Ere they started Genius hinted That by some unlucky blunder, Whilethey journeyed through the kingdoms They might chance to get asunder.

"And," she said, "it seems but prudent, Should we break our pleasant tether, Some device should be suggested That may bring us three together.

(3) As for me-if from my sisters I should chance to prove a roamer, Seek me at the tomb of Virgil, Or before the shrine of Homer."

Virtue said, "It I am missing, And you deem me worth the trouble, Seek me in the court of monarchs, Or the dwellings of t enoble."

" If among the high and mighty You shall fail to find me present, You may meet with better fortune In the cottage of the pensant !"

"Ah!" said Reputation, sighing, " It is easy of discerning Each of you may freely wander With a prospect of returning!

* But, I pray you, guard me closely, For, despite your best endeavor, If you miss me for a moment, I am lost -and lost forever!"

FARM ITEMS

-Persons going east should watch the sailing of the opposition steamers. -Looking to others for our stand-

ard of happiness ss a sure way to be miserable. Our business is with our own hearts and motives. -A Farmer near Lawrence, Kan-

sas, raised this year 80 acres of corn, with 80 bushels to the acre; 20 acres of wheat, 30 bushels to the acre; and 10 acres of potatoes, 350 bushels to the acre. Value of the crop, \$5,435. -In the vicinity of St Louis, Mo,

a farmer is said to have raised 565 bushels of Boughton wheat from fourteen bushels of seed-a little over forty bushels from one. This wheat is well spoken of for rich land.

-The Illinois Central, in. August, alone. Its fruit business is large, and increasing rapidly. No road covers so many varieties of climate, and nowhere are they more promptly taken advantage of.

-Mr. E. W. Stewart writes that after an experience of more than ten years, he finds two bushels of steamed | paid. hay are worth three bushels of unsteamed, and that one quart of corn meal steamed, with a bushel of straw is equal to a bushel of hay.

-The convolvulus, or bindweed or morning glory, the worst weed known in California, is overrunning orchards, vineyards, gardens and farms and threatens in many places to drive culturists from the soil. It should be the object of the Agricultu o ral Society to seek a mode of exterminating it.

-It seems that the American machines, if not first in the field, must As a Blood Purifier and Tonic for the have had some superiority over the English, for during the last five years eight thousand American reapers or mowers have been imported into Euchines have been brought to America.

-To destroy flies in a room, take half a teaspoonful of black pepper in powder, one teaspoonful of brown sugar and one teaspoonful of cream; mix them well together and place them in the room on a plate whence the flies are most troublesome, and they will soon disappear.

-For reclaiming black land, that has become stiff and waxy by improper farming, (for it will not be San Francisco California. come so by proper usage), use 20 to 75 bushels of leached ashes per acre, or 16 to 25 bushels unleached-the leached ashes contains no potash, and can have little else than a mechanical effect, to loosen and mellow the soil when thoroughly mixed.

-Mr. Jeremiah Duncan, near Paris, Ky., recently sold from his herd of Short-horns ten bulls, and 39 cows, heifers and young calves. The prices were quite high-\$1,210 and \$1,275 being the highest, while but a single animal sold for less than \$100. The list of prices as published, foots up \$14,306 or an average of \$290.53 for each animal sold.

Thirty-five tuns of milk were used in manufacturing this cheese, which weighs 7,000 pounds.

The bagging business entuils an expense of upwards of a million dollars per annum on the farmers of this coast, and will increase in proportion to their crops unless they conclude to ship grain in bulk, as is done in other cities. All this bagging is imported, the greater portion of it from Europe, so that it confers but little benefit an anybody except the importers. *

PROOFS OF THE SUPERIOR QUALITY OF THE AMERICAN WATCH WALTHAM, MASS.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than any watches in the market. They are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 500 pieces, while in an old English watch there are more than 00 parts. How they run under the bardest trial watches can have, is shown by the fol-

PENN. RAILROAD COMPANY. OFFICE OF THE GENERAL SUPERINTENDENT, | ALTOONA, Pa., 15th Dec., 1866. Gentlemen: The watches manufactured by you have been in use on this railroad for several years by our enginemen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never kept time as correctly, nor have they done as good service, as yours. In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Respectfully

American Watch Co., Waltham. We make now five different grades of watches, named respectively as follows: Appleton, Tracey & Co., Waltham Watch Co., Waltham, Mass. P. S. Bartlett, Waltham, Mass. Wm. Ellery, Home Watch Co., Boston, Mass. Boston, Mass. All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company to be of the best material, on the most approved princiole, and to possess every requisite for a retable time-keeper. Every dealer selling these Watches is provided with the Company's printed card of guarantee, which should accompany each Watch sold, so that buyers may feel sure that they are purchasing the genuine article. There are numerous counterfeits and imitations of our Wathes sold throughout the country, and we would caution purchasers to be on their
