TO OUR PATRONS.—Those who have paid me in advance for the SENTINEL will have their money refunded or I will send them the Democratic Times for the unexpired time to all those who wish it.

WILL JACKSON.

EMPEROR WILLIAM DEAD.—Germany's emperor died last Friday morning at 8:30. The whole of Europe is in mourning over his death. Prince Frederick William was at once crowned emperor. Funeral services will be held to-day.

ON TRIAL.—In the circuit court of Josephine county, now being held at Grant's Pass, the celebrated Hamlin case is now on trial. All of the witnesses were examined by Tuesday evening and the case argued on yesterday. The case went to the jury last night.

It is said that about a dozen democrats are on a still hunt for the Jacksonville postmastership. Max Muller's term of office expires April 1st. Like a great many people of Jacksonville, including a large number of good democrats too, we would like to see Max be retained another term as P. M.

NEWSPAPER STOCK COMPANY.—The Republicans of this city and county should at once organize a stock company for the publication of a newspaper here. We are confident that nearly all, if not all of the stock would be taken here. Let the Republicans discuss the matter among themselves and we believe it will be done.

### Properties Sold.

Henry Klippel, real estate agent of this place, reports the following sales through his agency:

C. C. Beekman to Henry Wendt, block 73, in Pool & Klippel's addition to Jacksonville. Consideration, $225.

C. C. Beekman to P. N. Ficke, blocks 73, 74, and fraction block B, in Pool & Klippel's addition. Con. $325.

John Wells to Geo. W. Doane and Edgar E. Miner, 230 acres near Gold Hill. Con. $2500.

NEW VARIETY STORE.—A new variety store will be opened April 1st, in Mrs. McCully's building on the corner of California and Third streets, now occupied by Chale & McKenzie, by Will Jackson and Thos. T. Turner. Only the best stock of goods will be kept, consisting of cigars, tobaccos, candies, nuts, stationery, tropical fruits and everything usually kept in a variety store. During the summer months and the warm season, an ice-cream stand will be run in connection with the store.

EATING THEM OUT.—The Hamlin case from this county is being tried this week at Grant's Pass and a large number of Jackson county people are in attendance. From the following message, which was telegraphed from there Tuesday morning, it appears that our delegation must have eaten all of the hotels out, besides getting away with all the saloons had to drink. Here is the telegram:

Grant's Pass Or., March 13.

To merchants of Jacksonville:

Send car load flour, beef, bacon, potatoes and old bourbon.

(sig) Citizens Jackson county.

LOCAL BUSINESS.—The advertising patronage given to the local press, by the business houses of Jacksonville is but a modicum in comparison to the amount of trade carried on in this place. That it would greatly enhance trade and values to liberally advertise every branch of business, is an axiom that needs no demonstration to astute business men. A glance at the advertising columns of our local papers will fail to discern a single add that does justice to the business it represents, while many trades and occupations are wholly without representation by the press, and but for the spirit of business enterprise that prompts the papers from week to week to give local notices to the business interests of the town, the more enterprising business places in the valley would certainly divert the lucrative trade that has given us prosperity in the past. Another strong point that militates against our permanent prosperity is that so much business is being done through middlemen who give to the town no patronage, and the houses they represent do not advertise except by cards and plaques brought from distant cities. Now that transportation facilities make it possible for our business men to deal direct with wholesale houses, it would certainly be to the advantage of our people to patronize firms liberal enough to advertise for our trade or wise enough to send commercial men to us that will give us the advantage of their traveling patronage. Many of the drummers that are rushing through the country to secure trade, get their transportation in adjoining towns and make a flying trip to Jacksonville between breakfast and dinner and do not even give us the profit of a single meal. A word to the wise is sufficient and the moral to the story is, advertise and deal with business houses that will do the same, or send men to deal with us that will give us a living share of their patronage.

The Plaindealer says Roseburg will have a woolen mill erected there this year. Good for Roseburg.

The Atlanta Constitution is still remarking with vigor: "The infamous internal revenue must go."

Bert Whitman, of Medford is in town helping his brother, J. H. Whitman, in the county clerks office.

Henry Hockenjos, a Jacksonville boy, is president of the Marine brass band, the leading band of Portland.

A gentleman from Portland is in town looking at some of our vineyards with the intention of purchasing.

Every precibet in Jackson county will, at the democratic county convention, present its candidate for sheriff.

