### The Weekln Enterprise.

TOWN AND COUNTY.

Hany of our subscribers miss the Ex-TERPRISE next week lay it to the Holidays. THE LECTURE.-The second lecture of the course under the auspices of the Old Fellows, was delivered at the Court House on Tuesday evening last, by Rev. C. C. Stratton, of Portland. The subject, as announced last week, was " Eye to Eye"-and the lecture was designed to show the tendencies towards the happy time spoken of in the Scripture, when men shall see eye to eye. The lecture was commenced by alluding to the time when men were agreed upon all matters of religion and science,-when none denied or doubted the prevailing theories of religion, philosophy, geography or astronomy; but believ. ed without question what they were taught, resulting in a unity of opinion, which the lecturer designated as the unity of ignorance. This unity of opinion, being based upon ignorance, was destroyed when men began to think for themselves, and the immeli ate result of a general tendency to inv s garion was a choos of opinionwhich is to be followed by the unity of intelligence, resulting from free inquiry, free speech, and a free press The let rer insisted that there is such a thing as truth in religion and science, and that men are endowed by their Creator with minds capable of receiving and comprehending truth, and that when men come to see and know the truth there will be unity of opinion. The speaker paid a high tribute to the pen and press, as agencles in bringing order out of the chaos of thought and opinion, which now prevails, and insisted that reason and the Bible would eventually lead men to that perfection of knowldge which would enable them to see eye to eye. But we will not run between this city and Portland in immediately recorded by the proper one pretend to give even an outline of this most able and eloquent address.

a flow of soul." THE LABIES .- We have no Anna Dickinson's ner Lucy Stones in Oregon City, but we have some genuine "strong minded women," and if our ladies do not choose to display their eloguence or their wisdom in the lecture room, or on the rostrum, the fact may be attributed more to their na tive modesty and practical sense, than to a lack of ability and energy. Let any who doubt this statement look out of their windows at almost onny time in the afternoon, and see them as they hurry to and fro with determination in every movement and intelligence in every feature. They are out on errands of love and mercy, and weither storm nor fl ol, wind nor frost, can deter them from going to Selling's and Levy's and Diller's and Fleming's where they always provide themselves with something nice for Christmas; and already in shouts of the little ones, as they unconsciously praise the energy which supplied Santa Claus with so many nice presents.

Let it suffice to say that is was heard

throughout by a large and attentive

audience, and we feel satisfied that

all who heard it were both pleased

and instructed. The third lecture

will be delivered on Monday evening

next, by Hon, J. H. Mitchell, sub-

ed, and the hall is seated for the ac. commodation of a large audience. It is expected that the company will be able to give their first public exhibition sometime during the holidays. with hold it because it is a home production. We believe in patronizing home industry, whether it calls HEGO us in the shape of material productions, or evening amusements.

GRAND RAFFLE OF PURRITURE!-The chances in Messrs. Levy & are being rapidly taken, those who design to take a chance had better apply immediately, elsa their chances for the elegant bedroom sett will be very slim indeed. The furniture may be seen at the ware rooms on Main street, and it is all to be disposed of to the lucky ones - Only \$5 00 a share.

A Typo .- In addition to his many other acquirements our friend D. M. Mckenney is a deciple of Faust,and does not hesitate to exercise his skill when he finds the printers in a hurry. He will please accept the thinks of this office for a friendly moreing.

THE LATE RAINS.-We are informed in Holy Writ that soon after Noah had prepared the ark for the accommodation of its numerous guests, "the windows of heaven were opened," and it continued to rain forty days and forty nights" in consequence of which the earth was submerged-and all its inhabitants drowned-except those who were fortunate enough to have tickets in the ark. Well, the windows, of heaven were opened again, and it continued to rain only about five days and nights in this part of the world, but from the accounts we get it was fortunate it stopped so soon, because had it continued the forty days and nights-it is doubtful if any ark 1 Grecian Stand ...... could have saved us. In our own 1 Round-stand ..... city no harm was done, except the partial destruction of a culvert on Main street, unless we mention the discomfort occasioned by leaky roofs, and cellars which were unprovided with culverts. The road leading 1 Large Album..... south was much injured, and for three or four days the stage was unable to make its regular trips. The boats of the P. T. Co., made their regular trips, but were compelled to make a portage at Rock Island. Our city was visited by quite a number on next New Year's day. The money of persons, who availed themselves of the opportunity of seeing the Willamette Falls in all their granwater mark of last winter.

STEAMER LEWISTON.-This little craft mide its appearance at Caufield's wharf in this city on Monday last, having successfully passed all the dangers of the Columbia river from Lewiston to the mouth of the Willamette, including the falls at the Dalles and Cascades,-apparently lot will be drawn from each and opened none the "worse for wear." It is understood that she is designed to competition with the boats of the P T. Co., and in order to prepare for the trade she has gone to Westport to receive her upper works-which at present are of canvas, and hardly suitable for a first class passenger boat. We admire her plack, congratulate her upon her success in escaping the dangers of the flood, and welcome her to our waters.

ject, "Henry the Eighth and his Queens," We bespeak for him a CHRISTMAS. - From present indifull house, as we feel satisfied, from cations we think Caristmas will be generally observed in this city, bethe well known ability and elequence cause we hear nothing talked of but of the speaker, that those who hear him will enjoy a " feast of reason and Christmas, Christmas trees, Christmas parties, Christmas excursions, Christmas presents, and Christmas, Christmas, Christmas! There will be a magnificent Christmas tree at the Methodist Church, from which the children's time honored patron saint will dispense his beneficence to the little ones; and it is rumored that some "children of larger growth" are looking for some of his favors, and will be on hand to get their share. The Episcopal Church is being tastefully decorated for the oceasion, as is usual with that church. The ball to be given by L. Diller, Esq., promises to be a grand affair; and from all the indications we feel justified in prophesying for all our people, as we heartily wish them A MERRY CHRISTMAS

Snow .- Last Wednesday afternoon we had a little genuine, old fashioned snow. It fell in small quantities, but what there was of it imagination we hear the exalcant was the genuine article-and we prized it the more on account of its searcity.
