How THEY DID IT—It was rumored around town last Sunday about noon that a party had just arrived from Medford, Oregon, bent on the marriage of two of their number, Mr. W. N. Hamilton and Miss Julia Dwyer. The rest of the party consisted of the mother and brother of the gentleman above named. It seems that the young couple had met with formidable opposition at the hands of the bride's parents, and that lady being "under age" a license could not be obtained. This, of course, put things in a pretty bad way, and but for the friendly ocean some 120 miles from their homes—three miles off the shores of which is the imaginary line between our country and the high seas—we will not attempt to guess what the result would have been; possibly one or more of them had died with broken heart, or, taking a more modern view of the matter one or other had been engrossed in some new pursuit and forgotten the old love long ere the now much wished for 18th birthday had arrived. At all events, they purposed to get married no matter what was in the way. Arriving here they were informed the only show was to go to sea, nothing loath the party secured the services of his Honor the Judge and a suitable boat with sufficient crew, and by a little after 1 o'clock put boldly out to sea. By virtue of being appointed captain of the boat, Hon. J. E. Murphy performed the ceremony, after which the company returned to town and shortly afterward proceeded to Smith River, where we learn it was their intention to remain a short time, a view of resting up a little before going to their home in Jacksonville. We look with all kindness upon the affair and trust that though the marriage was a little out of the usual line of things it will result no less a happy one, and that the young husband will lose no opportunity in making peace with his mother-in-law.—Crescent City "Record."
