

OREGON SENTINEL

JACKSONVILLE, SATURDAY, August 7, 1886.

MARRIED.—At the residence of B. F. Dorris, in Eugene City, Prof Thomas Condon officiating, Mr Seymour W. Condon and Miss Mary Dorris.

SERIOUS ACCIDENT.—On Wednesday of this week while hauling hay on Thompson creek Jasper Darville fell off of a loaded wagon and had an arm broken in two places by the wheel passing over it. The flesh of the arm is so badly crushed that Dr. Aiken, the attending physician thinks nothing but amputation of the arm will save the man's life.

NEW BRICK.—C. W. Kahler has let a contract to Byers & Guerin of Medford for the construction of a brick building on the site where his office stood. The old building has already been torn down and bricklaying will commence about next Monday. We say he has not yet lost confidence in Jacksonville and his actions prove it.

That young and big dude drummer from Portland lately shown up by the "Oregonian" for his transaction at Albany was in town this week making mashes on some of the Jacksonville girls. A rich father on one side and a mad father on the other may not make an even match but we will bet on the daddy that is mad when the last round takes place. But we promised to say nothing about it.

THE SHOW.—Cooper and Mack's Jolly Pathfinders attempted to give a show here on Tuesday night but no audience appearing they postponed it till Wednesday when they played to about a \$10 house giving a very good show for a traveling troupe. Their manager is sure a novice in the business and regards the value of printer's ink worth nothing, but after a few such failures as he had in Jacksonville he may learn better. The company returned to California from here.

MEAN TRICK.—All the nuts on the wheels of George Schump's backboard were taken off last Sunday night by some one who no doubt thought he was playing a very funny trick. Schump and John Orth and others expected to use it early next morning to go to the mountains but the trick was discovered in time to prevent any accident but caused them considerable trouble in securing another wagon for the trip. To say the least it was a mean despicable trick for which the perpetrator ought to receive a leather medal.

SIDDED DEATH.—Mat Poot the well known young blacksmith died at his residence in Eagle Point on Thursday last. He had only been ill for about one week, suffering with some kind of fever, and the suddenness of the shock has so prostrated his wife that she is also lying in a dangerous condition. Mat was a young man of 28 years of age, the very picture of health and it will surprise all of his friends to hear of his sudden taking away. He leaves a wife, parents and other relatives, but no children. We extend our sympathies.

FINE COLLECTION.—We had the pleasure this week of viewing the fine collection of oil paintings, and decorative art painting consisting of Kensington Irishman, Lastra, Felt, Satin, and Tapestry or white velvet all the work of Mrs. H. K. Hanna. The oil paintings consist of Malmouth Falls, Lake George, Mount Hood, Sunset on the Mediterranean and last but not least a beautiful Magenta. Every picture and ornamental work in the parlor is the handiwork of Mrs. Hanna and are deserving of all the praise bestowed on them. Mrs. H. is pupil of Mrs. J. S. Cowles and from the advancement there first made she will surely prove herself an artist of merit.

On July 24th a dead man was found floating in Smith River, about half a mile below Ford's ferry. In the absence of the Coroner, James Brooking Justice of the Peace was notified who took charge of the body, and from whom we gain the following particulars: Inquest held July 25. Name unknown; age about 70 years; verdict, accidental drowning; had on his person cash \$2 in silver and a nickel. One pocket knife two broken blades and one whole one; also a match box. No papers to identify him. Had probably been in the water two or three weeks—gray curly hair; had on black diagonal coat, checked vest packed with a piece of gunny sack, common gray pants, old coarse boots and two cat undershirts. All his clothing denoted poverty. Has been buried in Smith River cemetery.

