OREGON CITY SEMINARY.-As indicated on the 22d. We were rather late in our attendance, for listening to the reading of the Gazetie by the boys but heard with interest the reading of the Majao'in papers, by the girls. We should also have been pleased to bear some of the class exercises. But in this respect we have been assured, and from what was seen we doub not correctly, that in the various classes the scholars acquit themselves well uni formly. From those who know we are informed that there is a general and rapid progress among all the scholars in their studies. It has been the object of the teachers. Messrs. Pope and Rand di and Miss Pamburn, to make the Oregon City Seminary second to no public or private school in the State and we think they should certainly be pleased with their success thus far. The Principal bimself personally vouches for the good behavior of the pupils, in the different rooms of the building. There is a mack of respect paid to the feachers which shows the well doing and satisfactory encouragement of all. As before starch the parents of the scholaro seem to take very little in crest in educa tional matters. We can assure parent that there is no reason why they should be O ashamed of their children in the school room and it is certainly to be expected that the purent is the first who should take an interest in this particular welfare of his or her own ched if they would be careful@n keeping a knowledge of the fact that an occasional visit to the school no only encourages the scholar but stroubles the teacher we think they would oftene visit the Seminary in this city. The institation is one or which we all should feel a pride? On the 12th of next mon h the present term closes. There will be no public exhibition, but the boys and g ris will produce another reading of their compositions -or contributions to the May notia and the Gazene.

EUTTE CREEK COAL .- Frank Cooper, of O Salem has sent us a large specimen of Entre Creek coal. It is qui e gassy. Frank has seven y live tons on: ready for deliv- bany. Leaving all descriptions of Cooper cry as soon as the railroad is built from Oregon City to the mine. Seriously we do in nk this is a good thing. The coal seems better to us than any we have seen in Oregon. We wish the company every success, and hope they may has en matters Of he few tan- the company have out, is only a beginning of the work of tunneling the mine -as the development progresses it is reasonable to suppose that a better quality of coal will be produced. The vaine of such a mine so near to Oregon City our cit zens will read ly see. In the acticle proves to be what is desired it can be shipped to Portland for use in the Chas-Company's works or foundries at less ex-• nense than they can obtain coal from any other source. We wish to see the Lutte Creek Coal Company soon erecing large docks along our river front, and depaleh ing their tigh ers daily for the Emportum Mar or Currendsville. -Mr. J. M. Bacon

County Clerk, has received a map of Cut tingsville-similed on Milk Creck four teen miles southeast of Oregon City-for record. In a private note Mr. Charle-Cutting Sr. pappre or of the place says "Any mechanic was desires to go in o business at Undangsvide, and war construct a building for such purpose can Chave one lot or a half acre in size free or charge." This is a liberal proposition and no doub' there are many persons who will find it profitable to accept of the offers. On tingsvide at this line has a good flouring mil, and one stole. It is upplied with a choice little water privilege, and is surrounded by a good agriculand country. The loss or blocks are aid off in nearly squares. Desperado Arrested.—On last Tuesday evening a party of gentlemen arrived in his city on search of a man named James Gorden Soper, who had assaulted Mr Robert Warren, a farmer of Lann county and hearly killed him on the afternoon o. Sa under while Mr. Warren was plowing the party proceeded to Fordand. On the day Marshal Ryan discovered the culprist riding into town, and immediately took him in custody, and after the usual preminaries proceeded to Albany with him seputy Sheriff Brandenburg of Lann ounty, arrived about halr an hour after he ar est. From him we learn that the assault upon Mr. Warren was unprovoked except so far as a desperate character might take umbrage at the course of law when pursued for just debts. It appears but there was some business transactions between the arties by which Cooper be same indebted to Warren. The former was about to reave the State, and the later began suit to recover judgment for his lues. Cooper then most like v took the course he has pursued for the purpose or getting even. As he was locked up by daeshai liyan he assumed considerable sang froid and coolly told the Murstal that Horse Shoes, Files, Easps, aws; he wanted ham and eggs for breakfast and Screws, Fry-Pans, Sheet Iron, R.
