

Preserving Fruits.

Iowa Homestead: Now that small fruits are becoming more abundant, preserving will be the order of the day. Housekeepers who dislike the tedious, old time fashion of clarifying sugar and boiling the fruit will appreciate the following two recipes, no fire being needed in their preparation. The first is for "tutti frutti," and has been repeatedly tested with unvarying success. The second is from an English correspondent: 1. Put one quart of white preserving brandy or arrac de Batavia into a two gallon stone jar that has a tightly fitting top. Then for every pound of fruit in prime condition and perfectly dry, clip which you put in the brandy or arrac, use three quarters of a pound of granulated sugar; stir every day so that the sugar will be dissolved, using a clean wooden spoon kept for the purpose. Every sort of fruit can be used, beginning with strawberries and ending with plums. Be sure and have at least one pound of black cherries, as they make the color of the preserve very rich. Strawberries, black berries, raspberries, apricots, cherries, (sweet and sour), peaches, plums, all used, and if you like, currants and grapes. Plums and grapes should be peeled and seeded, apricots and peaches peeled and cut in quarters or eighths or dice; cherries also must be seeded. The jar must be kept in a cool dry place, and the daily stirring must never be forgotten, for that is the secret of success. You may use as much of one sort of fruit as you like, and it may be put in from day to day as you happen to have it. Half the quantity of spirits may be used. The preserve will be ready for use within a week after the last fruit is put in, and will keep for a number of months. We have found it good eight months after making. 2. Take some pure white vinegar and mix with it granulated sugar until a syrup is formed quite free from acidity. Pour this syrup into earthen jars, and put in it good, perfectly ripe fruit gathered in dry weather. Cover the jars tight and put them in a dry place. The contents will keep for six or eight months and the flavor of the fruit will be excellent.

A Circular Letter from the State Board of Immigration.

For the purpose of fitting out a specimen car, which, through the courtesy of railway officials controlling roads centering here, and radiating from Chicago, Des Moines, Detroit, and other places is to be sent this summer on an advertising mission through the agricultural districts of several of the States east of the Rockies, and to provide material for such a re-arrangement of the exhibit in the rooms of the board here, as will make it attractive and informing to visitors; the Commissioners most respectfully ask your valuable assistance in the collection of sample products. It is desirable to have specimens of all the cereals, grasses, minerals, woods, soils, winter keeping fruits and vegetables, (green dried or preserved,) from each county and locality in the State. It is also desirable, that specimens should be in the main, representative of a fair average of the crop, or growth. Specimens sent, should bear the name and county address of the donor, and be carefully packed for the shipment to this city, where they will be arranged for the car. Added to the collection of a county, there should be a carefully written description, for distribution from the car. Through the courtesy of the Oregon & California, and the Oregon Railway and Navigation companies' managers, all specimen products directed to the president or the secretary of the Oregon State Board of Immigration, will be carried free of charge. Specimens may be forwarded from this date to the close of the harvest season. As this is a very important matter, and in the guaranteed good results of which, every citizen of the State has a vital interest, we hope you will give it your prompt service and attention. Yours respectfully,

CHAS. H. DODD, W. N. LADUE, H. W. CORBETT, H. B. MILLER, L. B. COX, Commissioners. C. B. CARLISLE, Secretary.

C. Arthur Preller, who was supposed to have been murdered by Maxwell in a hotel at St. Louis, carried a heavy life insurance in an English company, which his relatives are anxious to collect. The company, however, refuse to settle the claim without more evidence, and advance the theory that the body found in the trunk was that of a medical college "subject," placed there by Maxwell and Preller, and that the latter is still alive.

A half dozen small boys have pocket pistols, and go out shooting every day. Sometime there will be a sad accident to record and somebody's boy will be killed or crippled for life, and we would suggest that the proper authorities look after these young shootists before this matter goes any further, as in most instances their parents don't know any thing about it.

When Baby was sick, we gave her CASTORIA. When she was a Child, she cried for CASTORIA. When she became Miss, she clung to CASTORIA. When she had Children, she gave them CASTORIA.
