Home made Agricultural Implements.

Nearly all the agricultural implements used upon this coast are manufactured on the other side of the continent. We make a few plows and an occasional harrow, and sometimes turn out a wagon, but the reapers, mowers, rakers and threshing machines, together with a long list of smaller implements, are brought around the Horn, and of course are sold at a handsome profit.

THE WEATHER.—This very popular theme has been the topic of conversation in this vicinity for a week. The weather has been delightful. We have not felt that it was Winter, but more that Autumn was wandering on down the descending path.

LET US HAVE ONE.—Since the volunteer fire department of San Francisco has been disbanded and a paid one substituted in its stead we learn that hand and steam engines, with jumpers and carriages, can be purchased at extravagantly low prices.

WATER CURE ESTABLISHMENT.

Cures Without the use of Medicines! Fourteen Years in San Francisco. PIONEER WATER CURE, AND "Dr. Bourne's Baths!" Perfect Cures Guaranteed, according to agreement in all cases.

For the Cure of Neuralgia, Paralysis, Rheumatism, Bronchitis, Consumption, (incipient), Dizziness, Fever and Ague, Sore Throat, Erysipelas, Colds, Coughs, Oak Poisoning, (for which Dr. Bourne discovered the only scientific and permanent cure), Dyspepsia, Dropsy, Scrofula, and the removal of Mercury and all other Mineral Poisons, etc. The methods adopted by Dr. Bourne are the most pleasant, the safest, the most reliable, and the most successful.

Throughout this Coast a great deal of suffering is experienced from protracted and aggravated misery is endured by the victims of medical inefficiency and ignorance, which could be cured just as speedily as was Mr. Joseph Sparrow's, if the testimony is given below, and is only the echo of hundreds of other cases. Dr. Bourne cures without medicines, and without any assistance, and is only the echo of hundreds of other cases. Dr. Bourne cures without medicines, and without any assistance, and is only the echo of hundreds of other cases.

Dr. Bourne's Water Cure. I suffered the most excruciating pains for about five weeks, without any hope of relief, when a friend, hearing of my illness, called to see me, and assured me that if I would stop "drugging and dosing" and go to you, that you would have me walking about the streets in the course of a few days, although I was utterly helpless, and conveyed to your house in a carriage, and carried into the bath, and the carriage, on the fourth day I discharged my carriage and walked, with a friend's aid, the entire distance to your house (nearly a mile), and home again, and so on, until I was cured. I do you this little service, of publicly certifying to the simple truth, leaving it to its work among my friends and acquaintances as may please to see.

CONSUMPTION! An Interesting Letter. Very few persons, even among physicians, would have been willing upon any terms to have been in the condition of the writer of the following letter on the 14th of February last. I will anticipate somewhat his report of the facts by saying that on the 13th of August he made me a visit, and the picture of good health. Time, which tries and proves all things, has sufficiently tested this case, and shown that neither relief, nor collapse, nor any other ailment, is perfect, and can be cited among the scores of similar cases the result of my improved mode of treating diseases without medicines.

Dr. G. M. BOURNE—Dear Sir—It is with pleasure and satisfaction that I now let you know of my good health. Looking back upon what I have passed through, it seems as if I had been lifted from the grave, and I think it my duty to acknowledge you and the world the benefit I derived from a water treatment administered by you in your celebrated baths. It was in August 1864, when disease had done its worst, and I was so weak that I could scarcely walk, and I then took medicines, getting worse with each fever, loss of strength, and was produced a complete prostration, and I was finally determined to leave my business and go to the Sandwich Islands, having been informed that I could not be cured here. I went to San Francisco, and while waiting for a ship called upon Dr. Bourne, who stated that a trip to the Islands would probably result disastrously, and was wholly unnecessary, and that he could cure at his establishment. I placed myself under his treatment, and in one week was so much improved I thought I could risk returning home and resuming my duties on the Central Pacific Railroad. The Doctor objected, but I thought I knew better, and returned to duty. In about two weeks my cough returned, and I was kept getting worse, and contrary to Dr. Bourne's injunction never to take medicine again, committed that folly, and soon was so weak that I was unable to get on my feet, and I was finally cured at his establishment. I placed myself under his treatment, and in one week was so much improved I thought I could risk returning home and resuming my duties on the Central Pacific Railroad.
