The Weekly Enterprise
Oregon City, Oregon.
Saturday, June 30th, 1867.

In answer to Mr. T. S. Shook, the postmaster of the Banks, who requested us to re-print the following notice which appeared in the Portland Press, we are glad to say that the previous notice was not printed in our paper, and that no such office of postmaster has been established.

"Postmaster, The People's Savings Bank, has been established in this city. It is a joint stock company, incorporated under the laws of Oregon. The capital stock is $50,000, divided into shares of $10 each. The dividends are payable quarterly, and are at the discretion of the board of directors. The bank is open to all, and will be conducted on the same principles of honesty and integrity as the Portland Bank, of which Mr. Shook is a director. The officers of the bank are Messrs. Shook, Gates, and Smith. The bank is situated on the north side of the river, opposite the wharf, and can be reached by boat or land. The public are invited to open accounts, and to become interested in its success. Mr. Shook can be seen at his office, and will be happy to answer any questions that may be asked."

In regard to the alleged discovery of gold in the vicinity of the Columbia River, we have been informed by Mr. J. H. Stiles, of the Oregon City Herald, that the report is entirely unfounded. He states that there is no evidence of gold being found in the vicinity, and that the reports are based on mere rumor and conjecture.

We are also informed that the "Polecat" has been heard in the vicinity of the Columbia River. This is the first time it has been reported in the vicinity of this city, and the people are much excited by the news. The "Polecat" is a large, fierce animal, which is said to be capable of inflicting great injury to man and beast. The people are advised to take precautions to prevent its approach.

We have received a letter from Mr. W. H. Brown, of the Columbia River, informing us that the water is rising, and that the people are advised to take precautions to prevent damage. We shall endeavor to keep our readers informed of all important events in the vicinity.
