struck bushels.

struck feet. WATER IS FATTENING .- It has been observed that water is fattening, that those who drink large quantities of water have a tendency to fullness and rotumlity. That there is considerable truth in this observation the "Medical and Surgical Reporter" fully substantiates. That excessive imbibitish of very cold (seed) water At the old stand of S. P. Hanna, in Crons. (sepecially when one is very warm) and Crescent City, California, has is not to be commended, yet we have reason to believe that the unlimited both places. use of pure spring water, at its natural the digestive, assimilative, and de- as near that point as possible. purative functions, ewing to the infullness, we do not know, neither "Oregonian." does it signify, since observation confirms as a fact that the free use of water don't have this effect.

> DEATH OF DANIEL CLARK .- Daniel Ciark, so long resident of Salem, and well known as a mail of enterprise, died on Wednesday night December 30th, or rather early on the 31st. He was out with the year. Thirtytive years ago we became acquainted with him at Portland, and have lived neighbor to him since that time. Mr. Clark has been President of the Oregon State Agricultural Society. Master of the Oregon State Grange and has been earnest as a worker for our State all his life. He crossed the plains in 1844 and settled early four miles south of Salem, remaining there until his decease. He died of creep ing paralysis, after some weeks of suffering. He was a good husband and father and an earnest worker in all the works of life. He leaves a large family and many friends, over a wide region, sympathize over their loss. Thus, one by one the pioneers are passing away and the men who made Oregon disappear. - Willamette

W. Lair Hill has declined the judge ship of this district. It is much to be regrested that such is the case, as a man of Mr. Hill's standing and ability 25,000. would be a great gain to that particular branch of the public service.

the San Francisco "Alta."

Here are some figures and rules A JUST AND REASONABLE PROTEST SENT TO THE POSTOFFICE DEPARTMENT.

WASHINGTON, Jan. 3 .- The postmaster general contemplates more above question; sweeping reductions in the mail service to small towns in the west than those A square foot is 144 square inches, he has already made. In advertising (may we not say the majority) of our A square yard contains nine square for bids for carrying the mail on the farmers are plodding along in the same stage lines he has in most cases asked old ruts year after year without a A square rod is 2721 square feet. for bids on reduced service.
