OREGON SENTINEL.

JACKSONVILLE

SATURDAY, SEPTEMBER 12, 1885.

SUNDAY SCHOOL.—Attendants of the M. E. Sunday School will take notice that the school re-opens again to morrow afternoon at two o'clock P. M. and will be held regularly after this.

A PRECEDENT.—In Multnomah county the Board of Equalization have raised the assessment upon the O. & C railroad track in that county from $3 500 to $4,000 per mile. Here in Jackson county they are only assessed $2,500 per mile. Our Board of Equalization meets early next month.

NEXT WEEK.—All persons wishing their pianos tuned should reserve their orders for Prof. D. Van Horn of Portland who will be here several days next week. He is well known here and having always given satisfaction he commands the trade of this section. Orders can be left with Prof. E. T. Kugler or at this office.

A FISH STORY.—While fishing with a spinner in Rogue River one day this week J W Ingram of Willow Springs caught what he calls a salmon trout weighing 35½ pounds and measuring three feet and eight inches in length. It took Wes. over two hours to land his fish so we are informed by Brad Dean, who vouches for the whole story.

NEW INDUSTRY.—Marshal Curtis has conceived a new idea and proposes starting a cracker bakery in Jacksonville as soon as the necessary arrangements can be made. As flour is always cheaper here than everywhere else, and understanding the business thoroughly, he says he has no fears about competing with other factories on the coast.

THE CALIFORNIA & OREGON.—Superintendent Fillmore, of the Southern Pacific company, has stated that work would be commenced immediately on the extension of the California & Oregon road. From 800 to 1000 men will be placed on the line north of Redding, and kept there until spring, occupied chiefly in tunneling, excavating and otherwise preparing for tunneling, which will commence as soon as the rails are over. The superintendent stated that they would not likely reach the state line inside of a year.

NO SHOW.—Zamloch, the "Great Austrian Juggler," advertised by posters that he would give three exhibitions in Jacksonville ending to-night, but no one appearing on the first night he gave it up as a bad job and has since started on his return to California. By those who have seen his performances he is said to be over average in his line but he surely has something to learn yet in the way of advertising in local papers before he makes a success in drawing paying houses. He is advertised to appear at Yreka next.

RELIGIOUS ITEMS.—Elder H C. Fleming will preach at Eagle Point next Sunday....Elder M. Peterson will hold services with Josephine county congregations next Sunday.... Rev. A. C. Hewlett will hold services at Lone Oak school house next Sunday at 11 o'clock A. M....Elder G. M. Whitney will preach at the Sam's valley school house, near McClenion's on Sunday next....There will be no services at either the Methodist, Presbyterian or Catholic churches in this place on Sunday....The Dunkards will hold a basket meeting in the vicinity of Hoxie's mill on Williams creek, on the third Sunday in this month....Rev. Wm. Pullen will preach at the upper school house on Williams creek, Josephine county, on fourth Sunday in this month....The Rogue River Baptist Association will hold its annual meeting on Williams creek, with Mount Salem church, commencing next Friday....There will be a Sunday school picnic on Rogue river, one mile below Bybee's ferry, on the 19th instant, and a basket meeting on the following Sunday. ....Rev. F. Boone and Elder G. M. Whitney occupied the pulpits at the Presbyterian and M E. churches, respectively, last Sunday. They each delivered excellent sermons, the former preaching in German.

JURY LIST.—The following is a list of grand jurors drawn by the county court at their last term for the ensuing year: Jacob Grob, G. S. Walton, Rufus Cox, J. R Tozer, C. C Low, Wm. Chambers, B Obenchain, B. R. Willits, J. F. Davis, J. O. C. Wimer, J. R. Morrison, Wm. Mayfield, James McDougal, Fred Otten, I. P. Stimson, Wm. Morris, Jacob Stone, D. B. Marden, I. A. Webb, W. L. An exchange says some go to church to weep, while others go to sleep. Some go their wives to please; their conscience others go to ease. Some go to hear the preacher; others the solo screecher. Boys go to reconnoitre; girls go because they oughter. Many go for sage reflection, precious few to help collection.

