### TOWN AND COUNTY.

Crif Council .-- On Monday evening last the City Council met for the transaction of business-Mayor Barclay presiding, and a the unprecedented flood of 1861-'62. Notwithstanding that the People's Transfull board present.

The committee to whom was referred the proposition of Messrs. Kennedy & Zig-ler to lay a certain class of water pipes through the city, reported adversely, and the report was accepted.

Hon. W. Cary Johnson asked the Council to make an agreed case in Court, to test the legality of taxing the personal estate of W. C. Dement, which request was granted.

A petition very numerously signed by land, during the highest stages of water citizens, asking that the order to open the alley through block 25, between Fifth and Sixth streets, be rescinded, was received. By permission of the Council Judge S. Huelat spoke at some length in the interest of the petition, and presented some pointed arguments to show that there was no necessity for the enforcement of the order at the present time.

He was followed by members of the Council, pro and con, the arguments for recurrence of the like for many years. the opening of the alley being based upon The Basin has stood the floods without the hypothesis that if there was an alley there it should be opened, and the legality of the order should be tested at once. In order that this might be effected o

On motion of Mr. Apperson a committee of three was appointed, empowered to employ a surveyor, and take such other steps these improvements. We think the P. T. as they deemed necessary, to determine whether or not such alley existed, is lines, etc., and report the same to the Council, Through the indefatigable energy of the prior to the March term of Court.

Messrs, Thompson, LeRoque, and Barlow, were appointed such committee, and submitted a report on Wednesday evening favorable to a remission of the previous order to open the alley, and the report was adopted.

THE P. T. COMPANY .- The high water in the Willamette river, at and above this city, for the winter of 1866-'67 may now be said to be over with. Yesterday the water had fallen nearly eight feet at Canemah. During the past week it has been at its highest, and to within four feet of portation Company have met with some delays and difficulty in navigating the river above us, some of their boats-those on the longest routes-have not in the least been discommoded. They have received and discharged their freight at the company's warehouse on every return trip. Those steamers employed on the shortest routes, to Salem, Albany, etc., have made

their regular trips to and from Rock Isexperencing a little trouble, but only for a space of time equal to about two trips. This shows conclusively enough that. even with the doubts of the public regarding the improvements of the company at this city, those improvements are all or more than the company expected of them. The wat r has remained longer at its leight this season, than ever was known before, and in all probability we shall not have a

perceptible injury, and as we have before stated, stands as firm aso the rocks upon which it is built. There being no danger of the company ever meeting with worse delays than they have experienced this winter, we hope to see them continue Company are deserving of great credit President and Directors, whom our Portland correspondent characterizes " shrewd squad of well managing and economical old Oregonians," they have
