

Our Prophecy.

Shortly after the election of Senator Mitchell to the Senate, we ventured into the prophesy business, and whether or not our first effort in that line has proved a success must be determined by our readers. Feeling confident that Scott would avail himself of the first opportunity to get even on the Republican party for entirely ignoring his malice hatred and revenge against Mitchell and electing him Senator, we stated that the Republican party might as well understand now as at some future time that Scott and the "Oregonian" would be against the Republican ticket, it matters not who would be placed upon it, and now we ask if our prophecy has not come true. It is a well known custom of the Indians of this coast that when they cannot reach the guilty party to a wrong committed against them, that some other innocent person is made the victim. So it is with Scott; Mitchell is beyond his reach, hence Cornelius, Marston and Waldo were the victims selected to gratify his pent up revenge against a man who looks down upon him from his eminent position with an eye of pity and contempt. He would have the people believe that the election of Mitchell was the only cause of defeat. The labor the Prohibitionist and Chinese questions, he would have you believe, had nothing to do with the result, notwithstanding the great excitement the Chinese question caused a few weeks before the election. Hor. Binger Hermann is elected and is a friend of Mitchell, an enemy of Scotts for Scott recognizes no man his friend, that is a friend to Mitchell. Therefore we ask why is it that Hermann is not also defeated with the rest of the "Mitchell ring."

The Portland Daily "News" of the 16th, has the following:— Senator Dawes threw a bomb into the camp of the Kentucky whisky producers by a Senate resolution, calling on the Treasury Department and the Department of Justice for information in regard to Secretary McCulloch's celebrated order by which whisky exporters were given an extra seven months to ship goods; also to the decision of the Department of Justice, by which they are permitted to re-import their goods and let them lie another three years without the payment of tax. The resolution was passed. This means some interesting developments, and a good deal of music in whisky circles. The methods by which this order was obtained were some what devious, and if Mr. Dawes follows up his inquiry there will be interesting developments. It is not improbable that the inquiry may result in the revocation of the order by which the re-imported goods are permitted to lie in a warehouse three years longer after making a tour abroad.

Governor Adams is one of the best natured men in the State of Nevada, yet he has more old bums and strikers after him than anybody, all the time. Whenever he appears on C street they follow him up or head him off, and want to talk politics and of chances for re-election by introduction to confidential requests for coin. He generally is considered good for from four bits to \$5, but always stands them off with four bits each. He thus charitably gives away his entire salary, and would be reduced to poverty were it not for his moving and gattle interests.—Virginia City "Enterprise."

The "Oregonian" seems to think that if Blaine is nominated in 1888 that he will carry this state by 5,000 majority. As the "Oregonian" furnished the Democracy their campaign lies against Blaine in 1884 and that the state was carried by a handsome majority for him it is therefore evident that the "Oregonian" is not the all powerful organ as the editor would have it appear.

Oregon Swamp Land Cases

WASHINGTON, June 23.—The combined legal talent of the interior department has been spending its time for the last three days trying to arrive at some rule that shall govern the department in future in ruling upon swamp lands. It is a general principle that all overflowed lands not fit for cultivation belong to the state, but it is claimed that in the states of Oregon and California, especially, there are thousands of acres claimed by the state that really belong to the general government. There are 38,000 acres involved in the present controversy in Oregon. It is particularly complicated, from the fact that settlers have taken up a good deal of it and received their titles from the state, and it immediately becomes a question as their standing in case the lands revert to the general government. It is proposed to settle the question once for all by a general rule if possible.

A. O. U. W.—The Supreme Lodge, A. O. U. W., began its sessions in Minneapolis, June 15th. Supreme Recorder and Secretary's report exhibited the following financial statement for 1885. Receipts, \$331,000; disbursements, \$25,349; balance on hand, \$5,651. Relief Fund receipts, \$65,241, disbursements, \$61,550. The Beneficiary Fund showed a total of 1284 deaths during the year, New York and California being the first and second in magnitude. The total beneficiary assessments during the year were \$2,580,408.85; losses paid, \$2,566,458. The total number of death losses paid since organization are 7,009, amounting to \$13,875,148. The report of the Supreme Medical Examiner emphasized and asked legislation on the following points: Uniform medical examination blanks; submission of all proofs of death to the Grand Medical Examiner, and reporting of death in English.

It is certainly amusing as well as disgusting to the intelligent people of this state to read the many silly squibs in the "Oregonian" since the election. The editor would have its readers believe, that the defeat of the Republican party was due to Mitchell's unkindness in firing him out of the Custom House for "malfeasance in office," and nothing more. The labor question, the anti-Chinese agitators figured but little when compared with Scotts hatred of Mitchell and his desire to get revenge on all who have the least friendship for Mitchell. We will say to the editor of the "Oregonian" that if it is his intention to get even on all of Mitchell's friends, we would advise him to commence first in Southern Oregon, for the reason that we believe his lease of life will be ended by the time he gets through with this section.

Some inquisitive journalist has ascertained that of the 408 Senators, members and Territorial delegates who compose Congress, sixty-three Baptists, forty-one Episcopalians, thirty-seven Presbyterians, thirty-six Catholics, fifteen Unitarians, eight Lutherans, ten Christians (Campbellites), and two Quakers, making a total of 283 who are actively connected with some church organization. This leaves 125 who either never belonged to any church or have drifted out of such associations.

We would suggest that the Young Mens Christian Association of Portland, appoint a committee to wait on Harvy Scott, for the purpose of ascertaining how many years in the future, it will require to appease his hatred malice and revenge against Mitchell, and to offer to him the benefit of their prayers, to aid him in his christian work.

Among some of the most important changes made by the Senate committee in the house river and harbor bill, are the following, the amounts given being the totals of appropriations recommended by the Senate committee: Oregon—Yaquina bay, \$100,000; Coos bay, \$45,000; Portland harbor, \$5,000; Cascades, \$250,000; Columbia river, \$250,000.

Undigested Food.
In the stomach develops an acid which stings the upper part of the throat and palate, causing "heartburn." It also evolves a gas which produces "wind on the stomach," and a feeling and appearance of distention in that organ after eating. For both this acidity and swelling Hostetter's Stomach Bitters is a much better remedy than alkaline salts, like hartshorn and carbonate of soda. A wine-glassful of the Bitters, after or before dinner will be found to act as a reliable carminative or preventive. This fine specific for dyspepsia, both in its acute and chronic form, also prevents and cures malarial fever, constipation, liver complaint, kidney troubles, nervousness and debility. Persons who observe in themselves a decline of vigor should use this fine tonic without delay.

PYÆMIA
Is the most violent form of blood-poisoning. Less speedily fatal, but not less certainly so, is the vitiation of the blood of which the first symptoms are Pimples, Sties, Boils, and Cutaneous Eruptions. When the talent of Sarsaparilla gives warning of its presence by such indications, no time should be lost in using AYER'S SARSAPARILLA, the only perfect and reliable medicine for the purification of the blood.

SCROFULA
Is a foul corruption in the blood that rots out all the machinery of life. Nothing will eradicate it from the system and prevent its transmission to offspring but AYER'S SARSAPARILLA. This preparation is also the only one that will cleanse the blood of Mercurial poison and the taint of Contagious Diseases. Impoverished blood is productive of
