

# OREGON SENTINEL.

SATURDAY, SEPTEMBER 19, 1885

**PRIVATE SALE.**—Mrs. A. Bilger, in tendency to move from Jacksonville to the long, will offer at private sale her entire household and kitchen furniture. Among the articles to be sold is a first-class Chickering piano, a fine marble top bed room set, besides many other articles too numerous to mention. Terms, cash and prices to suit the times.

**CHANGE IN SCHEDULE.**—Since the new Democratic administration has been set to cut the Willamette route down to two trips per week, Pat. McMahon, the contractor, has been forced to change the following schedule: Leave Jacksonville on Mondays at two o'clock a. m. and return Thursday evening by six o'clock. Leave again on Friday morning and return Saturday night. Any Democratic reformer cannot help noticing that this change will make a big saving to the government.

**GRAIN CIRCULAR.**—The rate upon barley in car loads from all points south of and including Yoncalla, to Portland is hereby reduced to twenty-five cents per hundred pounds, and upon wheat flour and mill stuffs, in car loads, from all points south of and including Yoncalla, to Portland, to thirty cents per hundred pounds, to remain in force until further notice. These rates subject to change. Notice of change will be given fifteen days prior to the time of its taking effect.  
E. P. ROGERS, G. F. & P. A.

**PROFITS OF RAISING BERRIES.**—An industrious gardener of Multnomah county, who owns a few acres of land on the Astoria road, one and one-half miles from this city, while here yesterday gave some facts on the subject of raising berries. He stated he had set out a year ago last spring two acres of strawberry plants, and the crop this year was 12,000 pounds and that he sold them for \$700; that on three and one-half acres planted with straw berries, raspberries and blackberries 25,000 pounds had been raised the present year. The profits, after commission for selling and all other expenses had been paid, amounted to \$400 per acre.—"Oregonian."

Peterson informs us: "There will be a general meeting of the Disciples of Southern Oregon at Hoxie's mill on Williams creek next Sunday. Rev. Wm. Pullen and others will be in attendance."

**CHANGE IN SCHOOL BOOKS.**—Supt. McElroy has sent the following circular letter to all County Superintendents in the State notifying them of changes made: I am directed by the State Board of Education to call your attention to the recent vote of the county superintendents for text-books to be used in the public schools of Oregon for the term of four years beginning October 1, 1885. As will be seen by the printed exhibit herewith enclosed (a copy of which was sent you in January), there has been little change in our present series. Clark's Normal Grammar, Parley's Universal History and Brooks' Higher Arithmetic have been excluded from the series. The following books have been selected for use during the ensuing four years, in addition to those now in use, viz: Under Orthography, Swinton's Model Word Books, Swinton's New Word Analysis, and Pronunciation Hand-book—Sole E. Campbell. Advanced History: Barns' Universal History, Physiology: Steele's Fourteen Weeks—Hygiene edition. Vocal Music: Loomis' Progressive Series; also Westlake's "How to Write Letters." You will please give official notice (if you have not already done so) to the school clerks of your county that these changes and additions go into effect October 1 prox.

E. P. McElroy, Supt. Public Instruction.

The Oregon State Fair begins at Salem on Monday next and will continue one week. The managers promise to be a better fair this year than ever held in the State before and a large attendance is expected from all portions of the State. The managers will accept our thanks for a complimentary ticket.

James DeLeon, the man who was killed near Walla Walla by Fred E. Link, Thursday night, was English by birth and was aged about 55 years. The Grants Pass papers, as well as some of the residents of that county, are still fighting over the county seat question. A motion to reconsider would be in order, and as Jackson county is willing to take her territory back and thereby settle the trouble the taxpayers of that county had better start a move of that kind.

The assessment of property in Ashland school district, completed last week, shows taxable property to the amount of \$364,988, and there is some which the assessor was unable to fix his grasping hooks upon within the ten day period allowed him by the school law. The taxpayers in the district number 298, making an average of \$1,224 to each.—"Tidegauge."

We learn, says the Lakeview "Examiner," of quite a large land sale which has been made in Silver Lake Valley recently, consisting of over 77,700 acres of swamp and overflowed lands belonging to Robin A. West et al and sold to Jas. M. Allen of San Francisco. This is one of the finest bodies of land in Oregon, situated as it is. The amount paid was \$83,965.

The immediate delivery system has gone into effect. A special ten cent stamp will insure the immediate delivery of a letter in any town of 4,000 inhabitants or over. This stamp is a black ink stamp and 13-16 by 17-16 of an inch in size. On the left in an arched panel containing the words "United States" is the figure of a messenger boy when running.

John G. Thompson, formerly Sergeant at Arms of the House of Representatives, reached Portland Saturday to enter upon his duties as special agent of the Interior department. Mr. Thompson has changed very much in the last few years, and is not the robust man that he once was. He has accepted the office more for the sake of living in the Pacific Northwest than for any financial benefit.

The old Bowden ledge on Jackson creek has been re-located by Marshall Curtis and others, and a tunnel will be run there before long. Several years ago when the owners had a mill there they worked rock paying from \$18 to \$30 per ton, but with the processes then in use they could not make it pay, not being able to save the gold. Experts now claim that \$18 rock will pay a good dividend, and if such is the case the new owners think they can show plenty of it in a night.

Letters are received continually of late for more stable room at race track, and the directors of the society have been obliged to order the erection of more stables and stalls to accommodate the large number of horses coming to take part in the races during Fair week. It is expected that there will be twice as many as ever before brought here for the races, giving promise of the most interesting and exciting time yet witnessed in Siskiyou county. The track is in splendid condition, and will be improved constantly under the supervision of the track committee until week of races, so that it will be in as fine condition for racing fast time, as any track on the coast.—"Journal."

