Notice .- There will be a meeting of the subscribers to the capital stock of the Oregon City Printing and Publishing Company, at the County Clerk's office, on Saturday, the 29th of December, 1866, at 7 o'clock P. M. By order of the INCORPORATORS. Oregon City, Nov. 24th, 1866.

BLUFF STREET .- One of the long-time residents of Oregon City sends us the following for publication. We deem the suggertions appropriate, and hope they may be favorably looked upon by the city government: "As there appears to be some diversity of opinion in reference to the street next to Main street, under the bluff: viz: Whether there is a street there or not; would it not be well if the city council would let the citizens know whether they have bought and are holding their lots according to the Applegate map, or the A. Lee Lewis map? The Applegate having crossed the Plains in 1843. All the lots in Oregon City, for several years after his map was made, were sold with most positive assurances from Dr. Mc-Laughlin that the plat of lots and streets, as laid down on that map, would be adhered to by him. If there is a new map called the A. Lee Lewis map, and if it is recorded as such and the city is bound by the record, so be it and let all hands cry "amen!" But if the Applegate map is the surveying ground of the lots and streets in Oregon City, why will not the city save money by paying Mr. Applegate for a duwhen last in Oregon City, that he had his field notes of 1843-44. That there was a street indicated between the bluff and Main street, is self evident to my mind, as many lots were sold fronting toward the east, and no man of sense would purchase a lot with his frontispiece boring into a rock-except he be a miner, and I never heard those lots were purchased with this intention-and with no chance of catlet except by the rear, and that again only by and with the permission of his neighbors on the front towards Main street. If there was no Bluff street, of what use were the alleys and streets leading east from Main street? I submit these suggestions for what they are worth."

LYCEUM.—The question: "Shall the U. S. extend an immediate protectorate over the Mexican Republic," was ably argued before the Lyceum of this city on Tuesday evening last. The Chairman remarked, at the close of the debate, in substance -that the question had been so ably contested that it made it difficult for him to decide, nevertheless, he held that the affirmative had the best of the argument, in showing that the United States have a right political economy to meddle with Mexican affairs at present. The next question for argument is in regard to Capital Punishment, but being Christmas, it is probable the Lyceum will not meet on Tuesday evening, but in imitation of the National Congress will "adjourn over for the holidays."

Christmas Time.—Before another issue of the Enterprise, Christmas will have passed. Old Cris Cringle has already began his work informally in this community, by filling his depot, at the Lincoln Bakery, and other established headquarters. replete with toys, preparatory to dispensing his gifts. This is a good old-time custom. which annually springs up Phonix-like in the freshest youth, reminding older heads of what they have just buried. The ancient custom of erecting Christmas Trees, in parlor and church, will be carried out in this city, on Monday evening, at various Hand which prospers them.

STOCK TRANSFER.—Mr. D. P. Thompson. of this city has has disposed of his interest in the Woolen Factory, we understand at a handsome premium. The operation inecluded an amount of \$13,500. Messrs. Brown Bros. of Walla Walla, were the purchasers. The county can lose nothing by the transaction, as Mr. Thompson is still greatly identified with interests here, while the transfer brings another to become in like manner identified with our increasing prosperity.

Is it Right !- Young gentlemen and ladies of Mount Pleasant feel themselves linjured, because of a change in the programma for the Christmas festivals in that neighborhood. They selected Christmas evening, it appears, for a social reunion among themselves, when the evening for the Christmas Tree festival was changed designedly to interfere. It is not our provmuch question it as being right.

City Affairs.

I promised in my last communication to keep you and the public posted on the subject of the city fire department. Since that date I am glad to say there is a fair prospect of a water company being organized. The drafts and plans will be submitted for approval at next meeting of the city council, and I have no doubt will be accepted. The sooner such a necessary enterprise be perfected the better. Last week we came near having a conflagration followed by a fearful howling of "no water," "no engines," "no ladders," "no nothing." and a little fault finding at the filling up of the cisterns. Pray what can filling up of the cisterns. Pray what can be done with rotten cisterns and a broken Screws, Fry-Pans, Sheet Iron, R. G. Iron; engine that can hold no water? It is true any excavation will hold water in winter. A Large assortment of Groceries and Liquors. but must necessarily recede when the rain ceases. Such idle palaver is not what the city needs. Let the citizens meet and organize a hook and ladder company : resuscitate the fire company; and by the time these are fully organized the water pipes and hydrants will be ready to make. the fire department complete, and second map was made in 1843-44; Mr. Applegate to none on the Pacific coast. Let no selfish motives thwart such necessary im-provements. It will pay property holders 100 per cent. on their real estate, so let every citizen give a strong pull, a long pull, and all pull together.

