The following curious proclamation is said to have been sent out as a "general order of the day" some time before a battle was expected between the Chinese and French. It was the work of a celebrated Chinese mandarin:

How the Chinese Prepare for Battle. The following curious proclamation is said to have been sent out as a "general order of the day" some time before a battle was expected between the Chinese and French.

THE SAN FRANCISCO BUREAU OF IMMIGRATION proposes to flood the Eastern States and Europe with correct statements of the resources and opportunities offered by the northern counties of California to settlers. Two or three sensible agents will also be employed to travel through the Eastern States and make known the advantages of the country for immigrants seeking new homes in the distant west.

THE ORIGIN OF WHEAT.—Evolution claims at length to have solved the problem of the origin of wheat. The noted botanist, Grant Allen, says: "Wheat ranks by origin as a degenerate and degraded lily. The primitive ancestor of the lily was a very simple plant, with a triple set of pollen bearing stamens, fertilized by insects. It thus acquired those bright colors and that beauty which rivaled Solomon in all his glory."
