THE STAFF OF LIFE!

THE ROGUE REAPER
STEAM FLOURING MILLS

HAVING RECENTLY BEEN RE-fitted with all modern improvements, are now turning out a first class article of flour, which is put up in one-fourth barrel sacks, and every sack is warranted to contain 49 pounds of flour. If you don't believe this, just compare a sack of our flour with any other brand offered for sale in this market, and note the difference in weight.
Flour and Mill-Feed
 Constantly on hand and exchanged for wheat.

Having added a set of Barley Rollers to my mill, I have set apart every Saturday to Roll Barley for customers. The work will be done on short notice, so that parties can return with their grist the same day. I am prepared to roll barley at all times and in the best manner. This process is far ahead of the crusher.

Piles! Piles! Piles!
A SURE CURE FOUND
AT LAST!
NO ONE NEED SUFFER!

A sure Cure for Blind, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. William (an Indian Remedy), called Dr. Williams' Indian Ointment. A single box has cured the worst chronic cases of 35 or 39 years standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions, instruments and electrics do more harm than good. Williams' Ointment absorbs the tumor, always the intense itching (particularly at night after getting warm in bed) acts as a poultice, gives instant relief, and is prepared only for Piles, itching of the private parts, and for nothing else.

Read what the Hon. J. M. Coffinberry of Cleveland says about Dr. Williams' Indian Pile Ointment: I have used scores of Pile Ointments, and it affords me pleasure to say that I have never found anything which gave such immediate and permanent relief as Dr. Williams' Indian Ointment.

TUTT'S PILLS

TORPID BOWELS,
DISORDERED LIVER,
AND MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of appetite, Bowels costive, Steady depression of spirits, aches in the head, nervousness, a general feeling of languor, a general feeling of exhaustion of body or mind, Erection of the stomach, Irritability of temper, Low spirits, feeling of having neglected some duty, Dizziness, Interfering at the heart, Drowsiness of the eyes, Slight colored urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver, Absorbing medicine. **TUTT'S PILLS** have no equal. Their action on the Kidneys and skin is also prompt; removing all impurities through these three scavengers of the system, producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. **TUTT'S PILLS** skin and a vigorous body. **TUTT'S PILLS** skin and a vigorous body.

She Got Ahead of Butler.

Washington claims the honor of producing the only individual who ever got very far ahead of Gen. Butler. It was a woman, of course. She was imprisoned by him during the war, and suffered many hardships and indignities. One day he sent for her to come to his private office to interrogate her himself. As she entered he was busy writing, which he continued to do without speaking to her or noticing that she was standing. She looked around for a seat, found one, and also a tray with a luxurious luncheon for the general himself. Having nothing else to do, she quietly ate the luncheon up, and what she could not get away with otherwise she stuffed in her pockets. After a while Gen. Butler wheeled around and said brusquely: "As you see, I have been deeply engaged." "And so have I," sweetly responded the lady, pointing to the empty tray, where not a bone remained. History does not record the general's reply to the unterrified woman.

Frosty Windows and Glycerine.

A very thin coat of glycerine applied on both sides of window glass will prevent any moisture forming thereon and will stay until it collects so much dust that you cannot see through it; for this reason it should be put on very thin. If used on a looking glass you can shave yourself in an ice house, and the glass will not show your breath. Doctors and dentists use it on small glasses with which they examine the teeth and throat. Surveyors use it on their instruments in foggy weather, and there is no film to obstruct the sight. Locomotive engineers have used it as a preventive of the formation of frost on their cab windows. In fact it can be used anywhere to prevent moisture from forming on anything. It does not injure the usefulness of field glasses, etc. In fact, a small drop of pure glycerine in a small hole in a sheet of brass makes a good lens for a small microscope.

Treatment of Burns and Scalds.

Dr. C. F. Naismith writes to the Lancet that he has secured most excellent results from the following method: At first, he used the soda solution, followed by caron oil, but soon abandoned them as unsatisfactory. The former owes its reputation to the cold water, and not to any soothing property in the soda. His invariable practice, however extensive the scald, has been to place the injured member in ice cold water, keeping it there until all pain had disappeared--say in from two to four hours, or even longer. The water heats rapidly, and must be kept cold either ice or constantly renewing. As long as the scalded part is kept under water (provided it is cold enough) no pain is complained of, and symptoms of shock are much lessened. When the limb will bear removal from the water without pain, he lays on (thickly) lead acetate and resin ointment (one drachm to one ounce) and envelops in cotton wadding. He has used this ointment also in erysipelas with the best results, all symptoms of inflammation rapidly disappearing. Should severe suppuration occur, instead of the lead acetate a few drops of creosote may be added to the resin ointment, as recommended by Druitt. By this treatment pain and shock are reduced to a minimum, opium is seldom required, and danger to life is, he believes, greatly averted.

Gen. Logan.

When some one said to President Grant that Senator Logan seemed rather inclined to complain of the administration, the president smiled and answered that he knew Logan well. He is critical by nature, he said, and always speaks his opinion. "During the war," said Gen. Grant, "while we lay in camp, nobody commented more sharply upon the slips and blunders than John Logan, but when the order came to march no corps was in more perfect order, none moved more promptly, and none was more bravely led than Logan's. He will criticize the administration just as often and as sharply as he chooses, but he will give no aid or comfort to the enemy." "Harper's Weekly."

Hank Vaughn's Wonderful Farm.

One of the finest farms in the United States is said to be that of Hank Vaughn on the Umatilla reservation. Features are 900 acres of wheat, 480 of barley, 15 of Russian oats, 30 of miscellaneous vegetables, 160 pasture acres, 600 acres broken for fall sowing, an orchard planted and in a thriving condition, 600 to 700 chickens, countless ducks, a large number of hogs and a hundred of horses and cattle; good residence and fine barns and outbuildings; an abundance of the best machinery; the land all fenced; several hundred thousand feet of lumber hauled from mountains, 150 cords of wood. This year's crop is magnificent; the wheat is as high as an ordinary man's head, and very thick. Mr. Vaughn calculates to clear \$22,000 from this year's products. On the 18th of May, 1883 the land was an unbroken prairie, with no sign of civilization; it now blooms like a rose. Hank Vaughn is said, by the "Journal's" informant, to be one of the most thorough, capable and hard working farmers in the northwest. Certainly the results of his past year's operations on what was before virgin soil are well nigh astounding.
