Northern Pacific. THEIR LAND GRANT TAXED BY THE SEC-RETARY OF THE INTERIOR.

Some time ago the House of Representatives called upon the Secretary of the Interior for information regarding the definite and final location of the Northern Pacific Railroad, and as to whether the Northern Pacific Company has claimed, or is claiming, any of the lands on which homestead and pre emption entries had been made within the limits of the grant opposite any part of the railroad prior to the time of its definite location; and if so, whether such claims are being considered by the department. The Secretary of the Interior has replied to this inquiry, inclosing a letter from the Commissioner of the General Land Office giving the information required. The Commissioner says that the North era Pacific has been definitely located from a point in the State of Wiscon. sin, about fifty miles west of the Montreal river, to a point near Wallula, W. T., and from Portland Or., to Tacoma, W. T.; the branch line has been definitely located from a point near the city of Yakima, W. T., to a junction with the main line near Ainsworth in the same territory. A map showing the Red River of the North, a distance but he could set the basin on it, and of 228.2 miles, was received November 21, 1871. This map was accepted as a definite location of the road, no evidence of such location having been presented prior to that time. Other main line is 1,888.65 miles.
