## BATERDAY, JULY 19, 1884.

REPUBLICAN TICKE

For President, Fames G. Blaine,

For Vice President, John A. Logan, of Illinois.

Nominees for Presidential Electors, D. P. THOMPSON, of Multnomal WARREN TRUITT, of Polk, J. C. LEASURE, of Umatilla.

Blaine is the first Presidential nomi nee from New England since 1852, when Franklin Pierce, of New Hampshire ran and was elected.

According to Cleveland, it is dangerous to arm the mechanic with the legal right to collect his wages. At least he vetoed a mechanics' lien law during his incumbency of the office of Gevernor of New York.

One of the most important bills killed by the last Congress, was the one providing for the settlement of disputes in counting the electoral votes. The law makers of the Republic, it seems, have not learned anything from past experience.

It was Henri-Watterson of the Louisville "Courier-Journal." who made the discovery that "the longer Grover Cleveland has been before the people, the more be has weakened." The probabilities are the same thing will hold good until November.

"Harper's Weekly" said more against Abraham Lincoln twenty-four years ago than it is saying now against Blaine and still Lincoln survived it and was elected and served his country se well that his name to-day is coupled with Washington's as the savior of his

The reduction of postage from 3 to 2 cents has caused a considerable falling off in the revenue of the Portland postoffice, as the following figures will show: Income for the quarter ending June 30, 1883, \$18,681 95; income for the quarter ending June 30, 1884, \$16,857 86, or a decrease of 10 8-10 Washington, California, Idaho and per cent.

The Democratic party have for years been striving to bring about free trade measures in the interest of England, and now a large amount of British gold will be used to aid that party in their effort to elect their President; but ready to give their country over to the keeping of England. Blaine will be

The Democracy have not been very successful with candidates from New York. They have tried four since 1864, and met with disaster every time. McClellan in 1864, Seymour in 1868, Greeley in 1872 and Tilden in 1876. Besides these, they nominated Hancock in 1880, who is more a New Yorker than anything else, and me with still another defeat.

The nomination of Cleveland is disappointment to Democrats of San Francisco. Not the slightest eathu siasm is manifested. Everywhere is heard the remark: "I am sorry that Thurman did not get it." Republi cans seem to be the only ones to whom the nomination is satisfactory. They say that the Democrats remained true to themselves in blundering at th proper moment. General Grant's famous remark to that effect is not going the rounds.

The New York "Star," a stron Democratic paper, propounds this "Why should the Democratic party in derse Cleveland? Under what obliga tions has he placed it? On the con trary, under what burdens and re proaches has be not make it stagger! Falsely supposing himself accountable to the Independent Republicans who bolted Folger, he has deferred in every case to Republican advice." As Mr. Cleveland is now the nominee of the Democratic party, the "Star" can an swer its own conundrums.

Ladies of Portland have commenced circulating petitions for signers asking the Legislature to submit an amendment to the constitution, for woman suffrage, and that the amendment be Kelly will tap Cleveland with his tomsubmitted without delay, on the plea that an impartial vote can not be obtained at a general election. The "Oregenian" says that when the petition was presented to Judge Deady, before affixing his name, he wrote as follows W. Terlind of this city, Secretary of upon the face of the document: "I the National Committee of the Greenagree with the prayer of this petition, back party, accompanied General Butbut I am not prepared to say that it ler from Chicago to Buffale. He says is impossible to have a fair and impar- that Butler stated distinctly to Gen. tial vote upon the amendment at a Weaver and others that he had acceptgeneral election, and I do not think ed the National Greenback and Antithat the Legislature is required to sub. Democratic Candidate.

Below we give a pen portrait of the would have taken rank above that utes: class of city office holders. His tastes are what you might expect of a sheriff and a country mayor. He has never married, loves beer, and has no great coriosity, and what put him forward in the Democracy was his native American and New England affinities. Figuratively speaking, he threw his pitcher of beer, as Martin Luther threw his inkstand at the \_\_\_at the heads of the Buffalo City Councils. The piquancy of this message gave his name currency in the state, and when the friends of President Arthur undertook to organize the Republican State Convention and get control of the machinery so as to renominate Arthur, Cleveland, who was nominated with some difficulty against such competitors as Slocum and Flower, made an amazing run by the very negative qualities in him. The Baine men took Arthur and Folger to be the same thing, and let the state alone. So Mr. Cleveland, ears, comes out as a statesman of the country, whereas he has the whole business of the United States yet to learn. He has been sheriff, mayor and gov-

Scenery of the Pacific Northwest.

