Monarch of pearly powder-puff Asleep in nest so cosey, Shielded from breath of breezes rough By curtains warm and rosy: He slumber soundly in his cell, As weak as one decrepid, Though King of Coral, Lord of Bell, And Knight of Bath that's tepid!

Ah, lucky tyrant! Happy lot! Fair watchers without number, To sweetly sing beside his cot, And hash him off to slumber ; His pillow when it's rumpled,

White hands in wait to smooth so nest On couch of reselenves fresh and sweet, Not one of which is crumpled ! Will yonder dainty, dimpled hand-

Size, nothing and a quarter-L'er clasp a sabre, lead a band To glory and to slaughter? And, may I ask, will those blue eyes-In baby patois "peepers"-For in the House of Commons rise,

And strive to catch the speaker's ? Will that fair brow e'er Hansard frown, Confused by lore statistic? Or will those lips e'er stir the town, From puipit ritualistie?

Impossible, and yet, maybap -Though strange, quite true it may be-Perhaps Nero once was fed on pap, And Benies was once a baby.

Though rosy, dimpled, plumb and round, Though fragile, soft and tender. Sometimes, alas! it may be found The thread of life is slender! A little shoe, a bitten glove-Affection never waning -The shattered idol of our love

Is all that is remaining? Then does one chance, in fancy, hear Small feet in childish patter. Tread soft as they a grave draw near, And voices bush their chatter; 'Tis small and new they pass in fear, Beneath the gray church tower,

To consecrate it by a tear

And deck it with a flower. Then take your babe, Kate, kiss him so, Fast to your bosom press him! Of mother's love what does he know? Though closely you caress him. Ah! what a man will be that boy.

What mind and education ! If he fulfils the hope and joy Of niether's aspiration.

FARM ITEMS

-John Johnson writes that sheep

fat more rapidly in October and November, if they have first rate pasture, than at any other season of the year. In fattening sheep during the winter, it is of special importance that they be in good condition before being put on their winter feed.

-To Pickle Cucumbers, make a pickle, one part vinegar, two parts water, three parts salt, to which add four ounces of horse radish for every half barrel. Fill the cask, or whatever vessel is to hold the pickles, half full of this pickle; pick the cucumbers with the butt of the stem on, and wipe and put them into the vessel. When it is full, place a cloth over the cucumbers, and a board, in every particular will prove so completely nicely fitted, over the cloth; a stone should be placed on the board to paid. keep the cucumbers under the pickle. When needed for use, soak and put them in vinegar as usual.

-As the recent animated discussions in regard to the deterioration of fruit trees have led to the pretty general conclusion that among other causes, poverty of soil is to be included, there is danger that the opposite will prevail with some cultivators. A fruit tree may be surfeited as well as starved, and no little care is necessary to guard against extremes in either direction. It generally results in excessive and unnatural growth, which is always secured J. L. Brownell & Bro., Bankers, 28 Broad st. Manilla and Hemp Cordage, at the expense of the quantity and quality of fruit. There is a happy medium which the prudent cultivator will adopt. Dry soil for fair quality, well worked, and moderately manured, will be found to answer best. For smaller fruits, as strawberries, raspberries, blackberries, &c., a rich soil is required.

-We have tried the following plan, and found it a certain cure for gapes in chickens : Take a mediumsized broom splint, with a sharp knife make two or three barbs near the end. Open the mouth of the chicken, As a Bleod Purifier and Tonic for the having its neck drawn straight, and, as the windpipe is opened for breath, put in the instrument, and, running it carefully down the full length of the windpipe, turn it around and Craw it up, when one or more small red worms, an inch in length, will be caught in the barbs. We have taken out four worms at one insertion. Two or three operations are often necessary, but if faithfully performed the remedy is sure. As a preventative, mix a small quantity of pepper and sulphur in their food.

-A calf kept winter and summer in thrifty growth, at two years old will make as much more beef than one neglectfully kept at twice that nge. The profit will all be found on the two-year-old, and the loss on the four-year-old; yet the owner of the

## PROOFS OF THE SUPERIOR QUALITY OF THE AMERICAN WATCH WALTHAM, MASS.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than anys watches in the market, They are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while is an old English watch there are more than 700 parts. How they run under the hardest trial watches can have, is shown by the following letter: PENN. RAILROAD COMPANY.

OFFICE OF THE GENERAL SUPERINTENDESS. ALTOONA, Pa., 15th Dec., 1866, Gentlemen : The watches manufactured you have been in use on this rathroad for several years by our enginemen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs than any watches we have ever had in 140 on this road. As you are aware, we formed trusted to those of English manufacture, of acknowledged good reputation; but as a class they never kept time as correctly, nor have they done as good service, as yourse In these statements I am susfained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Respectfully,

EDWARD H. WILLIAMS. General Superintendent. American Watch Co., Walthum. We make now five different grades of watches, named respectively as follows: Waltham, Mars. P. S. Bartlett, Waltham, Muse Wm. Ellery, Home Watch Co., Boston, Mass. Roston, Mass. All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company to be esthe best material, on the most approved principle, and to possess every requisite for a reiable time-keeper. Every dealer selling these Watches is provided with the Company's printed card of guarantee, which should accompany each Watch sold, so that buyers may feel sure that they are purchasng the genuine article. There are numerous counterfeits and imitations of our Wathes sold throughout the country, and

we would caution purchasers to be on their

guard against imposition.

Any grades of Waltham Watches may be purchased of Watch Dealers throughout the ROBBINS & APPLETON, 182 Broadway, N. Y., General Agents. R. B. Gray & Co., 616 Merchant st., San Francisco, Agent for the Pacific Coast.
