

Blaine On Home Rule.

The Home Rule meeting in Portland Maine, attracted an immense audience, and the speech of Mr. Blaine, was received with manifest favor.

"Mr. Gladstone, in his policy, proposes another bill; he proposes to do something to relieve the Irish from the intolerable oppression of the landlords.

"Ireland is a country far more important to the prosperity, the strength, the dignity of the British Empire than all our distant dependencies together—more important than the Canadas, the West Indies, South Africa, Australia, Cayton and the vast dominions of the Mogul."

In the year 1880 Ireland produced 4,000,000 bushels of wheat. But wheat is not the crop of Ireland. She produced 8,000,000 bushels of barley.

With commendable enterprise the Kansas City Times illustrates the little incident of the shooting of an editor. We observe that the artist pictured the esteemed editor as a gentleman of high brow and classic features.

The government has issued an edict expelling the French princes from the country. If they do not take up their residence in England, they will undoubtedly come to this country, as another thrives better in these countries than any where else.

Senator Mitchell is making commendable effort to have a navy yard established on the northwest coast. We have all the requirements, and the need exists.

"You hired me," said the laboring man, "and I want you to higher my wages."

Why should this be in a land that can produce so very abundantly? Why should any one want the great law giver of Israel ordered that "thou shalt not muzzle the ox that treadeth out the corn," and St. Paul added, in quoting that in his epistle to Timothy, "The laborer is worthy of his reward."

The Philadelphia Press has discovered how Miss Folsom captured the president. She once took a cooking school prize for making the best pie.

The Democrats elect their candidates for prosecuting attorney in the first, second, third, sixth and seventh districts. They elect their judges in the fourth, sixth and seventh districts.

The Secretary of the treasury has issued another call for \$4,000,000 in 3 per cent. bonds. They should raise the call.

The enterprising citizens of Salem are indulging in mutual congratulations over the unanimity of the vote authorizing the issue of bonds for the construction of a bridge at that point.

Mothers have a duty to perform towards their boys in teaching them to avoid tobacco. Some investigation by Decaine of Paris may help them in the discharge of this duty.

Edward Atkinson, a well known statistician, presents figures to show that the railroads of the United States give employment to 650,000 people, and transport 400,000,000 tons of freight annually, one-half of which is coal and fuel.
