Some rain yesterday. Five prisoners are now being fed in the county jail at public expense.

"Landy" Meyer and D. C. Herrin of Ashland paid us a visit this week. Bring your wheat to Karowski's mill where the highest cash price is paid.

Mr. McCulloch of Medford was brought to the county hospital this week.

Several wool buyers are in the valley and prices are going up in consequence.

J. W. Johnson, the Ashland painter, paid the county seat a visit this week.

G. Karowski is having some substantial improvements made to his residence.

Miss Barbara Bentz will start for San Francisco to-morrow to remain for a while.

The Circuit Court for Josephine county commences on the first Monday of next month.

Lots of new goods received this week at the Golden Rule Bazaar, Jacksonville.

Genl. Thos. G. Reames has gone to Eastern Oregon on official business for the A. F. and A. M.

The contract for building the bridge across Griffin creek was awarded to R. S. Dunlap for \$390.

Frank Vining has returned from New Tacoma and will probably spend the winter at Ashland.

Miles S. Wakeman of Pleasant creek is with us again serving his country as a jurymen.

A new barn now ornaments John Herberger's premises in the southern portion of town.

Our town presented a lively appearance this week numerous visitors being here attending court.

Marshal Curtis has returned to Josephine county leaving O. Keegan as deputy during his absence.

The Board of Equalization was in session this week. Very few changes were made in the assessment.

9 1/2 jelly glasses with cover, Masons and Lightning fruit jars 1/2 gallon and quarts in lots to suit at Numan's.

Thos. J. Kenney started for Portland yesterday and will take in the Mechanic's Fair before returning.

Strawberries can still be found in the Jacksonville market, Col. Maury having brought in a supply this week.

Johnny Love is reported seriously ill at Eugene City and George M. Love went there this week to visit him.

Arthur Saltmarsh and S. Reynolds of Linn county have been here on a visit to friends and relatives at Sterling.

The marriage of John F. Fink of Portland and Miss Dell Cardwell is announced to take place here on Tuesday next.

Charley Smith, son of John W. Smith of Manzanita precinct, died a few days ago of diphtheria. He was 19 years of age.

Those attending Court this week will do well by calling on Pivonia if they have horses to put up. He makes reasonable charges.

W. N. Moore, Postmaster at Roseburg, is expected here in a few days. The attractions are great for Billy in this end of the State.

K. Kubli has taken a contract for furnishing 300 feet of hydraulic pipe for the mines owned by J. G. Birdsey & Co. at Foot's creek.

Wm. Messer, John Carter, Ed. Helms, George Neuber, Pryor Easton, Jess Simpson and others from here are attending the Yreka Fair.

Frank Ennis has recovered sufficiently to appear on the streets once more. He has had a tough siege but appears to be on top at present.

A. H. Margly & Co. have on hand 104 stoves, 79 walking plows, 15 sickle and gang plows, 28 cultivators, 24 harrows, 13 wagons, and the largest stock of hardware and tinware in Southern Oregon.

J. C. McCulloch has been authorized by the County Court to go to Circumbar and bring in John Latschaw, a county patient, who has been in that section some time past in the hope of benefiting his health.

Peter Amos of Gold Hill was in town last Thursday finishing up the requirements necessary in securing a liquor license under the Keady law. He is the first one in the county that has followed the law entire.

In giving the amount of money paid the railroad company for freight shipped to Jacksonville during the month of September we made a typographical error in our item last week. The correct amount is \$1,961.35.

Candidates for the various county offices are already making their wishes known to their friends and a lively struggle for the leaves and fishes can be anticipated among the members of the dominant party in Jackson county.

It was reported last evening that Genl. John E. Ross had sold his farm to Dr. D'Bar for \$30,000 but we cannot vouch for the story. This is one of the best farms in the county and would well be worth the amount mentioned.

C. D. Morgan is in town again as a witness in the Mrs. McDaniel murder case. He was subpoenaed from Pine creek where the newly discovered mines are located and his visits cost the county \$160 each trip. Doug says he enjoys the trips.

A board of Equalization is not always a financial success as at the last meeting of the Jackson county board they had to reduce the assessment something like \$7,000 on account of mortgages being assessed more times than the law calls for.

As no appeal has yet been taken to the Supreme Court to test the validity of the Keady liquor law the decision of Judge Webster in the Gaunt case will stand until reversed by the higher body, and \$300 per year will be the figure for saloon keepers to pay for license.

The Enterprise Mining Co. of this place this week sent a quantity of rock from their mine to Huxley, Cal., where George H. Chick will give it a mill test. The owners of this mine still have faith in its paying qualities and the present mode of procedure will show what there is in the rock.

