ACCIDENTS.—Last Saturday as Fred Newman was returning from Medford with a load of ladies the horses got scared and started to run in front of Webster's stable works. They continued to run toward Plymouth stable where the team belonged and in front of Plymouth residence the vehicle struck a water box throwing all of the occupants out and seriously injuring Mrs. Ellen Noban and slightly bruising Mrs. Boze and Ellen Moody. Mrs. Schultz and daughter escaped unhurt. Dr. Lempert was called, and thinks Mrs. Noban's injuries although quite serious, will not prove fatal. The hack and harness are a total wreck, but the horses escaped unhurt.
Wm. Penninger of Willow Springs precinct, was severely injured by his horse falling on him, when near his brothers residence. Dr. Aiken is attending him and as yet the extent of his injuries are unknown, as he has not yet fully recovered consciousness. We hope that he may soon recover from his unfortunate accident.
Some party or parties at present unknown, have been for several days past in the habit of shooting recklessly about Squire Hoffmanns premises, doubtless hunting quails. As one of the bullets passed near by one of the ladies heads, the family would be greatly obliged if the reckless shooter would choose some other locality for hunting game.

J. C. Whipp our enterprising marble dealer has just received a large addition to his stock, and is displaying at the marble works in Jacksonville the largest line of monuments and tombstones ever offered in this market. One monument that measures 8 1/2 feet from pedestal to cornice, is magnificent in style and workmanship; around an anchor with broken cable are entwined wreaths of ivory and forget-me-nots, in bold relief, and the whole finished in a style that makes it the handsomest piece of marble work in the valley. It is intended as a family monument to mark the last resting place of the six children of Mr. and Mrs. Wm. Bybes in the town cemetery.

Whatever idea the young girls who practice street flirting may entertain of their seemingly innocent pastime, it may be set down as a certainty that when a respectable young man desires the acquaintance of one who may some day become his wife, he doesn't go out on the street and seek for acquaintances through flirtation. But, on the other hand, the flirt of the street, no matter how innocent and fair her intentions may be, is the last person he would seek as his life's companion. He desires purity, without and above suspicion. The young lady who engages in this kind of pastime should bear in mind that she not only endangers her reputation and leaves a stain upon her good name, but that her name is a word among those with whom she flirts to be candid about in the saloons, on the street corner, and in the lowdown unwholesome places in the city; fastening on her otherwise fair name a stigma or stain that will follow her years after she sees her folly and attempts to mend her ways.

The long-pending Queen of the Pacific salvage case was wound up yesterday by the payment into the registry of the United States district court of the full amount of the award, which, including costs and interest, was \$70,517 02. The total value of the property saved was \$736,786 84. The value of the cargo was \$220,000. The proportion of the award to be paid by the ship, or claimants, is \$19,463 19, less the \$1264 paid to J. H. D. Gray September 17, 1883, or \$48,209 19. For this amount a check was drawn yesterday by Mr. C. H. Prescott and handed over to the clerk of the court. The amount of the award to be paid by the cargo saved is \$21,053 83, which is already in court, having been paid in advance at the time of taking the goods from the ship.—"Oregonian."

RAILROAD ITEMS.—The railroad work, is being pushed right along with energy, especially the masonry, as it is the desire to get all the bridge abutments and foundations for trestle work over gulches, laid on bedrock before the streams are raised by the winter storms. The men are strung out all the way up the Sacramento river, where the water is likely to interfere, and they will get the work above high water mark, so as to permit operations during the winter season, in finishing tunnels, trestlework, bridges, etc. There are about 800 Chinamen on the pay roll at present, besides a large force of white men, and by next spring, the company will be able to put on a much larger force to finish the road to Oregon in the speediest possible manner. It is now stated that a grade of not more than 85 feet to the mile, has been gained by later surveys, in place of 116 at different points between Delta and Sisson, and new surveys will be made through Shasta valley, from the summit to gain a shorter and easier route to Klamath river, which may result in the adoption of the survey through the Cedars and Little Shasta, or some changing of the route passing near the Salt Works. The straight route would probably be directly through Yreka and Hawkinsville to the Klamath, with a high elevation clear to the Si-ki-you mountain, but the cost would be much greater, and more than the company might want to invest. It is also probable that the Central Pacific managers are waiting to see if they get the grant, before accepting the Oregon branch, which no doubt requires rebuilding to make a good, fast road to suit the wishes of the C. P. in securing the Oregon business with the East, in competing with the Northern Pacific and Oregon Short Line. As the state laws will not permit the sale of railroads to corporations outside of state, a lease of 99 years is made which is virtually a sale.—"Journal."

ASHLAND WOOLLEN GOODS AHEAD.—The samples of flannels and shawls sent by the Ashland Woolen Mills to the Merchants' Exchange of Dr. Chittenden, much attention, and was awarded the first premium, a silver medal, as the best display of goods of that kind. The goods were selected from the ordinary stock on hand at the factory, and its gratifying to note the fact that they took first rank in comparison with the products of other factories. The Ashland Woolen Mills have already earned a high reputation for their fine blankets and flannels, of which they make a specialty, yet the proprietors keep striving constantly to make still further improvements in both the quality and style of finish of their goods.—"Tidings."

Habitual Constipation Is a prolific source of misery and many ills, giving rise to Headache, Dullness, Fevers, Nervousness, Restlessness, Biliousness, Indigestion, Poisoning of Blood, etc. The bitter nauseous Liver medicines, pills, salts and draughts formerly used to relieve the sufferer, only aggravate the disease and sicken the stomach. All who are afflicted in that way, know the importance of the remedy pleasant to the palate, harmless in its nature, and truly beneficial in its action. The trial bottles of Syrup of Figs given away free of charge by our enterprising druggists Merritt and Robinson of Jacksonville prove that it is all that can be desired. HALL'S HAIR RENEWER. Vegetable Siccilian

The great popularity of this preparation, after its test of many years, should be an assurance, even to the most skeptical, that it is really meritorious. Those who have used Hall's Hair Renewer know that it does all that is claimed.

It causes new growth of hair on bald heads—restores the hair follicles and prevents, which is seldom the case, a natural color to gray or faded hair; preserves the scalp healthy, keeps the hair clean and free from dandruff; prevents the hair falling off or changing color; keeps it soft, pliant, lustrous, and causes it to grow long and thick.

HALL'S HAIR RENEWER produces its effects by the beneficial influence of its vegetable ingredients, which in conjunction with its medicinal properties, produces a permanent natural color and being a single preparation, is more convenient of application than any other.

Buckingham's Dye FOR THE WHISKERS Colors them brown or black, as desired, and is the best dye, because it is harmless; produces a permanent natural color and being a single preparation, is more convenient of application than any other.