Sam DeRoboam, who has been at Grant's Pass, as a witness in the Hamlin case, returned Tuesday morning.

Mrs. J. W. Singletary, of Glendale, is paying Jacksonville friends a visit. She is the guest of Mrs. B. W. Dean.

The democrats of Lake county have purchased a column in the Examiner, and will use it for campaign purposes.

Judge L. R. Webster, who has returned from New York and is now holding court at Grant's Pass, spent Sunday at home.

The Roseburg Plaindealer thinks that Jackson county can and will be carried by the Republicans in June. We hope so.

Salmon canning on the Columbia river will be in full blast in about a month. Preparations for a big run are now being made.

Gen. Phil Sheridan will pay the Boise barracks an official visit this spring and will probably increase the service at that place.

Build a band stand for our band boys. Ashland, Roseburg, Eugene and many other towns in the state enjoy open air concerts.

Chale & McKenzie have concluded to discontinue the saloon business and will close up, on the 23d, when their license runs out.

Now is the time for the Republicans to organize clubs. Jackson county can be carried by them if they only make a strong fight.

The tariff question will be debated one week from next Saturday evening, by the debating society. It promises to be an interesting debate.

Eighteen out of the twenty four who took examinations last week for school certificates, passed and were granted teachers privileges.

The best fruit and grape lands lie adjoining Jacksonville, and those who wish to find a location for a home place can do no better than coming this way.

St. John, the prohibition crank from Kansas, has bought property at Chico, Cal., and will reside there. What is a gain to Kansas, is a great loss to our sister state.

A very neat and complete pocket map of Oregon has been issued by Rand, McNally & Co., of Chicago. It is handy and every one should have one. Address the publishers.

The Roseburg Review of last week, publishes Senator Vorhees free trade speech, which takes up nearly twelve columns of the paper. The Review editor has the craze bad.

Daisy creek after it passes through the lot owned by L. Solomon, should be looked after and the creek given a regular bed to flow in. As it is now, it is all over the 'flats' in that part of town.

SETTLE UP.—As this is my last issue of the SENTINEL all persons are hereby notified to come forward and settle up.

WILL JACKSON.

There are fifteen chinese lepers at the Multnomah county poor farm, and the question of sending them to San Francisco for shipment to China is being discussed.

According to reports, Southern Oregon is to be given a candidate for presidential elector on the Republican ticket For that place, we mention C. C. Beekman of this place.

The very best meals can be had at the Linkville Restaurant, opposite the Star office. It is under the management of Mrs. M. E. Williams who spares no pains to please her guests. *

W. J. Plymale is running a daily stage from Jacksonville to Medford to connect with the trains both north and south. His stage leaves Jacksonville promptly at 7 A. M. and 4 P. M. A liberal share of the patronage is solicited. *

FITS: All Fits stopped free by Dr. Kline's Great Nerve Restorer. No fits after first day's use. Marvelous cures. Treatise and $2.00 bottle free to Fit cases. Send to Dr. Kline, 931, Arch St., Phila., Pa. *

Ayer's Hair Vigor stimulates the hair, a vigorous growth. It contains all that can be supplied to make the hair beautiful and abundant, removes dandruff, and renders the hair flexible and glossy.

Jack Dempsey, of Portland, the well-known pugilist and middle-weight champion of the world, wants to fight Mitchell who fought Sullivan last Saturday. We believe Jack could "knock him out."

When you have an occasion of making a trip to any point in the county or valley, take our advice and give Kenney's livery stable your order. Bill always keeps on hand good teams, gentle and fleet, and the best of vehicles. Give him a call. *

The Chicago Tribune is booming Judge Gresham by the page for the presidency. It has information from all parts of Illinois to the effect that the Republicans will support him in the national convention.

E. E. Miner, a former real estate agent of Ashland, but now of San Francisco, has been in town all week. He has been looking over the country for speculation. He is accompanied by his wife, her mother and father.

We learn that Jacob Schmilling has sold his small vineyard in the southern part of town to a Mr. Braendel, of Albina. Mr. Braendel intends to bring five or six German families to our town to make their future homes.

The democrats have had control of Jackson county's affairs long enough and the Republicans will make a strong fight to carry the county at the June election. Give the Republicans a show and the county debt will diminish.

In Portland, Maine, where the usual Republican majority is about 500, the democrats and prohibitionists fused and nominated Neal Dow, the "father of prohibition," for mayor. Reports from that city state that Dow, democracy, and prohibition was defeated by 1600 majority.

