

How Cholera Patients Feel.

The patient feels well up to within a few hours of the attack, or it may be, goes to bed and sleeps soundly through the night, and immediately on rising in the morning is seized with violent purging and vomiting. If judiciously treated many patients recover from this, the first stage of cholera; but if neglected, the tendency of this disease is to grow rapidly worse, the patient complains of intense thirst and a burning heat at the pit of the stomach; he suffers also excruciating pain from cramps in the muscles of the extremities; he is terribly restless; and his urgent cry is for water to quench his thirst, and that some one might rub his limbs, and thus relieve the muscular spasm. The pulse is rapid and very weak, the respiration is hurried, and the patient's voice becomes husky. His countenance is pinched, and the integument of his body feels inelastic and doughy, while the skin of his hands and feet becomes wrinkled and purplish in color. The duration of this, the second stage of cholera, is uncertain—it may last for 2 or 3 hours only, or may continue for 12 or 15 hours; but so long as the pulse can be felt at the wrist there are still good hopes of the sick person's recovery, the weaker the pulse becomes, the nearer the patient is to the third, or collapse, stage of cholera, from which probably not more than 35 per cent. recover. In the third stage of the disease the vomiting and purging continue, although in a mitigated form; and the skin is covered with a clammy perspiration, especially if the cramps are still severe. The patient remains restless, longing only for sleep, and that he may be supplied with water. His intellect is clear, but he seldom expresses any anxiety regarding worldly affairs, although fully conscious of the dangerous condition he is in. Sleep and a plentiful supply of drinking water are the sole desires of person passing through a collapse stage of cholera. The condition seldom lasts more than 24 hours, and re-action either commences within that period or the patient dies in collapse, or passes on into the tepid stage, which in 99 cases out of a hundred ends speedily in death.

Butler recently said that he would give some curious facts relating to the inside workings of the Chicago Democratic convention. He will claim that he went there as a delegate, chiefly to voice the sentiments of the anti-Monopolists, and at their request, and that he did so in spite of the fact that the convention was packed by machine men, in the interest of Cleveland, who had tried to suppress anything like opposition to him. Butler further declared that "Jim Blaine has a right, in view of his training, education, experience and position in his party, to aspire to the presidency, but this man Cleveland is machine made man. He never tried a case in the court of appeals of his own state; he can't name all the foreign countries with which we have diplomatic intercourse, and if he went to Washington he couldn't find the White House door or the treasury department without a guide."

Piles! Piles! Piles!

A SURE CURE FOUND

AT LAST!

NO ONE NEED SUFFER!

A sure cure for Blind, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. William, an Indian Remedy, called Dr. William's Indian Ointment. A single box has cured the worst chronic cases of 25 or 30 years standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions, instruments and electrocutions do more harm than good. William's Ointment absorbs the tumors, allays the intense itching, (particularly at night after getting warm in bed) acts as a poultice, gives instant relief, and is prepared only for Piles, itching of the private parts, and for nothing else.

Read what the Hon. J. M. Coffinberry of Cleveland says about Dr. William's Indian Pile Ointment: "I have used scores of Pile Cures, and it affords me pleasure to say that I have never found anything which gave such immediate and permanent relief as Dr. William's Indian Ointment."
