TREATMENT OF UNICER .- A recent y printed article upon concer by Dr. Dunn of London, one of the highest English authorities, is especially interesting at this time, says a New York correspondent, in alluding to Gen. Grant's case. According to Dr. Dunn here were in Great Bitain 80,049 deaths from cancer during the ten cars ending in 1869. During the next ten years there were 111,301, and the rate of increase seems to be perfectly steady. Dr. Dunn canno xplain the increase of the disease, and nerely states the curious fact that civilized man seems to be more or less victim according to the degree of civ dization; savages never have cancer, and the poor civilized nations at a much less rate than the rich. Cancer can peither be caught nor given. It begins anew in each individual. concer appears in a family, the memers may be said to possess a liability to the disease, but they do not inher the disease. Dr. Dunn reviews the menty drugs which have been brought forward as cancer cures, and finds them all worthless. He looks to surgery for relief, but seems to be doubtful whether a permanent cure is possible.

A great mystery surrounds a murder ammitted in St. Louis recently. On the morning of the 14th, a trunk containing the headless trunk of a body was discovered at the Southern Hotel, with a note attached bearing the aords, "So perinh all traitors to the the European level and, in either case, great cau-e." The remains have been iden ified as those of an Englishman. C A thur Preller, of London, and the murderer is supposed to be Walter W. Lennox Maxwell. He left the hotel everal days ago, and has not been heard of since. These two men occupied the same room. No tenson for the crime is known

A car load of fine bred cows from Missouri was received by Linn county Ingersoll on Marriage.

I believe in the institution of marriage and I have no sort of avmpathy with those persons who endeavor to ophose that institution. The fireside is the most sacred thing on earth, and the love of husband for wife is Godlike. I would rather live with the woman I live in a world of sorrow than be forever in a heaven of men alone. We may forget all other creeds with impunity, if as believe in the republication of the freedy, the democracy of the home and the absolute equality of the husband and wife. I doubt if men realize what it is to have won the love of a good woman. He who has done that has made a specous in life, even though he dies in the gutter. No man has a right to regard himself as boss of the household, partnership. No man has the right to assassinate the joy of a day in his own house, and no woman should be compelled to live with a cross man. Treat her 'ike a tender flower and she 94; James Wat-on, 93; James Donegan, will fill your life with the perfume of love. And, to begin with, court your wife. Don't think your wife's love is not of sufficient value to take care of tille-Williams, 85; Percy McKenize, 80; after you have secured it. The family circle should be a man's heaven. and if you are blessed with children, burn up your rods and let your leve and kindness rule. The man who has not sufficient brains to be able to govm:le, 85; Co umbes Knowles, 83; Henry ern his children without appealing to

their fear, is unworthy of being a father. You may call me infidel, atheist or what you please, but I intend so to live that when I die my children can point to my grave and say, 'He who Reames, Lena Rico, Lia Clemmens, Lena lies there never gave us a moment's Rowden, Edwin Reynolds, Vavel Taylor, pain. - Have your photograph taken in the act of beating your sweet little child. It will be a comfort to you, Henry Klippel, Dora Roowles, Robert perhaps, after the child is dead to go out in the spring time to its little gray and there look upon the photograph so taken. Is NEW ORLEANS IN DANGERS-The mouth of the Mississippi has cost millions from first to last. It is a g sedy mouth and will wallow greenbacks about as fast as they can be printed. With all the money spent on this great stream it appears that there is imminent danger of the deflection of the river into Bayon Atchatalava, by which it would reach the Gulf very much sconer than at present. This would ruin New Oreans, leaving her high and dry as an inland town, and some of the richest territory of Louisiana would also be permanently submerged.

Secretary Manning's manner of book keeping has produced at least one good result; it has forced the free traders openly to avow their real purpose-to crippie and destroy American manufacturing industries, or to force American wages and the condition of American workmen down to to allow British, French and German manufactures to fix and regulate the price of every manufactured article used or consumed by the people of the United States.

It is estimated that if Cleveland were to average one hundred appointments every day, for any days every week, it would take him three years and a half to fill the offices. At this rate we don't expect a post office for at least four years.