The desire to possess artistic pictures of the scenery of the Pacific Northwest is a feeling shared in common by the residents of this region, and the thousands of tourists who annually travel great distances to behold it. To make a satisfactory collection of photographs is almost impossible, and is only accomplished at an expense far greater than the majority of people are willing or able to undergo. To meet this urgent want, a "Souvenir Album of the Pacific Northwest" has been issued, containing thirty-five art photographs of the most prominent and representative scenes of Oregon, Montana. Among them are excellent pictures of Crater Lake, Cascades of Rogue River, Mt. Hood, Multnomah Fall, Yellowstone Park, etc. The album is neatly bound in cloth, embossed with gold, and makes a neat orgament for the center table. The price, seventy-five cents, only represents the cost of three ordinary photographs, and brings this collection of thirty-five beautiful scenes within the means of all. Sent postage paid upon

the receipt of 75 cents. L. SAMUEL, Publisher, Portland, Oregon. The Legislature.

The political complextion of the next Legislature will be as follows:

The Game Law.

A careful persual of the game law Democratic candidate for President by may possibly prevent some parties that versatile writer, Gath: "Cleve- from violating the same. One half of all the money collected for fines for violations of this law will be paid to informers. Ye festive nimrods will do well to make a note

Our esteemed Democratic contemporaries are not doing their duty by Cleveland. They should let their readers know how he stands on the monopoly question. Perhaps they have nothing to say on the subject be cause they have no information. If that is the case we will cheerfully give them a little by reproducing a paragraph from "John Swinton's Paper" of July 6th. It fixes Cleveland's status exactly:

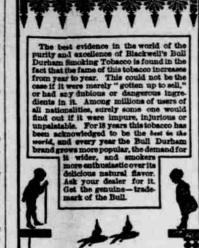

During his Governorship this corruption lawver has shown himself to be a scrubby tool of the monopolies promoting the legislation they desired and vetoing the bills they opposed. He has obeyed their orders like s scrubby numskull. In the interest of Jay Gould and other elevated railroad stock waterers he vetoed the Five cent Fare bill: in the interest of the street railroad corporations he killed the bill making twelve hours a day's work for car drivers and conductors: in the interest of capital he killed the Mechanics' Lien bill. He has watched like a lynx for every bill in the interest of the working classes that he might put his foot upon it. Cleveland has played false to the auti-monopolists, who now repudiate him; false to the working people, who are disgusted with himtrue only to the monopolists and mon ey power, who desire to give him a larger field of service in the White HOUSE, SENATE.

House. It is fortunate for Blaine that the subjects of Queen Victoria have no voice in the November election. Their hostility to him is decidedly pronounced, but it is not calculated to abate the zeal of his supporters. The following extract from the "Pall Mall Gazette" explains why John Bull does not wish to see Blaine made President:

Whenever he can he will oust us from the position which we hold; whenever an eppertunity offers he will use it to the uttermost to replace our influence and the trade of the United States, and he will regard it as his chief object to promote a great American confederacy under the ægis of the government at Washington, which would tend to increase the export trade of the United States at the expense of that of Great Britain.

there is no certainty of their carrying North Carolina, Virginia, West Virginia, or Florida. But even with a solid south, which would give them 153 electoral votes, they must carry about forty-eight more. Without New York and her 36 votes they would stand no chance at all and with it would have to secure twelve votes. It will readily be seen, therefore, why New York is looked to with so much interest by both political parties. With Tammany against Cleveland the Republicans can count on New York's

36 votes with almost a certainty. The Governor has recently appointed the following notaries public for the ensuing two years: Gen. W. H. Odell, Salem; Chas. A. Johns, Dalles; W. H. H. Waters, Salem; N. W. Scott, North Powder; G. W. Brock, Adamsville; Powder; G. W. Brock, Adamsville; on Jackson creek 1½ miles from Jackson or Jackson creek 1½ miles from Jackson ville which is offered for sale in quanti McDonald, Portland, and Henry Klip- ties to suit at the lowest rates. pel of Jacksonville.