Pennies, says the Ashland Tidings, are in demand in Ashland. The railroad ticket agent uses them to make exact change with, and the new school books introduced this year are sold at 18 cts., and other off change prices, making one cent pieces a necessity. A supply has been ordered from the city, it is reported.

An Indian having too much "booze" aboard spent a night in the cooler this week. He had been causing a disturbance at the residence of Squire Hoffman and when arrested a full flask of whisky was taken from him. Somebody had better 'look a leedle oud" or they may be called before Judge Deady for an interview.

C. K. Klum, the Wagner creek merchant, continues to invest in real estate at Talent, having bought of A. P. Talent this week the fine large dwelling house just built by the latter. The price paid for the house and six acres of land was $2,500. Mr. Talent will doubtless begin to improve some of his other property there, as he is too enterprising to rest easy unless at work at something of that kind.—Tidings.

A good paying ledge, twenty inches wide, was struck in the Empire mine, near Honolulu, a few days ago, by sinking four feet in the lower tunnel. A continuous flow of water prevents work from progressing very rapidly, but the find will be thoroughly prospected. The rock in character is similar to that taken from the old shaft several years ago and which yielded thirty dollars to the ton. This last was a final test of the value of the mine and we are pleased to note the result.—"Yreka Union."

On Monday last Wm. Hoffman Esq. celebrated the 84th anniversary of his birth. A large number of his children and grand children were assembled to extend their congratulations and greetings, and in the evening the Silver Cornet Band tendered him a serenade. After the Band had discoursed some of its choicest music, Mr. Hoffman invited them in where a magnificent lunch was in waiting, to which all did ample justice. At a late hour the guests departed, and the SENTINEL joins them in wishing the venerable gentleman many happy returns of the day and that the evening of his well spent life may be brightened with the halo that radiates from his life-time of good words and works.

The Redding "Free Press" editor, having interviewed Mr. Jas. Scobie, the boss of the railroad masonry work above Delta, learned that the work of construction will be pushed right ahead. Within ten weeks the road will reach Slate creek, as the distance is only a mile and a half with one short tunnel to penetrate. This distance will cut off five miles of mountain road, and its completion is quite necessary. Mr. Scobie is making preparations for culvert building, and at the next twenty miles [illegible] most difficult to [illegible] of any part of the culvert work yet built. He purchased eight horses yesterday from Jesse Sutton of Fall City, and is desirous of buying many more. His headquarters for the present will be at Delta, and as soon as he has his camp in order, he will send for Mrs. Scobie, who will be remembered by the ladies of Redding, as a most amiable woman. The Colonel looks better than we ever saw him, and he says himself that his visit to Scotland, with nothing to do but enjoy himself, has been beneficial to his health.

Ammoniated Bread.

Ammoniated baking powders—that is baking powders in which carbonate of ammonia is used as an ingredient, and which exhale an odor of ammonia when heated—are classed by many eminent physicians and sanitarians as superior to all others. Prof Hassell, of London, who is recognized as highest authority on the subject of food hygiene, commends in the strongest terms the use of carbonate of ammonia as a leavening agent, stating its greatest advantage to be in its perfect volatility, which permits it to be, by the heat of baking, entirely thrown into leavening gas whereby the bread is raised. The experiment with heat would seem to indicate the superior, not the inferior, value of such baking powder. The little heat that is imparted to it when held over a gas jet, lamp or stove, suffices to resolve the carbonate of ammonia into leavening gas and throw it off. The first heat of baking, therefore, will effectually develop all the gas, thoroughly leaven the loaf and dissipate the gas-producing ingredients of a powder of this kind; and this is the highest test of a perfect baking powder. Where other alkalies alone are used they are not infrequently retained unresolved, through the whole process of baking, and remain an unwholesome ingredient in the finished bread. The carbonate of ammonia cannot be used as a substitute for cream of tartar.—N. Y. Weekly "Tribune."

Rejoicings Down South.

