

O. Harbaugh has purchased the John R. Tice farm near Medford of Peter Bitt, paying \$3,600.

APPRENTICE WANTED.—J. C. Whipp wants a young man as an apprentice in his marble work that will stay until he learns the trade. A boy from the country preferred.

Dr. J. O. Allen of Medford would like to teach a class in short-hand writing in Jacksonville. A class of fifteen will be instructed for twenty-five lessons at the rate of \$5.00 per scholar, scholars to furnish a suitable room, with the necessary lights and fuel.

PRIVATE SALE.—Owing to my immediate departure for California I will sell during the next ten days all my household and kitchen furniture. First come, first served. Also my pony, single harness, top-hungry (with poles and shafts), saddle and bridle sold separately or together.

A. R. BICKENBACH, Nov. 12, 1886.

NEW R. R. TERMINUS.—Regular trains will commence running to the siding near Sisson's next Saturday, 13, inst., and a Pullman sleeper will be put on to run between Redding and Sisson's for the night travel. This will reduce the stageing from Yreka to 40 miles and from Ashland 90 miles. The stages will probably reach here a little earlier in the morning from the south, and leave as heretofore going south.—[Journal]

Subscribers who order their paper stopped, and who owe for several years subscription, must remember that they must square up their accounts with the publisher as the law requires before they suppose for one moment that their paper will be stopped. And do not get it into your heads that the editor is foolish enough to stop your paper at your request when he has no unsettled account against you for fifteen or twenty dollars. Delinquent subscribers should read the law relating to newspapers and act accordingly.

TO COLLECT TAXES.—Sheriff Dean gives notice that he or his deputy will be at the usual polling places in the several precincts of the county to collect the annual tax on the following days: Chimney Rock, Nov. 11, Big Ditch 12th, Little Ditch 13th, Plummer Rock 15th, Tual creek 16th, Meadows 17th, Table Rock 18th, Pleasant creek 18th, Woodville 20th, Rock Point 22d, Foots creek 23d, Willow Springs 24th, Sterlingville 26th, Uniontown 26th, Applegate 27th, Steamboat 29th, Manzanita Dec. 1st, Medford 2d, Eden, 3d, Ashland 4th, Jacksonville 6th.

RAILROAD ITEMS.—It is now stated that in three weeks more unless some prevent, the track will be laid to Butteville, 25 miles from Yreka, almost close enough to hear the shrill whistle of the locomotive. The graders on railroad are now at Keyser's, with track laid for some distance this side of Sisson's, and that as soon as the work is completed to the steam saw mill, the road will be pushed along very rapidly over the level ground through Shasta Valley. The excursion train runs cars required two heavy locomotives to haul it from Dunsinville to Sisson's, in consequence of the hard pull in making the 18-h crossing of the Sacramento, together with the heavy grade and short curves. We are informed that quite a number of town lots were sold at the town of Sisson's last week, realizing some \$4,000.—[Yreka Journal]

PLANT FRUIT TREES.

A man may go through the world without fulfilling the mission for which he was born, but his failure to exercise the powers given him does not alter the fact that at one time he may have possessed splendid possibilities which judiciously used might have brought him friends, prosperity and even fame.

The possibilities of a great and enduring prosperity lie before the people of this valley.—God gave to this section a fertile soil and climate in which men delight to make homes. Here every variety of fruit known to the temperate zone grows, almost without cultivation. To the north and east of us lies a vast extent of country splendidly adapted to the production of breadstuffs and the growth of stock but with too severe climate for the successful propagation of any of tenderer fruits. Since the completion of the Northern and Canadian Pacific railways this great area of plain and mountains, being rapidly settled and within a few years will be densely populated. That great population must have fruit. There is no part of the world from which they can be more easily or cheaply supplied than from here. Prosperity follows in the footsteps of trade and trade flourishes just in proportion as there is a demand and supply to meet it. These things exist here. The demand will be certain and beyond the power of supply.—Let us embrace the opportunity now within our grasp. Let us plant fruit trees, and make our prosperity in an employment as pleasant and honorable.

Says the Grant's Pass "Courier of last Friday: We acknowledge a pleasant call from ex-Governor S. F. Chadwick. The governor expresses great confidence in the fruit interests of Southern Oregon. He says our grapes and melons are equal to any raised in California, and being so much nearer the market north of us, including Portland, we can and will control them. Our hills are admirably adapted to the cultivation of grapes, and the time is not far distant when they will be plucked in grape vines loaded with luscious fruit that commands good prices. The governor is very enthusiastic in his expression that Josephine and Jackson counties are to be the vineyards of Oregon. Wake up now, almost anyone of you can own enough land to make a grape farm. Another year will start the ball in full motion all over the counties above named.

The locomotive having two cars attached on its way from Grant's Pass to Ashland collided with a cow on the track near Gold Hill. The cow was killed and one of the box cars thrown from the track and badly smashed.

The new postal card to be issued about the middle of December, will bear a vignette of Thomas Jefferson. The general design of the new card will be, in accordance with the new teachings of Jefferson, exceedingly simple.

Gov. Moody has appointed R. J. Rogers of Union, a delegate to represent the state of Oregon at a convention to be held in Chicago on the 16th and 17th of the present month under the auspices of the cattle Growers' association of the United States.

The residence of Terry Burns of Appleton was destroyed by fire a few days since. His household effects were saved, as the fire was discovered before it had gained much head way. Three less falls heavily on Mr. Burns as it was about all the property he possessed.

G. F. Pennebacker of Talent will sell a public auction to the highest bidder on Friday Dec. 10th at ten o'clock, undivided lots of one to five acres on his fine farm adjacent to the town of Talent, on the O. & C. R. R. For further particulars see his advertisement in another column.

Mr. B. S. Webb and Miss Nettie Howard both of Medford were married on Wednesday last at the residence of the bride's parents. We join their many friends in wishing them continued prosperity in their new life, and may their way of matrimony be an unlimited, pleasant and agreeable one. Compliments received.

Our citizens are beginning to get excited over the matter of getting left by the railroad, and a public meeting is being talked about to ascertain what can be done in the matter. We have solicited this matter repeatedly, and unless something is soon accomplished, the case will be passing by us, as it is now beyond the end of the track will reach Butteville by last of this month.—[Yreka Journal]

Miss Mattie Allison, who was tried for complicity with Saunders in the slaying of Campbell, has come to California, accompanied by her sister, to spend the winter with her brother at Santa Rosa. The Corvallis "Gazette" says the trial was a severe strain upon her, and since her acquittal her life in Albany has been made very unpleasant by petty persecution, and she thinks a change of scene would be not only beneficial but advisable.

Henry George was not elected mayor of New York City, but he came in second best in a tri-partite race; this demonstration in the people and politicians of the United States as well as the city of New York, that the labor element can no longer be overlooked, or its demands passed by in silence. In other words there is a conflict between labor and capital, and that conflict is irrepressible, and never can be settled until placed upon the broad principles of humanity and justice, and so settled.

The new loss of the telegraph line construction work in this valley has been changing some of the work done by his predecessor, removing some of the poles which were set too thickly, changing others, etc. The wires are now being hung from the railroad crossing south of Ashland, (at Jno. Mark's place) toward the summit of the Siskiyou. About seventy-five miles of a gap yet remains between Portland and San Francisco, and it is thought this will be closed by the first of December.—[Tidings]
