DR. M. Heinimann, corner of Kearney and Pacific street, San Franciaco, has, for a number of years, in the military and other hospitals of France, devoted his study principally to the treatment of Secret Diseases, and therefore possesses a through experience in this particular branch. He is also perfectly familiar with all the recently discovered and highly important remedies and means for the cure of such diseases. It is seasoely necessary to add here that in France, where secret diseases are of more frequit occurrence than any where else, the physicians of that country are the most expert in their cure, and are constantly and successfully endeavoring to find out new remedies, more efficient and less dangerous than those formerly used.