The manager of the "Battle of Waterloo" panorama, at San Francisco, has more "cheek" than some people have here. He sent a \$475 notice, and said if we would insert it for a few weeks, he would send us a complimentary copy.—"Examiner."

Brother Bach, who may be new in the newspaper business, if you can't live on having subscribers promise you to bring that lot of wood next week, while at the same time you have the privilege of occupying a front seat at the show on a complimentary ticket, you and the roller boy ought both to be happy. Wait would you do with \$475 anyhow if the manager of the "Battle of Waterloo" panorama would offer to pay for the notice?

The Baker City "Sage Brush" theory of the beef situation and the prospects for higher prices. Many cattle men are selling off stock at present that it would pay well to keep for another year. Such a wholesale disposal of cattle as have been made through our Eastern Oregon this season, will result in higher prices next year. Parties from Montana have been buying and driving to that section and it would not be wise to treat that same cattle will be sold in the San Francisco and Portland markets next spring at double what they now bring. If the shipments continue for another month as they have in the past the ranges will be used only by horses and sheep and there will not be enough beef to supply the home market.

An interesting incident took place at the White House Wednesday, when the late Senator was presented by a Republican Senator urging before a Democratic President the appointment of a Democrat to office. A Noltner, of Portland, is a member of the national Democratic committee of Oregon. Noltner is an applicant for the position of postmaster of Portland. There being no Democratic Senator or Representative from Oregon, Noltner was forced to ask Senator Delph to introduce him and endorse him to the President, which Delph did in a handsome manner. Delph said his regarded Noltner as the choice of the Democrats of Portland for the postmastership, and that outside of the fact that he was a Democrat, he was a pretty good fellow. The President in reply said that all other things being equal, the fact that Noltner was a Democrat would not injure him with the administration.

**KLAMATH COUNTY.**—The following are the Circuit Court proceedings at Ashland for the week past: State vs. T. G. Gandy, indictment for retailing spirituous liquors without license. Defendants found guilty and sentenced to pay a fine of \$50 and costs. D. P. Spook vs. J. H. Cowling, suit for injunction. Mandate of the Supreme Court, affirming judgment of the court below, entered. State vs. Alfred Oran. Grand jury returned "not a true bill." C. C. Dixon vs. Joe Hendrix, appeal from justice's court. Judgment affirmed. State vs. Clinton J. Brown, indictment for murder in the first degree. On trial.

John E. Miller vs. James Tobin, suit in equity. September 29th set as the time for arguing the case at Chambers in Jacksonville.

**RAILROAD FARE.**—To accommodate those who wish to attend the hamper Fair soon to be held, the railroad company will issue excursion tickets for the round trip. For the State Fair to commence at Salem next Monday the rates will be as follows, and for the Mechanics' Fair at Portland to commence October 8th, the rates will be in the same proportion. From Ashland to Salem \$1.50; from Medford, \$1.35; from Central Point, \$1.15; from Gold Hill, \$1.05; from Woodville, \$1.25; from Grants Pass, \$1.15; from Junction City, \$1.10; from Gravel Pit, \$1.05; from Alta, \$1.05; from Almaden, \$1.05.

**PEACHES AND MELONS.**—The fame of Rogue river fruit and melons is growing. The last delivery shipped here is a Cujaso melon, one of which found its way to the "Oregonian" office from H. E. Buttin's commission house. It is something like a cantaloupe, and something like a musk melon, and much finer than either. On the outside it looks like a half wilted squash. It is juicy, compact and not mealy, the rind is very thin, and the flavor equals that of the banana. It is the perfection of breakfast fruit.—"Oregonian."

After all the fuss over the election of officers of the Northern Pacific Railway Company, the old board was sustained throughout, and chosen for another year. The Cascade division was virtually killed by the adoption of a resolution to the effect that no new roads should be constructed unless they could be done out of the available assets of the Company. The lease of the O. R. & N. Company was ratified, which removes a source of contention from further discussion. On the whole, Portland has no reason to be dissatisfied with the result.

**A Card.**

I have just received a car load of Morrison plows which are offered for sale cheaper than ever before sold in Jackson or Josephine county. Parties claiming that they received a car load of Morrison plows as stated in yesterday's "Times" is false in every particular as I am the regularly appointed and duly authorized agent for that company for Jackson and Josephine counties. K. KRELL.

All who are afflicted in that way, know the importance of the remedy pleasant to the palate, harmless in its nature, and truly beneficial in its action. ## AFTER DINNER.

Persons who suffer from indigestion can arrest the progress of that painful malady by the use of an after-dinner pill, so composed that it will give tone to the stomach, prevent heartburn, raise the liver to healthy action, invigorate the kidneys, and thus, through the activity of these organs, promote the natural movement of the stomach and bowels. AYER'S PILLS are so compounded that their action, though mild, effectually procures the above results. They also, in curing Constipation, remove the cause of Bilelessness, Liver Complaint, Kidney Disease, Rheumatism, and many other serious ailments.

## AYER'S PILLS

contain no mineral nor poisonous substance, and do not grip unless the bowels are irritated, and even then their influence is healthy. To remove their effect in constipated or chronic cases, they need only be taken in diminishing doses, of increasing doses. For women, and invalids or travelers in sparsely settled countries where physicians are not at hand, they are of inestimable value. There is hardly a sickness they will not alleviate, and in most cases cure, if taken promptly. To