LEXINGTON, Ky.—Mr. John T. Bruce, of the United States Revenue Collector's Office, informed an editor of the "Daily Press," of this city, that for seven years he suffered terribly from rheumatism in this ankle, which most of the time was swollen to two or three times its natural size, and was so painful that he could not put his foot on the ground. After trying everything he could think of without obtaining relief, he at ten o'clock one morning applied St. Jacobs Oil, and shortly afterwards made two further applications. At three o'clock that afternoon the pain was gone; the swelling also disappeared, and the cure was permanent as it was quick.

DEATH OF JAMES J. COMSTOCK.—Yesterday morning James J. Comstock of Lane county died at the St. Charles hotel, Eugene, after a lingering illness, aged 52 years. He had been in failing health for some time. Few men were better known throughout the southern part of the state. He was a man of great enery and good business ability, and made friends wherever he went. He came to Oregon about 1869 and was for some years superintendent of the old Oregon & California stage company. Mr. Comstock was united to Miss Bodley, a very estimable young lady of this city, some years ago, who still survives him The funeral will take places to day at 3 o'clock P M., at Eugene City, and be conducted with Masonic rites.—"Oregonian," Sept. 9.

THAT MILL.—The Portland papers say that L. D. Brown is having a mill built in that city with a capacity of crushing about six tons of rock per day, which he proposes sending here as soon as finished. The mill is being built on a new principle, combining all the latest improvements in that line of machinery, and can be expected here in about six weeks. Its arrival here will be welcomed by many who are interested in quartz and the probabilities are that a number of good paying ledges will then be worked to their full capacity.

PRIVATE SALE.—Mrs. A. Bilger, intending to move from Jacksonville before long, will offer at private sale her entire household and kitchen furniture. Among the articles to be sold is a first-class Chickering piano, a fine marble top bed room set, besides many other articles too numerous to mention. Terms, cash and prices to suit the times.

Pioneer Re-union.

The seventh annual re-union of the Southern Oregon Pioneers took place at Ashland Thursday of this week. A slight rainfall the day before left the roads in excellent condition, and the drifting clouds of the early morning gave way to glorious sunshine by ten o'clock, so that the day was particularly inviting to an out-door assembly. The grounds south of Ashland were fitted up in splendid style, and in addition there was a large skating rink, a bowling alley, a revolving swing and a miniature lake with a boat, and an ice cream saloon. Ashland creek flows through the grounds and the trees that line the opposite bank form a natural avenue for promenade, making altogether, the most attractive pic nic grounds in the State. In the early morning the old pioneers and their friends began to arrive. Comfortable seats had been specially prepared for them around the speaker's stand, and as they gathered in their places with slow and unsteady steps, some of them leaning wearily on the arms of their friends, many eyes filled with tears at the thought that these noble men and women, who had endured the perils and privations of the trip across the plains and braved the dangers of frontier life to give us our "goodly heritage" were slowly but surely passing away, and soon the memory of their brave deeds would only live in history, and be handed down in traditions to their children. At ten o'clock president B. F. Myer called the assemblege to order and the exercises were begun by music by the Ashland band. An impressive prayer was offered by Rev. M. G. Royal, "a pioneer by the accident of birth." The secretary S. J. Day then read memorial resolutions on the death of the six members, deceased since the last re-union, which were unanimously adopted by the society. The orator, Gen. E. L. Applegate, a pioneer of 1844 was then introduced. He delivered the oration by special request that he had delivered at the first meeting of the society seven years before. It has already appeared in print, and the historical data that it contains passed the crucial test of public criticism and been endorsed by the pioneers of the State, and it is destined to take a permanent place in literature, and will be read with increased interest long after the one who has incorporated into it the thrilling incidents of his own personal experience, and twined about them the garlands of his brilliant intellectual genius shall have been numbered with those that were. The dinner, prepared by a special committee of Ashland ladies was a triumph of culinary art and with its rare display of fruits and flowers was a fit banquet for Southern Oregon's honored pioneers for whom it had been specially prepared. The afternoon was spent in pleasant social intercourse, and the pleasant day closed with no accident or incident to mar the pleasure of the auspicious occasion.

Once More to the Front.

THIS TIME TO STAY!—A CELEBRITY HAS ARRIVED!