Essence of Jamaica Ginger. Cares Without the use of Medicines !

THIS VALUABLE PREPARATION, CON-Laining, in a highly concentrated form, all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs. As a tonic it will be found invaluable to all

persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind. It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to nausea, caused by sea-sickness, etc. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc. REDINGTON & CO. 6mar80] Sole Agents for the Pacific Coast.

Dr. Bourne:—Last Winter I was nearly dead, by an actack of inflammatory rheumatism. I suffered the most exeruciating pains for about five weeks, without any hope of relief, when a friend hearing of my illness, called to see me, and assured me that if I would stop "drugging and dosing" and go. to you, that you would have me walking about the streets in three days. Sure enough, Are made from FRESH FRUITS. Each although I was utterly helpless, and con veved to your house in a carriage, and carried into it by three stout men, and by them lifted into the bath, yet, on coming out of it, I largely assisted myself, doing much towards dressing, and, without assistance, walked from the bath to the carriage. On the fourth day I discharged my carriage and walked, with a friend's aid, the entire distance to your house (nearly a mile) and home again, and so on until cured. I felt myself a well man. And now I am happy to do you this little service, of publicly certifying to the simple truth, leaving it to do its work among my friends and acquaintances as may chance to see this.

Your friend,

JOSEPH SPARROW. CONSUMPTION!

An Interesting Letter. Very few persons, even among physicians, would have been willing upon any terms to have been in the condition of the writer of the following letter on the 14th of February last. I will anticipate somewhat his report of the facts by saying that on the 15th of August he made me a visit, "the very pic-ture of good health." Time, which tries and proves all things, has sufficiently tested this case, and shown that neither relapse nor collapse have followed, the cure is perfect, and can be cited among the scores of similar cases the result of my improved mode of treating diseases without medicine.

G. M. BOURNE, . Water Cure Physician, No. 10, Masonic Temple, Post street.

SACRAMENTO, April 30, 1885.

Dr. G. M. Bourne-Dear Sir :- It is with pleasure and satisfaction that I now let you know of my good health. Looking back upon what I have passed through, it seems as if I had been lifted from the grave, and I think it my duty to acknowledge to you and the world the benefit I derived from water treatment as administered by you in your celebrated baths. It was in August 1864, when disease developed itself with a severe cough. I then took medicines, getting worse with chills, fevers, loss of strength, and was pronounced consumptive. This set me to thinking, and finally I determined to leave my business and go to the Sandwich Islands, having been informed that I could not be cured here. I went to San Francisco, and while waiting for a ship called upon Dr. Bousne, who stated that a trip to the Islands would probably result disastrously, was wholly unnecessary, as I could be speedily cured at his establishment. I placed myself under his treatment, and in one weel was so much improved I thought I could risk retuening home and do my duty as Engineer on the Central Pacific Railroad. The Doctor objected, but I thought I knew better. and returned to duty. In about two weeks my cough returned, and I kept getting worse, and contrary to Dr. Bourne's injunction never to take medicine again, committed that folly, and soon was so completely run that folly, and soon was so completely run down that I could scarcely walk; so, as a last resort. I concluded once more to try the Water Cure. I went to San Francisco—few of my friends expecting me to return; in fact I thought my return doubtful. On arriving at Dr. Bourne's establishment (Feb. 34, 1865) I was not able to get into the bath without assistance, but in a few days I began to recover myself again. I remained with him only six weeks, when I felt a "wiser and better man," without the aid of medicine. I have now been at work several weeks, and find that I am gaining every day and at present bid fair to be stouter than ever before. Persons visiting the Doctor's establishment find it just what it should be. both in the Ladies' and Gentlemen's Departments, and I cannot say too much in praise of the Doctor's kind attentions to his pa-

Dr. Bourne treats all diseases of the throat, chest and lungs-which includes diptheria, bronchitis, incipient consumption, pleurisy, croup, etc.,—with great success. Great relief is afforded in advanced stages of consumption. Rheumatism, paralysis, neuralgia, fever and ague, dropsy, etc., etc., are

Dr. Bourne takes the liberty to publish the *above as many persons had prophesied his relapse into his former condition, on returning to his duties, of the writer of an "Interesting Letter," whose statements concerning the cure of a well defined case of consumption have recently attracted so much attention to the Water Cure, as improved upon and practised by Dr. Bourne. This additional testimony must prove satisfactory to all reasonable minds. It should be remembered that Dr. Bourne uses no medicines whatever, and that his patients almost universally are those who failed to receive relief from the medical practitioners; yet they are cured with great rapidity, and in a pleas-
