A stockman in southern Oregon was yesterday offered 4 cents per pound live weight for a band of fat cattle. He agreed to take it if he could not get more. For "cheek" and aggressive presumption, there is a man in Ashland who might almost vie with a certain well-known newspaper proprietor in Southern Oregon. The fellow claims to be a doctor, and goes from house to house forcing his services upon whomsoever will be frightened or duped into allowing him to treat them for \$2 a week. His attention is directed to ladies chiefly, and he pretends to be able by starting at their eye-balls to give an accurate diagnosis in every case. He always tells every woman whom he meets that she is a sufferer from some disease, and always promises a cure for two dollars a week. The fellow is undoubtedly an unmitigated nuisance, if not worse, and should be run out of town.—"Tidings."

Mrs. Frank Payne of East Portland invented a stamp mill and amalgamator combined, which is considered by those who understand the merits of such machines to be a good invention. It is so constructed that the hammer, which weighs 100 pounds, rises six inches and makes 800 beats per minute. It will pulverize three tons of ore per day, and will cost about \$300. It will weigh 1,200 pounds, and is put together in sections so that it can be easily packed through the mountains. There is abundant use of low grade ore scattered all over this country which could be worked by means of small machines which would pay well, as it requires but one man to attend to the work of the machines. Mr. Payne intends to apply for a patent, having already filed a caveat.

The New Timbleton—in the timble. One had, racked with pain, a weary man lay Singing, willow, titwillow, titwillow! No ease or relief could he find any day, O, willow, titwillow, titwillow!

His pains are now gone, he is hearty and well, St. Jacobs Oil made him as sound as a bell, And the story so good to each one he does tell, Singing willow, titwillow, titwillow!

PUBLISHER'S NOTE.—A Chicago paper says that the actor who plays "Koko" in the "Mikado," at a theatre there, had such a bad cough that he could not have sung "Titwillow," had he not recovered his voice by a dose of Red Star Cough Cure, which costs only twenty five cents a bottle.

RAILROAD WASHED OUT.—The late heavy rains have flooded some portions of the track of the O. & C. R. R. in the Coos creek country, has caused the caving in of a part of the Grave creek tunnel and numerous heavy slides are reported on other portions of the road. There has been no through train from Portland all this week and only one mail has reached us from that direction during that time. A large force of men has been employed in making necessary repairs and a through train is expected at Medford this evening. For the present a local train will be run between Ashland and Grant's Pass going over the route in the day time.

At the Stage.—To captivate the popular taste and surpass all previous efforts to please the palate, requires no small amount of knowledge and no little skill, and when we remember that the very agreeable liquid fruit remedy, Syrup of Figs is as beneficial to the system, as it is acceptable to the stomach, we readily understand why it is the one favorite as a cure for Habitual Constipation and the other ills arising from a weak, or inactive condition of the Bowels, Kidneys, Liver and Stomach. Sample bottles free and large bottles for sale by Merritt & Robinson, Jacksonville.

The Popular Syrup.—Of the now famous Syrup of Figs as the most efficacious and agreeable preparation ever offered to the world as a cure for Habitual Constipation, Biliousness, Indigestion and kindred ills, has been won by the wise plan pursued by the California Fig Syrup Company. Knowing that any remedy truly beneficial in its effects on the system, and at the same time pleasant to the taste, will meet with a rapid sale, the Company, through its agents Merritt & Robinson gives away a sample bottle free of charge. Try it and judge for yourself. Large bottle fifty cents or one dollar.

He then did what he should have done at first, used St. Jacobs Oil and is now well. A cough which he caught from exposure was removed by Red Star Cough Cure, which he says is a wonderful discovery.
