TOWN AND COUNTY.

WEALTH OF CLACKAMAS COUNTY The events of the day are demonstrating the correctness of the views that the county of which Oregon City is the capital has more importance attached to it than any other county of the State. Commerce and navigation de not affect us, nor are we dependant upon mineral wealth, or agricultural resources. These we have, true enough, but the chief characteristics are based upon the unsurpassed water privileges in the county. This, at Oregon City, is abundant enough to supply manufactures more than equal to Lowell and Linn, Massachusetts, and the use already made of a portion of it is evidence that it will be availed of largely in future years. At Oswego the Oregon Iron Company have already started an enterprise which is more promising than any similar establishment upon the Pacific Coast. The iron beds in that locality are inexhaustible. and the water-privilege very greatly superior to ordinary privileges. Milwaukie also enjoys the facility of an abundance of water for the purposes of manufactures, and already has works which would be a credit to larger communities. The mountains to the East of Oregon City contain gold, but this is a secondary consideration. In agri culture the county is very rich. There is lows: scarcely an acre of ground in the county that will not prove valuable under proper cultivation, and as an evidence of the fact we would refer strangers to such farms as that of Mr. Samuel Miller, two miles west of the city, Mr. L. D. C. Latourette two miles east of the city, Wm. Barlow, ten miles south of the city. Judge Matlock, north whight mention

THE CHINESE, -There is no stain upon the community of Portland half so bad as that caused by the presence of so many disreputable Chinese haunts on the principal streets. Why they have been permitted to exist so long is quite unaccountable to us, but there they are. "You cannot extract blood from a stone," says the old proverb, but the good people of Oregon City say they can compare chaos with nature and point out the measure of conformity. The Chinese have attempted to show signs of life here, but with all earnestness their dens were vanquished, and we shall be spared at least for some time from witnessing their shameless exhibitions by candle light along these streets. The citizens of Oregon City are right in this, and while we may be collectively classed by the Celestials as "barbarians" in the worst sense, it is yet very refreshing to realize that we all know more about roses, cabbages, and garden vires, than they of the Flowery Kingdom give us

A Cotton Factory.—Oregonians have felt much chagrin to think that California took from among us the man, and put into successful operation the pioneer cotton factory of the Pacific States and Territories. But we take great pleasure in stating that strong indications favor the prediction that we shall next year witness the erection of a forward a copy to the Secretary of the Cackcotton mill in this city. Many of the prominent citizens have taken the matter into serious consideration. Cotton of a superior quality is now raised in the Sandwich Islands, and there are already two lines of vessels in the trade with Oregon. That the business would prove profitable none can denv. Many such opportunities only await investment to make this the Lowell of the Pacific. Let the day soon come.

SNOW PEAKS. - We can point the lover of the beautiful of nature to a site not far from Oregon City, just west a mile or so, where he can see a picture which it is truly an inspiration to look at. A view of the Cascade range from the portico of the farm house of our friend Samuel Miller, taking in the snow-capped summits of Mounts Hood, Jefferson, St. Helens, and Ramier, affords a better text for a criticism upon landscapes than any that ever can be thought of by seeing paint and canvas. The subject will be drawn from nature, and it will be very pretty to all who have true discrimination. A ride in that direction would prove a delightful excursion for ladies and gentlemen.

GRAIN SHIPMENTS .- There is now aged three trips each to Salem for some weeks, and they will soon be running to Albany, and other places farther up. A triend at Albany writes to us that every farmer in that vicinity has his granery literally full of grain awaiting shipment. A year ought to find a market in China and Europe. The bulk of wheat being sold is for home consumption, or stored for speculative purposes.

Town Lors. - Messrs. J. C. Trullinger & Co. of Oswego, have had their land claim surveyed and laid off into lots, along the river, which are now selling at very reasonable rates. The high prices asked for lots in Oregon City in the early days, is what gave the town treelve miles below such a sudden start. Messrs. Trullinger & Co. realize what the future of Oswego is to be, very likely, and will not put an obstacle in the way of its prospects by taxing the new comer so heavily as to forever drive him

BASE BALL.-The Pioneer Base Ball Club of Portland paid our city a visit on Saturday the 13th, and participated with the Clackamas Club in a match game. The day was pleasant, and the playing fine. The first two innings put the Pioneers far ahead of the Clackamas Cub, and won them the game, although the last seven innings were performed much better by the Clackamas Club It will be seen that the Pioneers returned with two straight blinds on their score. The following runs were made

WEEKLY COMMERCIAL REVIEW.

Office of the Weekly Enterprise, Oregon City, October 26th, 1866. By the steamer Pacific which arrived at Portland on the 24th we have dates from San Francisco to the 20th, and from New York to Sept. 21st.

The New York money market was easy throughout, and loans to the Stock Exchange were made at 4 a 5 per cent, the majority of transactions being at the lower rate, while first class commercial paper was freely taken at 5 a 6 per cent. Notwithstanding the activity of trade in all its branches, such was the abundance of money that very little credit was asked for, and hence the amount of paper making was small. In the dry goods trade there had been a large business doing for some weeks, and although the domestic manufacturers were marketing their goods as fast as they could and the foreign importations continued heavy almost beyond example, the demand kept pace fully with the supply and domestic fabrics are reported scarce. Prices, meanwhile, will remain about steady.

One of our leading commercial exchanges, speaking with regard to business at this time

in New York, says: The hotels are crowded with buyers from every section, those from the South and Seuthwest predominating. The solid, substantial business men are thus rapidly cementing the Union, in spite of the politicians and demagogues, and it is somewhat surprising to note the general good feeling | Please give me a call. No trouble to and fraternization which is everywhere manfest on the part of "Northerners" and "Southerners" From the manner in which they transact business, and the mutual respect which is manifest, it would scarcely be believed that the two sections were so lately at war, or that the peace of the country is still threatened by demagogues. Commerce and trade are the best guarantees for continued peace, and the business men North and South are by far the best " reconstructionists" to be found. Their interests are identical, and they have a common interest in the maintenance of harmony and in the perpetuation of the Union. Hence the country is in a fair way of being "reconstructed" on a firm and lasting basis, if only the politicians and other disturbing elements can but be kept down.

The markets of San Francisco are very active, according to our reports, and rates are generally higher. Wheat and Flour continue in active request for export at bardening prices, while Oats and Barley are more sought after at current rates.

The markets of Portland are unusually dull, in consequence of the bulk of the fall trade with the mining regions being past. The barks A. A. Eldridge and Jane A. Fulkinburg have been preparing for cargos for the Sandwich Islands during the past week, and the Alfred Crosby has also taken a cargo for Victoria, besides which the regular lines of steamers have taken more or less breadstuffs for California which created a little activity for some days. As will be seen by reference to the advertising columns Messrs. McCraken, Merrill & Co., are yet taking freight and passengers for Honolulu, by bers of the Club by Capt. Baughman of the | both the Eldridge and Falkinbu q, A No. 1.

It is gratifying to witness the progress making in the trade with Honolulu. We Will find Mill-saws, Cross-cut-saws axes, etc. understand that a permanent arrangement has now been effected by which Messrs.