NOTICE TO SHIPPERS.—R. Koehler, receiver of the O. & C. R. R. has issued the following notice: "On and after August 2nd all freight coming or going over the east-side division of the O. & C. R. R. will be billed on, respectively from East Portland station, at new schedules of rates. The rates do not include hauling and free delivery. The company is, however, prepared to receive or deliver freight coming or going over the east-side division from and to any point within the cities of Portland and East Portland, for which service a special charge of cartage will be made at the rate of two cents per 100 lbs. for all kinds of freight, except for such heavy freight as safes, boilers, heavy machinery, not on wheels, for which an additional charge for cartage, over and above the two cents per 100 lbs., will be made in accordance with schedule of weights. All cartage for the O. & C. R. R. Co. will, by the contract, be done, as heretofore, by the Oregon Transfer Company, to which application for hauling should be made.

He is now in San Francisco making purchase and will select the latest in the line of dress goods, clothing hats, etc. Watch for his arrival.

The huge drill which became fast at the bottom of the arstian well on W. S. Ladd's farm near East Portland, has been extracted, and the contractor having received a lot of new bits from New York, is joyful proceeding with this work. The well is now down 1660 feet, and is going toward the center of the earth at the rate of from three to ten feet per day.

A charge of 800 boxes of powder, weighing about 18 tons, was set off by electricity just below the Big Canyon near Soda Springs, on the O. & C. R. R., but proved a failure, as a large quantity of the powder was burned up without accomplishing anything or doing any damage. There seemed to be something wrong in the arrangements for making the explosion, which ought to have been almost strong enough to make Mount Shasta's tall peaks rock to and fro.

Railroad Meetings.

A meeting was held at the town hall, in Jacksonville, on Saturday evening, July 31st, to consider the matter of building a railroad from Jacksonville to Medford or some other suitable point on the O. & C. R. R.

On motion, N. Langell was chosen chairman and J. M. Smith, secretary. The chairman stated briefly the object of the meeting, and invited an expression of sentiment from those present. Thereupon W. J. Pymale, R. S. Danlap and others delivered in a brief and pointed manner their views upon the necessity and utility of the enterprise.

Mr. Pymale submitted the following preamble and resolution, which was unanimously adopted:

WHEREAS, It is the sense of the citizens of Jacksonville that a railroad from this place to connect with the O. & C. R. R. at Medford or some other suitable point is a necessity, and that such road cannot be built without certain indispensable preliminaries, and such preliminaries can be more speedily and effectually arranged by the few than the many, therefore be it

RESOLVED, That a committee, composed of the following gentlemen—David Linn, T. G. Rowmes, Henry Klippel, Kasper Kubli, J. Nunan, N. Fisher and C. W. Kahler,—be and they are hereby appointed to take such steps in the premises as they shall judge necessary and expedient, and to propose or formulate a plan and devise ways and means for purchasing material, securing the right-of-way, and for the construction of said road at the earliest practical moment.

On motion, the secretary was authorized to inform absent members of the committee of their appointment. On motion, the meeting adjourned.

N. LANGELL, Chairman. J. M. SMITH, Secretary.

Church, South, for this district will be held at Bownboro on the third Sunday in August. A camp-meeting will commence at the same place on the Tuesday before, the 12th inst.... The meeting held at the camp ground on Riggs river last Sunday was well attended. Another will be held at the same place on Sunday next, when Elders Messick of Portland, M. Peterson and others officiate. A basket dinner will be spread and every-body is invited to attend.

The infant daughter of Dr. T. R. Young and wife died at Central Point Thursday aged about five weeks.

A Mystery.

How the human system ever recovers from the bad effects of the nauseous medicines often literally poured into it for the supposed relief of dyspepsia, liver complaint, constipation, rheumatism, and other ailments, is a mystery. The mischief done by bad medicines is scarcely less than that caused by disease. If they who are weak, bilious, dyspeptic, constipated or rheumatic, would often be guided by the experience of invalids who have thoroughly tested Hostetter's Stomach Bitters, they would in every instance obtain the speediest relief derivable from rational medication. This medicine is a searching and at the same time a thoroughly safe remedy, derived from vegetable sources, and possessing, in consequence of its basis of pure acids, properties as a medicinal stimulant not to be found in the fiery local bitters and stimulants often resorted to by the uneducated dyspeptic and bilious.
