, dealers in hosiery, notions, etc., and E. Reed, manufacturer of shirts and underwear. The difficulty in breaking in the heavy iron doors gave the fire an opportunity of gaining considerable headway before the fire department could get properly at work. Fisher & Baum are damaged \$15,000; fully insured. Reed's loss will probably reach \$3000.

Charles B. Finlayson, who was convicted of murder in the first degree, has been granted a new trial by Judge Boise, on motion of counsel for defense, they filing an affidavit signed by J. J. Finlayson that one of the jurors, Milton Hale, told him (Finlayson) prior to the trial, "that the boy ought not to have a trial, but that he ought to be taken out of jail and hung."

Counsel for prosecution filed a counter affidavit signed by Milton Hale denying that he used the language imputed to him, but the judge after a close scrutiny of the law bearing upon the case, granted a new trial, and set Monday, April 21st, as the time for rehearing the case.

By parties from Oregon we learn that surveying parties are busily engaged surveying the Siskiyou mountain on north side, towards endeavoring to get a straighter road and avoiding the necessity of the Buck Rock tunnels. There is a nine mile zig zag route by the survey located, which gains only a mile and a half straight course, and many think it probable no less the Buck Rock tunnel can be avoided, that the survey with a 7,000 foot tunnel may yet be adopted. No one seems to know when work will be resumed on the Siskiyou, and it is more than likely nothing in the way of road building will be started again until the surveyers get through with their new surveys now in progress.—"Yreka Journal."

LIME FOR SALE.—The undersigned have on hand about 500 bushels of superior lime at their Kiln on Jackson creek 1½ miles from Jacksonville which is offered for sale in quantities to suit at the lowest rates. DECKER & ALLISON.

PIONEER APPLES.—A gentleman who was identified with the earliest attempts at fruit raising in Oregon states that the sale of apples for \$3 per box mentioned in these columns a day or two since is the best price brought by apples here for some years. But many years after '49, apples sold here for \$9 per box, and as late as '58, they brought eight cents per pound. So soon, however, as the California orchards began to produce, the price of apples declined here. At one time nearly all the freight sent from this port by steamer consisted of apples, which it is said grew to a fabulous size in those days. Many of the orchards which in those days were as productive of wealth as gold mines are now gone to decay and grown up in brush.—"Oregonian."

FARMING MACHINERY.—Miller & Co. of Ashland are agents for the celebrated D. M. Osborne & Co. farming implements, consisting of harvesters, mowers, reapers and self binders, also the Morrison and Moline plows and Schuttler wagons. By shipping their goods in large lots direct from the manufacturers, and getting car-load rates on freight, they are enabled to sell much lower than others who purchase in less quantities. Enquire prices.

The Emperor Louis Napoleon smoked only the finest cigars the world could produce. Blackwell's Bull Durham Smoking Tobacco is made from the same leaf and sent in the Emperor's cigars, is absolutely pure and is unquestionably the best tobacco ever offered.

Blackwell's Bull Durham, in *Hayes's Monthly*, tells of her visit to the great post office building in Washington, D. C., where she found him making Blackwell's Bull Durham Tobacco, sent him by Hon. James Russell Lowell, American Minister to the Court of St. James.

In these days of adulteration, it is a comfort to smokers to know that the Bull Durham brand is absolutely pure, and made from the best tobacco the world produces. Blackwell's Bull Durham Smoking Tobacco is the best and purest made. All dealers have it. None genuine without the trade-mark of the Bull.
