

United States Senators.

The terms of one third of the Senators of the United States expire every two years. The Legislatures of the various States have chosen or will choose the following persons to fill the vacancies occurring the 4th of March next:

- Alabama—James L. Pugh, re-elected.
Arkansas—A Democrat.
California—Leland Stanford, first term.
Colorado—Henry M. Teller, previous service.
Connecticut—Orville H. Platt, re-elected.
Florida—Wilkinson Call, re-elected.
Georgia—Joseph E. Brown, re-elected.
Illinois—Demofel.
Indiana—Daniel W. Voorhees, re-elected.
Iowa—William P. Allison, re-elected.
Kansas—John J. Ingalls, re-elected.
Kentucky—John S. C. Blackburn, first term.
Louisiana—Converse, first term.
Maryland—James E. Brooke, re-elected.
Missouri—Geo. G. Vest, re-elected.
Nevada—John P. Jones, re-elected.
New Hampshire—A Republican, election in May.
New York—William M. Evarts, first term.
North Carolina—Zebulon B. Vance, re-elected.
Ohio—Henry B. Payne, first term.
Oregon—A Republican.
Pennsylvania—J. Donald Cameron, re-elected.
Rhode Island—Jonathan Chase, first term.
South Carolina—Wade Hampton, re-elected.
Vermont—Justin S. Merrill, re-elected.
Wisconsin—John C. Spooner, first term.

The Illinois Senatorial contest is attracting a great deal of attention, the Salem fight being a mere counter attraction in comparison. The Legislature as every one knows, is a tie on joint ballot, but by accident or sickness may be manipulated either way. W. R. Morrison is the Democratic caucus nominee for Senatorial honors, and Gen. John A. Logan, the Republican candidate for re-election. Carter Harrison, the political boss of Chicago, is an open opponent of Morrison, and will fight him to the bitter end. On the other hand, the Republicans claim they can pull their full vote for Logan and will bring the Legislature to a close without a selection being made. In this event, Governor Oglesby will be called upon to name Logan's successor, and as the Governor heartily supported "Black Jack" during the late Presidential campaign, there are few doubt but that John A. Logan will succeed himself as United States Senator from Illinois, Democratic predictions to the contrary notwithstanding.

Congressman George of Oregon was not far from the truth when he said that the Eastern Representatives, now that all their border troubles have long since ended, are anxious to pass laws which will give the Western settlers no redress for Indian depredations. He claimed and we think justly that any settler who suffers should be paid by the Government even should there be no treaty funds or annuities in the hands of the Indian officials. To declare that when Government coin is lacking the settler shall lose his property would be to rain nearly every rancher in the new Territories in time of Indian troubles.

Congress takes no notice of President Arthur's recommendation in regard to General Grant, and properly enough. Grant deserves nothing. He ought to starve. Since the election of November last it is plain that he was on the wrong side during the war, and he must pay the penalty for it. The southern confederacy, which is now to rule over the United States, sees the propriety of doing something to set history right. It can't do this in any other way so well as by making an example of General Grant—"Oregonian."

The New York "Sun" says: "Mr. Cleveland's administration will be either a success or a failure." A critic replies: "That is nothing. The 'Sun' could doubtless guess the sex of a baby in two guesses." To which the Detroit "Post" responds: "It is well, that's not so easy nowadays. The baby may turn out to be a mag-wump."

Court Court Proceedings.

The following business has transpired in this court since our last report: Officers present—Hon. L. R. Webster, Circuit Judge; T. B. Kent, District Attorney; W. H. Parker, County Clerk; A. S. Jacobs, Sheriff.

O. Severson vs. Lincoln Griffith and the O. & C. R. R. Co.; to foreclose mortgage. Decree granted and mortgaged premises ordered sold, subject to the right of way of said railroad company.

F. B. Inlow, L. J. C. Duncan and S. A. H. Stephens were excused as jurors. B. W. Powell was admitted to practice in this court in special cases upon a certificate from the fifth judicial district of Nebraska.

State vs. Wm. Macklin; indictment for abduction. Cause dismissed. State vs. Geo. Waller; indictment for an assault with a dangerous weapon. Bail for his appearance (\$200) ordered forfeited and bench warrant issued for his arrest.

A. L. Johnson vs. John Miller; to recover money. Judgment for plaintiff for \$100. O. Harbaugh vs. McCall & Anderson; to recover damages. Judgment for plaintiff for \$205.

Senator Dolph has introduced a bill in the Senate, to amend the timber law bill, approved June 3d 1878. The bill now pending is to amend Sections one and two of the existing law by striking from the first Section the words "and not fit for agriculture," and the words "not fit for cultivation" from the second Section. As the bill has been reported, favorably from the Senate to committee on public lands it will undoubtedly become a law. As the commissioner of the General Land Office has construed the act as not authorizing the sale of any timber lands that would be fit for cultivation after the timber was removed, hardly any lands on this coast could be sold legally. Mr. Dolph presented the matter in an able speech before the senate recently, and now that Congress can see the urgent necessity for the amendment, the bill ought to become a law at once.