John L. Burns, a commercial traveler of great notoriety, arrived Wednesday evening. This young gentleman has traveled very extensively through the Pacific States and Territories. He visits Crescent City as the agent of E. Martin & Co., importers and wholesale liquor merchants, 408 front street, San Francisco. We congratulate John L. upon his good luck in obtaining a position with the first house in the land E. Martin & Co. This firm bears the name of being the most reliable house on the coast, as well as the best managed and wealthiest in its line. It is one of the oldest—established in San Francisco, and we doubt not that the favorite traveler Col. John L. Burns will do ample justice to its well earned reputation. He is now conceded the best traveler on the coast—he is surely the best-known—and his many friends wish all possible success in life. It has now been some two years since the Col. has paid us a visit, and we are really glad to see him in his perfect fine condition of health and position, both of which he richly deserves. He is energetic, a hard worker, and when engaged in any particular calling prosecutes it with a "vim." The Col. goes from here to Waldo, Happy Camp, Althouse, Kerbyville, Jacksonville, Roseburg, Drain's Station; then to Umpqua river, viz: Scottsburg and Gardiner; then to the Coquille river, Coos Bay, Yaquina Bay.—Look out for him! By the way—one word more. It is our pleasure to note that John L. has "joined" the Blue Ribbons! Where it usually took nearly all on hand to supply his own wants, now he proposes to supply only the wants of others, and go in on soda straight himself. Before leaving this section he will undoubtedly have established a sound trade for the firm he now represents, viz: E. Martin and Co.—"Del Norte Record."

Excursion rates to the Oregon State Fair, from Medford to the Fair Grounds and return has been placed at $13.40. Ticket good from September 21st to September 26th, inclusive.

AYER'S SARSAPARILLA has demonstrated its power of cure for all diseases of the blood.

The Harpooner's Story.

New Bedford, June 7, 1883.

DR. J. C. AYER & CO.—Twenty years ago I was a harpooner in the North Pacific, when five others of the crew and myself were laid up with scurvy. Our bodies were blotched, gums swollen and bleeding, teeth loose, purple blotches all over us, and our breath seemed rotten. Take it by and large we were pretty badly off. All our lime-juice was accidentally destroyed, but the captain had a couple dozen bottles of AYER'S SARSAPARILLA and gave us that. We recovered on it quicker than I have ever seen men brought about by any other treatment for Scurvy, and I've seen a good deal of it. Seeing no mention in your Almanac of your Sarsaparilla being good for scurvy, I thought you ought to know of this, and so send you the facts.

Respectfully yours, RALPH Y. WINGATE.

The Trooper's Experience.

Mossen, Bamtoland (S. Africa,) March 7, 1883.

DR. J. C. AYER & CO.—Gentlemen: I have much pleasure to testify to the great value of your Sarsaparilla. We have been stationed here for over two years, during which time we had to live in tents. Being under canvas for such a time brought on what is called in this country "veldt-sores." I had those sores for some time. I was advised to take your Sarsaparilla, two bottle of which made my sores disappear rapidly, and I am now quite well.

Yours truly, T. K. BURNS,
Trooper, Cape Mounted Riflemen.

Ayer's Sarsaparilla

Is the only thoroughly effective Blood purifier, the only medicine that eradicates the poisons of Scrofula, Mercury, and Contagious Disease from the system.

GOLD & SILVER ORES WORKED.

85 Per Cent, of Fire Assay.

AT

MORSE & JACOB'S MILL

25 Miles from Ashland.

HAVING LEASED the above named mill and at great expense put in my

SUCCESSFUL PROCESS

FOR WORKING

Rebellious Ores and Sulphurets

I will be prepared on and after May 20th, 1885, to work any ore in Southern Oregon, 85 per cent. of fire assay.

Parties having Gold and Silver Mines developed, so as to show in sight, the value of my process, can have work put on the same with my process, and the pay for such works taken from the mine, PROVIDING the parties will ship five or more tons of the average ore from such mine to my works in Henley, and have it worked by my process, which I agree to work 85 per cent. or make no charge for working same.

Talk is Cheap, but Results Tell the Story.