Much has been said about the Oregon Memorial Stone for the Washington Monument, but Mr. Wood finally left with it on Tuesday morning. He goes over the Northern Pacific, which railroad, as well as other lines, has extended courtesies in the way of free transportation.

By straightening the railroad between Delta and Roseburg the Central Pacific people claim they can shorten the route about twenty-one miles. One of the main changes is to run it over what is known as the Willow Springs gap which would bring the road much nearer Jacksonville than it now is.

Cholera failed to strike a single one of the 4,000 women employed in the national tobacco factory at Valencia, Spain, though the disease raged violently in that city, and the Medical World recalls that tobacco workers were also noticed to enjoy exemption from attack during an epidemic at Amsterdam.

Judge S. J. Day has had a set of books specially prepared for making abstracts of titles to property in Jackson county and expects that it will take him near two years before he can get them complete. Something like 7,000 deeds and over 3,000 mortgages are to be investigated in the work but when finished it will prove of immense value as a book of reference.

Mr. and Mrs. E. P. Branch will start within a short time for Jacksonville, Florida, where they will spend the winter and possibly conclude to make their future home, although they make possibly return to Ashland next spring. They have made many friends during their residence here, who would be greatly pleased to see them come back.—Tidings.

Joseph Lonsington was arrested this week on the charge of burglary in the old Hubbard house, said to have been committed in December last. On being arraigned before Justice Foudry he waived examination and is now in jail awaiting trial the grand jury having returned a true bill in his case. A search warrant was issued and the property found in his possession.

We acknowledge a very pleasant call this week from Hon. Elger Hermann, our Congressman elect. Mr. Hermann has visited nearly every portion of Oregon since his election with a view of posting himself on the requirements of each section and when Congress meets he will now be able to act intelligently on all matters pertaining to the interests of our State. We expect to hear from him again when the session begins.

An Eagle Point correspondent sent the following to an exchange last week: "A man by the name of Mueker, while riding along the road, led to the old water mill on Big Butte, when about two miles from here, was fired at by some one in ambush, last Saturday night week, about eight o'clock, the ball passing across his breast, just missing his chin. The person supposed to have fired the shot is being watched and may be brought to justice yet."

The directors of the Eastern Oregon agricultural society have offered a special purse of \$500 for a trot to take place next Saturday, provided some noted trotters from this section would enter. Yesterday Jay Beach left for Pendleton with Altamont, James Mieser with Kitty Lynch and L. B. Lindsay with Jane L. and Mount Vernon. The Umatilla county people will get to see three as pretty trotters as ever stepped upon an Oregon track.

We have heard of red beets, sugar beets, "dead beets,"—a number of which has struck us lately, claiming they hadn't eat anything for from two to four days, but the most gigantic, monstrous beet, that ever invaded our sanctimonious sactum, sancorum, was one sent by Mr. Wm. Crew, from down Rogue river, measuring 2 1/2 feet in length, and 2 1/2 inches in circumference—weighing 26 1/2 pounds. Now, we would like to see the son of a gun of a "beet" that can beat that best.—Courier.

The Oregon Indian war veterans have organized as follows: T. B. Wait Sale, grand commander; Col. John E. Benton, senior vice-grand commander; Col. B. E. Shaw of Vancouver, W. T.; grand marshal, W. J. Garrison, Yambill, State adjutant, Col. C. A. Taylor, Yambill, assistant adjutant, W. J. Norton, chaplain; Dr. T. B. V. Emery, paymaster; John Minto, surgeon; Dr. Martin, captain of the guard; Jacob Rineason. Steps will be taken immediately to establish subordinate camps all over the Pacific Northwest.

From Mr. John Parker of Etna, who came up from Delta last Wednesday, we learn that all his activity at the railroad front. There are at present about 1000 Chinamen and 100 white men employed on the work and more help is being put on every day. The Shasta County "Democrat" of last Wednesday says: "Night and day shifts will be put on tunnels 9, 10 and 11 as soon as possible, which will give employment to a large number of white laborers. The reason why so many men are idle at the front is simply because the work has not been laid out yet."

The Northern Pacific land department has received a letter from John D. Lewis, of Columbus, Kansas, which says that a number of members of the G. A. R. in that city are organizing a colony with a view to emigrating to some point where cheap houses can be secured. The letter requests that all the statistical and official documents and information relating to this State and Washington Territory be forwarded. The letter concludes with the assertion that "the men in this locality will have \$1000 to \$5,000 to start in with, and the State or Territory that gets the colony will receive quite a boom."