Much mention is being made of Judge Gresham's fitness for the presidency, and it is probable that he will be nominated by the Republicans for that place. With him, the Republicans can carry Indiana, New York, Connecticut and New Jersey, which means a grand Republican victory.

The democrats of Lebanon want Cleveland for president and Gov. Pennoyer for vice-president. Cleveland, it is said, wants Oregon, and he may get it by favoring Pennoyer for the second place. This would be a good combination to get defeated in Oregon—Herald-Disseminator.

The literary society still flourishes and an interesting time was had last Saturday evening. Officers for a term of four weeks were elected. They are: President, G. H. Watt, Vice President, Miss Hattie Reames; Secretary, Miss Hattie Newbury; Treasurer, John Jeffery; Censor, Frank Neil.

San Francisco, March 12.—The Southern Pacific Company have now decided to build a line from Montague, California, on the Oregon & California railway, to Shovel creek, on Klamath river, via Linkville and Klamath lake to Eastern Oregon and Idaho, for connection with the Oregon Short Line.

Within four weeks four sets of twins have been born in Yreka and the immediate vicinity. The latest to be doubly blessed is Mr. and Mrs. Johnson, who reside on the Little Shasta road. Their home was likewise favored once before, making four children in fourteen months. Talking about climate, what's the matter with Siskiyou?—Union.

The much talked-of prize fight between Sullivan and Mitchell took place in France last Saturday. They fought thirty nine rounds and the fight was called a draw on account of the rain. Mitchell would not give Sullivan any chance to knock him out by running around the ring, but at times made it pretty warm for the man from Boston. John L. is the boss yet.

The hop men cut a sorry figure these days. Many voted against the prohibition amendment believing that hops would bring a better price, but now they see they were badly sold. Where are those men who were looking for land up in Jackson county, to start vineyards in case the amendment was defeated? Oh, what fools we mortals be.—West Side.

Don't be alarmed about Jackson county and our vineyards. They are all here yet and thousands of acres more will be set out in vines this year. The last sentence should read: Oh, what fools we mortals be for voting for and supporting such an amendment.

Mr. Wm. Dunbar, who lately returned from China, has orders to send several tons of Oregon butter there as soon as the price is low enough. There is a market over there for a large quantity of butter, which is supplied chiefly at present from Holland and Italy, the butter being put in tins. This coast, being so much nearer, should supply that market, but Oregon is not likely to do much toward it, as we are importing large quantities of California butter at present. When Oregon can manufacture more than enough butter to supply the home demand, a profitable trade can be built up with China for the surplus.—Oregonian.

One of the necessities of Jacksonville is hotel accommodations to meet the wants of the traveling public. Latest indications from the East are that the coming summer will see an unprecedented tide of travel over the Pacific coast and if we hope to catch any of the pecuniary benefits of it we must be prepared to receive and accommodate it. P. J. Ryan has neatly fitted up his four story brick hotel to rent, and a wide awake business man with the necessary experience and a small capital would find it an investment that would undoubtedly prove profitable. It is to the interest of the town to offer to the traveling public every inducement to visit Jacksonville, and the increasing value of grape and fruit lands in this vicinity will soon give us a permanent population that will assure us of future prosperity. By all means give the town the best hotel accommodations possible and the patronage of the public will be assured us.

Several enterprising Portlanders have hit on a novel plan for advertising the city and state. It is the intention to organize a splendid band of from twenty to forty musicians. It is to be called the Portland, Or., Brass Band. None but the finest musicians will be allowed to join, as it is intended to make it as fine a band as can be gatherd together on the Pacific Coast. It is calculated that the band and expenses of the tour will foot up at least $20,000. With this band grand concerts will be given in many of the principal Eastern cities. In some of the larger places a stay of from one to two weeks will be made. During the concert, descriptive circulars and other reading matter will be distributed. The programmes will also contain brief paragraphs telling of Oregon's climate and resources. A brief lecture will be given by the agent, who accompanies the band, on the "land of red apples." It is calculated that more good solid avertising can be done for Portland and Oregon in this than in any other way.

