Why does the proprietor of Ammon's Cough Syrup publish testimonials from those who have been cured or relieved by his medicine? The answer is, the greater the humbug the more testimonials they publish. Ammon's Cough Syrup is no humbug, and to prove that and let it stand on its own merits, a 15-cent sample bottle is prepared, which is certainly more convincing than a testimonial from a stranger. Large bottles, \$1.00. Ask your druggist for it.

Gov. Chadeick and party visited the B-onze Copper mines in Josephine county with a view to start up again the works there. What the plan of operations proposed by said party is, is not made public as yet, but the inspection of the mine with a view to open it up shows an interest which still lives, while for several years the mine has been unwrought. The Bronze mine was at one time in the hands of a San Francisco Company, which run it a part of two years but, expensive freights on the necessary machinery was the difficulty, and also the ore by trains was too high for profit. But since the completion of the railroad to Southern Oregon all those high rates cease.

We learn from G. W. Smith, the Linkville Hotel man, who came here with the Linkville mail last Friday, that the military forces of Camp Bidwell and Fort Klamath are to be consolidated, and headquarters removed to Lost River Gap, 10 miles east of Linkville, close to the California and Oregon boundary line. This will prove highly beneficial to Linkville, and be of much benefit to Yreka, the nearest point for connection with the main trunk main route between Oregon and California. In addition to this change, fifty soldiers have been ordered to the assistance of the Linkville people in improving the wagon road down Klamath river towards Yreka. After the first of July next, there will also be a tri-weekly stage line between Yreka and Linkville, which will bring considerable business and travel to this place.—"Yreka Journal."

COMMITTED SUICIDE.—San Francisco papers of the 16th inst. give an account of the death of C. Schiefelin, formerly of this county, which states that he committed suicide. We publish the Chronicle's dispatch below:

The deceased had been complaining of feeling ill several days, but as he was of a genial disposition the rash act takes all his friends by surprise. He was a native of New York City and 61 years old.

There are 655 farms in the county, 90,855 acres of improved land valued at \$1,697,105. The value and the estimated value of all farm productions (sold, consumed or on hand) for 1879, is \$505,779. Analysis by Dr. A. Voelker, F. R. S., Consulting Chemist Royal Agricultural Society, England, shows only a trace of nitrates in Blackwell's Bull Durham Tobacco. The soil of the Golden Belt of North Carolina, in which this tobacco is grown, does not supply nitrates to the leaf. That is the secret of its delicious mellowness. Nothing so pure and luxurious for smoking. Don't forget the brand. None genuine without the trade-mark of the Bull. All dealers have it.