From all we can learn, there seems to be a disposition on the part of the railroad company to crowd the work right along north of Delta, in fact the road must be finished to be of any value, as it is a losing investment to be obliged to run daily trains in either Ashland or Delta, from Portland and San Francisco. As the tunneling must be completed at end of each branch road before the grading in the valley of Siskiyou can be commenced, no very large force will be set at work for some time. The company wants the benefit of railroad freighting for bringing material and supplies, because teaming is too expensive, and hauling by rail is considered no cost to company, since supply cars can be attached to the regular daily trains. The outrages lately committed by white men in piling rocks on the track below Delta, because Chinamen are employed in preference to them, has resulted in no serious accident yet, and it is hoped vigilant watch will be kept to prevent the sacrifice of life and property, through such cowardly action. The public generally are not responsible for the employment of the Chinese, and to thus endanger the lives of passengers, and destruction of valuable freight, deserves summary punishment, even a resort to lynch law, if not otherwise prevented. Men who resort to such means of revenge, are probably a set of worthless tramps, who would not do a day's work, if the Chinamen were all discharged, and the highest wages paid.—Journal.

To alleviate the bitter taste and surfeit all previous efforts to please the palate, requires no small amount of knowledge and no little skill, and when we remember that the very agreeable liquid fruit remedy, Syrup of Figs is as beneficial to the system, as it is acceptable to the stomach, we readily understand why it is the universal favorite as a cure for Habitual Constipation and the other ills arising from a weakness or inactive condition of the Bowels, Kidneys, Liver and Stomach. Sample bottles free and large bottles for sale by Merritt & Robinson, Jacksonville.

Habitual Constipation. Is a prolific source of misery and many ills, giving rise to Headache, Dullness, Fevers, Nerveousness, Restlessness, Biliousness, Indigestion, Poisoning of Blood, etc. The bitter nauseous Liver medicines, pills, salts and draughts formerly used to relieve the sufferer, only aggravate the disease and sicken the stomach. All who are afflicted in that way, know the importance of the remedy pleasant to the palate, harmless in its nature, and truly beneficial in its action. The trial bottles of Syrup of Figs given away free of charge by our enterprising druggists Merritt and Robinson of Jacksonville prove that it is all that can be desired. Large bottles at fifty cents or one dollar.

ARE YOU MADE miserable by indigestion, Constipation, Dizziness, Loss of Appetite, Yellow Skin? Shi-loh's Vitalizer is a positive cure. For sale by E. C. Brooks.

From our exchanges it would appear that Johnson's Cyclopaedia is being pronounced the best by the pulpit, bar, medical profession, educational fraternity, press, and indeed by the leaders of opinion generally. Harvard, Yale, Columbia, Princeton, and the leading colleges in general accept it as an authority and the best. The articles are subdivided by italic sub-headings so that you can at once find what you are looking for. This is a great improvement on Appleton's and others. It has more matter than Appleton's at about half the price and vastly exceeds it in American matters having 20 American biographies to Appleton's one. It is a model of comprehensiveness and at the same time of condensation. Pres. Selby, of Amherst College, says, "there is nothing comparable to it in any language for the comprehensiveness and accuracy of its information in so condensed a space."

AMMONIA IN BAKING POW-DERS. Among the recent discoveries in science and chemistry, none is more important than the uses to which common ammonia can be properly put as a leavening agent, and which indicate that this familiar salt is hereafter to perform an active part in the preparation of our daily food.

The carbonate of ammonia is an exceedingly volatile substance. Place a small portion of it upon a knife and hold over a flame, and it will almost immediately be entirely developed into gas and pass off into the air. The gas thus formed is a simple combination of nitrogen and hydrogen. No residue is left from the ammonia. This gives it a superiority as a leavening power over soda and cream of tartar used alone, and has indeed its use as a supplement to these articles. A small quantity of ammonia in the dough is effective in producing bread that will be lighter, sweeter, and more wholesome than that risen by any other leavening agent. When it is acted upon by the heat of baking the leavening gas that raises the dough is liberated. In this act it uses itself up, as it were; the ammonia is entirely diffused, leaving no trace or residuum whatever. The light, fluffy, flaky appearance, so desirable in biscuits, etc., and so sought after by professional cooks, is said to be imparted to them only by the use of this agent.

The bakers and baking powder manufacturers producing the finest goods have been quick to avail themselves of this useful discovery, and the handsomest and best bread and cake are now largely risen by the aid of ammonia, combined of course with other leavening material.

Ammonia is one of the best known products of the laboratory. It, as seems to be justly claimed for it, the application of its properties to the purposes of cooking results in giving us lighter and more wholesome bread, biscuit and cake, it will prove a boon to dyspeptic humanity, and will speedily force itself into general use in the new field to which science has assigned it.