Mr. Porter has introduced into the House a bill to provide that the letting of county bridge contracts, where \$200 or upward, shall be advertised in some county paper, and the bill has passed the House, has gone to its second reading in the Senate, and is now in the hands of the committee on counties for that body. It went into the hands of that committee on motion of H. B. Miller, who has built and helped build more bridges than any other man in the State, excepting his father, A. S. Miller. The bill is a meritorious one, gives every bridge contractor a fair show, and should be reported back favorably, and passed.

The Popular Approval. Of the now famous Syrup of Figs as the most efficacious and agreeable preparation ever offered to the world as a cure for Habitual Constipation, Biliousness, Indigestion and kindred ills, has been won by the wise plan pursued by the California Fig Syrup Company. Knowing that any remedy truly beneficial in its effects on the system, and at the same time pleasant to the taste, will meet with a rapid sale, the Company, through its agents Merritt & Robinson gives away a sample bottle free of charge. Try it and judge for yourself. Large bottle fifty cents or one dollar.

SAVANNAH, Ga., Feb. 11.—A telegram has been received here from Rome which states that at a consistory held to-day Pope Leo appointed Bishop William H. Gross, of the diocese, to be Archbishop of Oregon. Archbishop Gross was Superior of the Redemptionists in Boston until 1883, when he was appointed to the See of Savannah. He has lately distinguished himself by inaugurating active measures for reaching negroes. He will leave for Oregon in a few days.

D. D. D. Feeling sure of the unquestionable virtue and absolute curative qualities of De Haven's Dyspepsia Cure, we offer free of charge, sample bottles and circulars to all who are troubled with Dyspepsia, Indigestion, Sour Stomach, Flatulency, Sickheadache, or any form of Stomach Disorders. This remedy contains no alcohol, is compounded strictly scientific principles and never fails to effect a cure. A trial will convince the most doubtful of its wonderful effect. Sample bottle free at E. C. Brooks' drug store.

Gen. Logan received the unanimous nomination for U. S. Senator at the hands of the Republicans of the Illinois Legislature. Mr. Morrison that of the Democrats. As the Legislature is evenly divided, it is not likely that an election will be had; this will make a vacancy to which the governor will probably appoint Gen. Logan.

Run on a Bank. Reames Bros. are receiving a fine assortment of Fancy and Dry Goods, Hats, Clothing, Boots and Shoes, and the finest assortment of LADIES CLOAKS that has ever been brought to this market. All of which they are selling at prices that defy competition.

PHOTOGRAPHING MOTION.

Successful Experiments at the University of Pennsylvania. (Philadelphia Record.) Interesting experiments in instantaneous photography are being made by Edward Muybridge at the university of Pennsylvania. A space on the college grounds has been set apart with a high board fence surrounding three sides of the enclosure; the fence has been painted a bright white. On the fourth side there is a shed covered with black material, while the ground is covered with an inch of coal dust. This is the background and directly opposite is a little structure, with an open front, containing twelve cameras. Saturday the lenses were covered with double rubber shutters, and each was held in place by a latch. Each of these latches was connected with a wire and so arranged that the closing of an electric circuit would liberate the shutters and for the thousandth part of a second permit light to shine into the camera.

A splendidly-developed young student, a member of the university crew, stripped to the skin, was photographed in various attitudes. He took his position in front of the row of cameras. At a signal he seized a bucket of water, raised it in the air and tossed away the contents. The instant he moved, Mr. Muybridge touched an electric button. A series of sharp clicks sounded as in rapid succession the shutters of each camera were freed. As the last click sounded, the water was falling to the ground, and twice photographs had been taken of the young man, representing twelve phases of the movements through which his body went while lifting the pail and emptying it of water. Even the water itself was photographed as just leaving the pail, again as falling, and again as reaching the ground.

The young athlete was also photographed, pulling a rowing-machine, climbing a ladder, striking a ball, and other movements designed to bring his muscles into full play. The actions and motions of two cripples were successfully transferred to plate. Studies were made of a nude female model. Instead of a row of cameras exposed in succession, six cameras were concentrated upon the model's figure—one in front, one behind, and four others so as to give side views at different angles—and all were exposed simultaneously for a fraction of the second during which she was making the specified movement.

Mr. Muybridge's experiments are under the supervision of a committee of the university faculty, composed of Provost Pepper, Professor Harrison Allen, Dr. Leidy, Professor George F. Barker, Professor Zerk, Professor Hildekeper of the veterinary department, Professor Aikens of the academy of fine arts, and Dr. Dercum.

Photographs will be taken to show the consecutive phases of motion of selected men and women while performing muscular exercises and different mechanical operations, as carpentry and blacksmithing; the movements of persons suffering from palsy and diseases of the joints, showing exactly how the gait is affected, and analyzing accurately the abnormal action of the muscles; the movements of horses, dogs, and other animals at different rates of speed; the aerial locomotion of birds on the wing, and the methods of propulsion of marine mammals, aquatic birds and fish.