With this issue the SENTINEL ceases to to exist, at least for the present. It is more than possible that had Republicans throughout the county stood by the SENTINEL it would not only have lived but would have grown in size and quality. Now it will be seen how much a local party paper is needed to watch and correct abuses that must surely creep in. Any party that is long in power must of necessity become more or less corrupt. An even balanced condition of parties will insure a more perfect honesty of officials and correct administration of affairs. Education and bigotry are perfectly incompatable and as a consequence we may expect that a large portion of the rank and file of the democratic party will be counted to live and die under the old banner no matter what principles or leaders may exist. There is no doubt but the battle to be fought in the political field this year will be the most important that has occurred for years. The struggle will decide more or less whether the great principles of protection to our industries shall be a thing of the past or not. Should the theories of the Cobden club so much desired by England and Europe prevail we may look for financial depression, poverty, and distressing labor troubles. For our part we cannot see why the Southern States can not see how necessary it is to foster their infant manufacturing industries. Under the fostering care of the protective tariff they have made wonderful strides and phenominal progress. The SENTINEL in the past has been found in line advocating such principles and supporting such men for office as were in perfect accord with the principles of the "Grand Old Party."

As a last parting admonition those young men who are about to cast their first vote we would say, examine well the situation, read carefully the history of the political acts of the flow existing parties and then decide. If you judge the future by the past you can easily determine with which party you will vote and the issue will not be uncertain. One who runs may read who are the men who are pulling the wires for selfish motives only. "Ex Unque Lionum."

### MARY'S LITTLE LAMB.

Mary had a little lamb,
Its fleece was white as snow,
And built a little tariff pen
To keep it safe you know.

But Roger Mills, he came along,
An ugly boy was he,
And smashed the little tariff pen
To let the lamb go free.

And in the night an English wolf,
As silent as a clam,
Came prowling around the broken pen
And killed the little lamb.

Then Mary wept, but hopeful said,
"I'll have free wool at least!"
"And so you shall," said Roger Mills;
So said the ugly beast.

But when she went to get the fleece,
The wolf was sitting on it;
"Come on," said he, "and get your wool;
I've fixed my price upon it."

So Mary traded with the wolf,
And roundly did she pay;
For that dear fleece she fed the beast
A twelvemonth and a day.

### MEDFORD NEWS.

[Southern Oregon Transcript.]

Central Point has a couple of candidates for county offices.

Medford appears to have its quota of candidates for two of the fat places.

W. N. Ladue of Salem, spent a day in Medford last week.

N. A. Jacobs is duly announced as a county clerk candidate; ditto Chas. Nickell; ditto et al.

Just the kind of weather, this, to retard the progress of the on coming fruit, and release it after all danger of frost has passed.

Would be candidates who begin already to raise the hue and cry about sticking to the nominees of the convention, may be trusted to have the big end of half a dozen combinations.

The voting of the money to build the road between Jacksonville and the railway was a good thing to do, but to collect from citizens of a town, money with which to build a road outside that town, will be rather a new thing.

Proposition to place lamp-posts at the corners of our principal streets, will be introduced at the next meeting of the council. This, a much needed improvement would give our city a fine appearance. A committee has the matter in hand.

Mr. Shultz who is to build a flouring mill at this place has purchased of A. S. Jacobs, a half interest in the property known as the Riddle House. He is making a bid for the balance of this fine property, and if he can buy it, will purchase adjoining buildings on D street, and not only increase the extent of the hotel but raise the whole to two stories. Mr. Shultz will, in addition to this, erect the mill this season.

### CHINESE RESTRICTION.

WASHINGTON, March 7.—The new convention between this country and China is practically completed. It has been the subject of more or less correspondence between the Chinese Legation and the State Department for a year and a half. It is barely possible that it may be sent to the senate on Thursday of this week.

The utmost secrecy has been observed regarding the treaty, but in a general way it may be said it will be so framed as to positively prohibit the further importation of Chinese laborers. The present law restricting immigration for a period of ten years from 1882, will be extended six additional years. In other words, the restriction will extend ten years from the present date.

The convention will also include a clause to indemnify Chinese subjects for loss to life and property suffered by them on American soil. The amount of this indemnity it is not possible to state with accuracy, but it is believed to be less than $500,000.

It is understood that the new treaty will give Chinese owning real or personal property of the value of $1000 or upward certain privileges in respect immigratin that are not enjoyed by their less fortunate brethern, and that the same clause will be further broadened in other particulars.

The Sub-Committee of the House Committee on Foreign Affairs have agreed to report a bill to give effect to the Chinese treaty, which will be submited to the Senate by the President in a few days.
